Preface vii
List of Contributors *page* ix

PART ONE. INTRODUCTORY CHAPTERS

1 Biofilm-Dependent Regulation of Gene Expression 3
Philippe Lejeune

2 Quorum Sensing and Microbial Biofilms 18
Teresa R. de Kievit and Barbara H. Iglewski

3 Antimicrobial Agents and Biofilms 36
Michael R. W. Brown and Anthony W. Smith

PART TWO. BIOFILMS ON PROSTHETIC DEVICES

4 Animal Models of Orthopaedic Implant Infection 59
Yuehuei H. An, Christopher M. Hill, and Richard J. Friedman

5 Intravascular-Catheter-Related Infections 86
Hend A. Hanna and Issam Raad

6 Molecular Basis of Biofilm Formation by *Staphylococcus epidermidis* 110
Christine Heilmann

7 Biofilm Complications of Urinary Tract Devices 136
Sean P. Gorman and David S. Jones

PART THREE. ORAL BIOFILMS

8 Novel Microscopic Methods to Study the Structure and Metabolism of Oral Biofilms 173
David J. Bradshaw and Philip D. Marsh

Edited by Michael Wilson and Deirdre Devine
Table of Contents
More information

9 **Oral Streptococcal Genes That Encode Biofilm Formation** 189
C. Y. Loo

10 **Gene Expression in Oral Biofilms** 212
Robert A. Burne, Yi-Ywan M. Chen, Yunghua Li, Samir Bhagwat, and Zezhang Wen

PART FOUR. BIOFILMS ON SHEDDING SURFACES

11 **Dissection of the Genetic Pathway Leading to Multicellular Behaviour in *Salmonella enterica* Serotype Typhimurium and Other Enterobacteriaceae** 231
Ute Römling, Werner Bokranz, Ulrich Gerstel, Heinrich Lünsdorf, Manfred Nimtz, Wolfgang Rabsch, Helmuth Tschäpe, and Xhavit Zogaj

12 **Bacterial Growth on Mucosal Surfaces and Biofilms in the Large Bowel** 262
S. Macfarlane and G. T. Macfarlane

13 ***Pseudomonas aeruginosa* Biofilms in Lung Infections** 287
Kimberly K. Jefferson and Gerald B. Pier

Index 311

Color section follows p. 178.
