u_* scaling 46, 72, 230

variability
  in u_* 85
  of wind speed 231
variational approach 235
vector
  four-dimensional 27
velocity fields 10, 28
  fluctuations 44
  group **14**, 15, 20, 26, 30, 32, 33, 103, 147
  transport 19
verification of quasi-linear theory 124
  against analysis 259
  against observations 253
verifying analysis 210, 253
vertical velocity 9
virtual-state interaction 138
viscosity 44
  molecular 45
viscous layer 75
  stress 116, 122
von Kármán constant 45, 68, 112
vortex force **93**, 105
vortex stretching 238
vorticity 9, 10, 89, **90**, 92, 93, 94, 106

WAM 209
warm-pool area 251
water velocity 10
wave
  breaking 32, 39, 155, 156, 199
  damping 58
  dissipation 198
  energy **20**, 21, 24, 25
  energy density 15, 18
  evolution 34
  group(s) 28
  height $H_{1/3}$ and H_S 33, 34
  length **14**, 16, 23, 25, 38, 82, 93
  momentum **21**, 22
  motion 9
  propagation 31, 32
  reflection 32
  spectrum 8, **22**, 27, 32, 33, 39, 99, 100, 104, 125, 139, 162, 171, 191, 193, 214
  variance **24**, 32, 33, 36, 41, 43, 46, 53, 88, 97, 225, 227, 228, 230
wave age **38**, 39, **52**, 108, 237
  dependence of wave-induced stress 111
  parameter 108
wave prediction 34, 36, 38, 44, 73, 83, 88, 159, 167, 183, 186, 194, 200, 205, 209, 219, 221, 230, 239, 253
wave stress 102, 108, 116
wave-driven wind 73
wave-height observations
  from altimeter 260
  from buoys 210, 256
wave-induced stress 60, **65**, 101, 122, 124, 214
wave–mean flow interaction 57, 67, 89
wavenumber **14**, 16, 17, 26
  dependence of angular width 111
  spectrum **23**, 24, 25, 33
wave-rider spectra 126
waves
  deep water 14, 15
  dispersive 15
  duration limited 35
  finite steepness 22
  high frequency 14
  shallow water 14, 15, 22
  shock 15
  solitary 15
  surface gravity 15
WAVES87 52
wave-tank experiments 177
weakly nonlinear four-wave interactions 156
weather forecasting 234
white capping 22, 26, **199**, 200
Whitham's average Lagrangian approach 17, 20, 143, 147
Willebrand's action balance derivation 26
wind input 225
wind variability 88
wind-driven ocean circulation 211
wind-generated ocean waves 7
wind-input source function 56
