CAMBRIDGE LIBRARY COLLECTION

*Books of enduring scholarly value*

## Literary Studies

This series provides a high-quality selection of early printings of literary works, textual editions, anthologies and literary criticism which are of lasting scholarly interest. Ranging from Old English to Shakespeare to early twentieth-century work from around the world, these books offer a valuable resource for scholars in reception history, textual editing, and literary studies.

## Memoirs, Journal, and Correspondence of Thomas Moore

Throughout his professional life, the poet Thomas Moore (1779–1852) was variously celebrated and vilified for both his verse and his politics. Born in Dublin, he remained an ardent Irish patriot until his death. This eight-volume collection of Moore's memoirs, diaries and letters, edited by his friend Lord John Russell (1792–1878) and first published between 1853 and 1856, provides rare insights into a man whose genius was applauded by the *Morning Chronicle* as 'embracing almost all sides of imaginative literature, of criticism and philosophy'. Opening with a portrait of Moore's most loyal patron in his later years, the Marquis of Lansdowne, Volume 7 contains Moore's diary for the period 1833–44, during which he published *Travels of an Irish Gentleman in Search of Religion* (1833) and devoted much time to his *History of Ireland* (1835–46).

Cambridge University Press has long been a pioneer in the reissuing of out-of-print titles from its own backlist, producing digital reprints of books that are still sought after by scholars and students but could not be reprinted economically using traditional technology. The Cambridge Library Collection extends this activity to a wider range of books which are still of importance to researchers and professionals, either for the source material they contain, or as landmarks in the history of their academic discipline.

Drawing from the world-renowned collections in the Cambridge University Library and other partner libraries, and guided by the advice of experts in each subject area, Cambridge University Press is using state-of-the-art scanning machines in its own Printing House to capture the content of each book selected for inclusion. The files are processed to give a consistently clear, crisp image, and the books finished to the high quality standard for which the Press is recognised around the world. The latest print-on-demand technology ensures that the books will remain available indefinitely, and that orders for single or multiple copies can quickly be supplied.

The Cambridge Library Collection brings back to life books of enduring scholarly value (including out-of-copyright works originally issued by other publishers) across a wide range of disciplines in the humanities and social sciences and in science and technology.
