1 Characteristics of the Korean language **1**
1.1 Origin, history and distribution 1
1.1.1 The Korean language in East Asian history 1
1.1.2 Where is the Korean language from? 2
1.1.3 Korean vs. Chinese and Korean vs. Japanese: are they related, and if so, how? 2
1.1.4 Korean as a global language: is the Korean language for the Korean peninsula only? 3
1.2 Korean alphabet and romanisation 4
1.2.1 Hangeul: the Korean alphabet 4
1.2.2 Romanisation: how many styles and how different is each option? 6
1.3 Lexicon 6
1.3.1 What is the proportional ratio between Sino-Korean and pure Korean words? 6
1.3.2 Increase of English loanwords 6
1.3.3 New words in the twenty-first century 6
1.3.4 Motion- and sound-symbolic words 7
1.3.5 Can South Koreans and North Koreans understand each other? 8
1.4 Structural properties of Korean 8
1.4.1 How are words and sentences composed? 8
1.4.2 Is the word order rigid or free? 10
1.4.3 If it is not through word order, how are grammatical roles and relations expressed? 10
1.4.4 How is the speaker's attitude expressed in Korean? 12
1.4.5 How is the mood of a sentence realised? 13
1.5 Socio-pragmatic characteristics of Korean 13
1.6 Dialectal variation 15

Table of Contents
More Information

2 Production of sounds 16
2.1 Vocal organs 16
2.1.1 Overview 16
2.1.2 Larynx 16
2.1.3 Tongue 17
2.1.4 Palate 18
2.2 Major cavities 18
2.3 Processes of speech production 20
2.3.1 Initiation 20
2.3.2 Phonation 23
2.3.3 Articulation 25
2.4 Classification 26
2.4.1 Sonorants vs. obstruents 26
2.4.2 Consonants 27
2.4.2.1 Place of articulation 27
2.4.2.2 Manner of articulation 28
2.4.2.3 Phonation (or voice) types 31
2.4.3 Vowels 35
2.4.3.1 Height 35
2.4.3.2 Backness 36
2.4.3.3 Roundedness (protrusion of the lips) 37
2.5 Summary 37
Exercises 38

3 Basic concepts of phonology 40
3.1 Speech sounds, phones and phonemes 41
3.2 Phonemes and allophones 43
3.3 Criteria for phoneme identification 44
3.3.1 Minimal pairs 44
3.3.2 Complementary distribution, phonetic similarity and free variation 44
3.4 Position of sounds 47
3.4.1 Sounds within a syllable: onset, nucleus and coda 47
3.4.2 Sounds in word-initial, word-medial and word-final position 48
3.5 Underlying form, surface form and phonological rules 48
3.6 Phonological features 50
3.6.1 Why are phonological features needed? 51
3.6.2 Major class features 52
3.7 Summary 54
Exercises 54

4 Consonants 56
4.1 Consonant chart 56
4.2 Obstruents 57
4.2.1 Stops 57
4.2.1.1 Word-initial stops 60
4.2.1.2 Word-medial (intervocalic) stops 63

More Information

4.2.1.3 Word-final stops 65
4.2.1.4 Allophones and phonological identity of lax stops 65
4.2.1.5 Major allophones of stops 68
4.2.2 Fricatives 68
4.2.2.1 Word-initial fricatives 71
4.2.2.2 Word-medial (intervocalic) fricatives 73
4.2.2.3 Allophones and phonological identity of the lax fricative 74
4.2.2.4 Major allophones of fricatives 75
4.2.3 Affricates 76
4.2.3.1 Word-initial affricates 78
4.2.3.2 Word-medial (intervocalic) affricates 79
4.2.3.3 Major allophones of affricates 80
4.3 Sonorants 80
4.3.1 Nasals 81
4.3.1.1 Word-initial nasals 82
4.3.1.2 Word-medial (intervocalic) nasals 83
4.3.1.3 Word-final nasals 83
4.3.1.4 Major allophones of nasals 83
4.3.2 Liquids 83
4.3.2.1 Phonetic realisation of liquids 83
4.3.2.2 Phonemic realisation of /l/ 85
4.4 Features for consonants 88
4.4.1 Features for manner of articulation 88
4.4.2 Features for place of articulation 90
4.4.3 Features for phonation types 92
4.5 Summary 93
Exercises 94

5 Vowels 95
5.1 Phonological analysis of vowels 95
5.1.1 Monophthongs and diphthongs 95
5.1.2 Phonological status of the glide: consonant or vowel? 95
5.2 Monophthongs 97
5.2.1 How many are there? 97
5.2.1.1 Are there front rounded vowels in Korean? 98
5.2.1.2 Are /e/ and /æ/ distinctive? 99
5.2.2 The simple vowel system of Standard Korean 101
5.2.3 The phonetic realisation of monophthongs 102
5.3 Diphthongs 109
5.3.1 The diphthong /ㅢ/ 110
5.3.1.1 Is /ㅢ/ an on-glide or off-glide? 110
5.3.1.2 The phonetic realisation of /ㅢ/ 111
5.3.2 The diphthongal system of Standard Korean 112
5.4 Features for vowels 115
5.5 Summary 116
Exercises 117

