boreholes
  analysis of geological data from, 53
  exercises on, 54–6
  solution to exercises on, 118–23
British Geological Survey maps
  exercises based on:
    Arran, 65–6
    Brighton and Worthing, 61
    Buxton, 64–5
    Clitheroe and Gisburn, 63
    Derby, 63
    Isle of Wight, 64
    Loch Lochy, 67
    Shrewsbury, 62
  solutions to exercises based on:
    Arran, 138–40
    Brighton and Worthing, 129
    Buxton, 137
    Clitheroe and Gisburn, 134–5
    Derby, 132–3
    Isle of Wight, 136
    Loch Lochy, 141–3
    Shrewsbury, 130–1
  problem maps based on:
    Alloa, 18
    Brighton and Worthing, 15
    Derby, 19
    Pembroke and Linney Head, 14
    Reigate, 10
    The Roaches and Upper Dove Valley, 29
    Shrewsbury, 20
    Witney, 5
  suggested exercises based on:
    Bristol, 69
    Cheddar, 69
    Edinburgh, 68
    Haverfordwest, 69
    Matlock, 68
    Wells, 69

dip
  angular divergence effect on, 70
  calculation of true and apparent, 8
  vertical exaggeration effect on, 70

faults
  classification, 22–3
  maps and exercises on, 24–9
  solutions to maps and exercises on, 88–93
  terminology, 21
folds
  introductory notes, 11
  maps of, 12–15
  solution to maps of, 79–81
  terminology, 11

Geological Column
  symbols for the major subdivisions, 3
geological maps (problem type)
  description of, 45
  exercises on, 46–53
  solution to exercises on, 110–17
geometrical construction
  applications to structural geology, 57
  exercises using, 57–9
  solution to exercises using, 124–7

horizontal beds
  map of, 5–7
  solution to map of, 14–15

inclined beds
  maps of, 8–10
  solution of maps of, 76–8

strike lines, 31
structural contour lines, 31
symbols, lithological and structural, 4

three point problems
  exercises based on:
    faults, 40–3
    folds, 36–7
    inclined beds, 32–5
    unconformities, 38–9
  solutions to exercises based on:
    faults, 103–9
    folds, 99–100
    inclined beds, 94–8
    unconformities, 101–2

unconformities
  development of, 17
  maps based on, 18–20
  solution to maps based on, 82–7
