Preface *page* xi
Notation xv

1 Introduction **1**
1.1 Examples of Deterministic Dynamical Systems 1
1.2 Examples of Stochastic Dynamical Systems 9
1.3 Mathematical Modeling with Stochastic Differential Equations 11
1.4 Outline of This Book 11
1.5 Problems 13

2 Background in Analysis and Probability **14**
2.1 Euclidean Space 14
2.2 Hilbert, Banach, and Metric Spaces 15
2.3 Taylor Expansions 16
2.4 Improper Integrals and Cauchy Principal Values 17
2.5 Some Useful Inequalities 19
2.6 Hölder Spaces, Sobolev Spaces, and Related Inequalities 22
2.7 Probability Spaces 27
2.8 Stochastic Processes 35
2.9 Convergence Concepts 38
2.10 Simulation 39
2.11 Problems 41

3 Noise **44**
3.1 Brownian Motion 44
3.2 What Is Gaussian White Noise? 50
3.3 *A Mathematical Model for Gaussian White Noise 52

Table of Contents
More information

3.4 Simulation 56
3.5 Problems 58

4 A Crash Course in Stochastic Differential Equations 61
4.1 Differential Equations with Noise 61
4.2 Riemann-Stieltjes Integration 62
4.3 Stochastic Integration and Stochastic Differential Equations 63
4.4 Itô's Formula 75
4.5 Linear Stochastic Differential Equations 82
4.6 Nonlinear Stochastic Differential Equations 88
4.7 Conversion between Itô and Stratonovich Stochastic Differential Equations 89
4.8 Impact of Noise on Dynamics 92
4.9 Simulation 94
4.10 Problems 95

5 Deterministic Quantities for Stochastic Dynamics 99
5.1 Moments 100
5.2 Probability Density Functions 102
5.3 Most Probable Phase Portraits 111
5.4 Mean Exit Time 118
5.5 Escape Probability 123
5.6 Problems 129

6 Invariant Structures for Stochastic Dynamics 133
6.1 Deterministic Dynamical Systems 134
6.2 Measurable Dynamical Systems 148
6.3 Random Dynamical Systems 150
6.4 Linear Stochastic Dynamics 160
6.5 *Random Invariant Manifolds 170
6.6 Problems 180

7 Dynamical Systems Driven by Non-Gaussian Lévy Motions 188
7.1 Modeling via Stochastic Differential Equations with Lévy Motions 189
7.2 Lévy Motions 190
7.3 The α-Stable Lévy Motions 197
7.4 Stochastic Differential Equations with Lévy Motions 214
7.5 Mean Exit Time 221