More Information

6 Frequency trends of Korean sounds 118
6.1 Database 119
6.1.1 Dictionary 119
6.1.2 Spontaneous speech 119
6.2 Phoneme frequency 120
6.2.1 Overall phoneme frequency 120
6.2.2 Consonant frequency 121
6.2.2.1 Overall consonant frequency 121
6.2.2.2 Onset frequency 127
6.2.2.3 Coda frequency 130
6.2.3 Vowel frequency 133
6.3 Syllable frequency 137
6.3.1 High-frequency syllables 137
6.3.2 Syllable type frequency 140
6.4 Comparison with phoneme frequency in English 142
6.4.1 Consonant frequency in English 142
6.4.2 Vowel frequency in English 145
6.5 Summary 150
Exercises 150

7 Prosody 151
7.1 Linguistic function of prosody 151
7.2 Prosodic structure of Korean 155
7.3 Syllable 156
7.3.1 Syllable structure 157
7.3.2 Syllable types 160
7.3.3 Building a syllable structure 161
7.3.4 Syllabification and phonological processes 161
7.4 Phonological words 164
7.5 Phonological phrases 165
7.6 Intonational phrases 170
7.7 Summary 176
Exercises 176

8 Phonological rules of Korean (I) 178
8.1 Phonological rules related to syllable structure constraints 181
8.1.1 Neutralisation 181
8.1.2 Consonant-cluster simplification 183
8.2 Phonological rules via surface phonetic constraints 187
8.2.1 Post-obstruent Tensification 188
8.2.2 Obstruent Nasalisation 189
8.2.3 Liquid Nasalisation 190
8.2.4 Lateralisation 192
8.2.5 Non-coronalisation (Bilabialisation and Velarisation) 192
8.2.6 Aspiration 193
8.2.7 Similar-place Obstruent Deletion 194

8.2.8 /j/ Deletion 195
8.2.9 /h/ Deletion 196
8.3 Summary 197
Exercises 198

9 Phonological rules of Korean (II) 199
9.1 Background 199
9.2 Rules where two lexical morphemes meet 201
9.2.1 Lateralisation and Nasalisation of Sino-Korean words 201
9.2.2 Tensification of Sino-Korean words 203
9.2.3 /t/ Insertion 203
9.2.4 /n/ Insertion 206
9.3 Rules between lexical morphemes and grammatical morphemes 207
9.3.1 Palatalisation 207
9.3.2 Verbal Suffix Tensification: after a nasal-ending stem 208
9.3.3 Glide Formation in verbal inflection 209
9.3.4 /h/ Deletion in verbal inflection 210
9.3.5 /ɯ/ Deletion in verbal inflection 210
9.3.6 /ɑ/ or /ʌ/ Deletion in verbal inflection 211
9.4 Rules relating to the word-initial liquid or nasal in Sino-Korean words 211
9.4.1 /l/ into /n/ in Sino-Korean words 211
9.4.2 /n/ Deletion in Sino-Korean words 211
9.5 Summary 215
Exercises 215

10 Loanword phonology 217
10.1 Origin and orthography of loanwords 218
10.2 Consonant correspondence between English and Korean 219
10.2.1 Correspondence between /p, t, k/ in English and /p^h, t^h, k^h/ in Korean 220
10.2.2 Correspondence between /b, d, g/ in English and /p, p^*/, /t, t^*/, /k, k^*/ in Korean 221
10.2.3 Correspondence between /f/, /s/, /θ/, /ʃ/ in English and /p^h/, /s, s^*/, /s, s^*/, /s+j, s^*+j/ in Korean 221
10.2.4 Correspondence between /v/, /z/, /ʒ/ and /ð/ in English and /p/, /tɕ/, /tɕ/, /t/ in Korean 222
10.2.5 Correspondence between /tʃ/ and /dʒ/ in English and /$tɕ^h$/ and /tɕ/ in Korean 223
10.2.6 Correspondence between /l/ and /r/ in English and /l/ in Korean 223
10.2.7 Correspondence between /j/ and /w/ in English and /j/ and /w/ in Korean 224
10.3 Vowel correspondence between English and Korean 224
10.4 Syllable structure and loanword phonology 225
10.5 Application of Korean phonological rules 228
10.5.1 Why is *out* pronounced as [ɑut] not [ɑus]? 228
10.5.2 Why is *rugby* pronounced as [lʌkp^*i]? 228
10.5.3 Why is *good morning* pronounced as [kun moniŋ]? 229
