CONTENTS

Preface page ix

1 Introduction 1
1.1 Definition of Deep-Sea Fishes 1
1.2 The Structure of the World's Ocean Basins 2
1.2.1 Ocean Depth Zones 2
1.2.2 Ocean Basin Formation, Slopes, Plains, Ridges, Islands and Seamounts 6
1.2.3 The Bathyal Slopes (200–3000 m Depth) 11
1.2.4 Hydrothermal Vents and Cold Seeps 12
1.2.5 The Abyss (3000–6000 m Depth) 13
1.2.6 The Hadal Zone (>6000 m Depth) 15
1.3 History of the Ocean Basins 16
1.4 The Deep-Sea Environment 21
1.4.1 Deep Water Formation, Circulation and Oxygenation of the Deep 21
1.4.2 Surface Ocean Circulation and Gyres 27
1.4.3 Ocean Biomes 27
1.5 Food Supply to the Deep and the Distribution of Biomass 30
1.5.1 Export of Particulate Organic Matter from the Surface 30
1.5.2 Food Falls 31
1.5.3 Distribution of Biomass in the Deep Sea 31
1.6 History of Discovery of Deep-Sea Fishes 35
1.6.1 From the Beginnings of Ichthyology to the First Deep-Sea Discoveries, 1554–1860 35
1.6.2 Great Voyages of Discovery, 1860–1914 38
1.6.3 To the First Manned Descents into the Deep, 1914–1945 41
1.6.4 The Great Twentieth-Century Scientific Expansion from 1945 42
1.7 Collection and Methods 49
1.7.1 Accessing the Deep Sea 49
1.7.2 Methods of Fish Capture 51
1.7.3 Imaging Systems 61
1.7.4 Tagging and Tracking of Fishes 65

2 Colonisation of the Deep Sea by Fishes 68
2.1 Introduction 68
2.2 Present-Day Depth Distribution of Fishes 68
2.3 The History of Deep-Sea Fishes 72
2.4 Origins of the Modern Deep-Sea Fish Fauna 76
2.4.1 Agnatha 76
2.4.2 Chondrichthyes 76
2.4.3 Actinopterygii 79
2.4.4 Sarcopterygii 85
2.5 Ancient and Secondary Deep-Sea Fishes 85

3 Adaptations to the Deep Sea 87
3.1 Introduction 87
3.2 Energy Metabolism 87
3.3 Effects of Pressure 90
3.4 Size and Shape 91
3.5 Buoyancy 93
3.5.1 The Swim Bladder and Gas Gland 93
3.5.2 Lipid Buoyancy 100
3.5.3 Weight Reduction 101
3.6 Muscle Adaptations 102
3.7 Gill Area 103
3.8 Heart and Circulatory System 104
3.9 The Art of Slow Swimming and the Optimum Speed Fallacy 105
3.10 Feeding and Growth 108
3.11 Life History Strategies 114
3.12 Excretion 118
3.13 Sensory and Communication Systems 119
3.13.1 Diversity of Brain Morphology 119
3.13.2 Vision 122
3.13.3 Camouflage in the Deep 125
3.13.4 Bioluminescence 127
3.13.5 The Olfactory and Gustatory Systems 133
3.13.6 Underwater Sound and the Octavo Lateral System 133

Table of Contents
More Information

3.14 Time in the Deep Sea 135
3.15 Diseases and the Immune System 136
3.16 The Maximum Depth Limit for Fishes 138

4 Systematic Description of Deep-Sea Fishes 139
4.1 Class Myxine 139
4.1.1 Order Myxiniformes 139
4.1.2 Order Petromyzontiformes 141
4.2 Class Chondrichthyes 142
4.2.1 Order Chimaeriformes 142
4.2.2 Order Hexanchiformes 144
4.2.3 Order Pristiophoriformes 144
4.2.4 Order Squatiniformes 145
4.2.5 Order Squaliformes 145
4.2.6 Order Lamniformes 149
4.2.7 Order Carcharhiniformes 150
4.2.8 Order Torpediformes 152
4.2.9 Order Pristiformes 152
4.2.10 Order Myliobatiformes 152
4.2.11 Order Rajiformes 153
4.3 Class Actinopterygii 155
4.3.1 Order Albuliformes 155
4.3.2 Order Notacanthiformes 156
4.3.3 Order Anguilliformes 158
4.3.4 Order Alepocephaliformes 166
4.3.5 Order Argentiniformes 171
4.3.6 Order Stomiiformes 175
4.3.7 Order Ateleopodiformes 186
4.3.8 Order Aulopiformes 187
4.3.9 Order Myctophiformes 196
4.3.10 Order Lampriformes 203
4.3.11 Order Polymixiiformes 207
4.3.12 Order Zeiformes 208
4.3.13 Order Stylephoriformes 210
4.3.14 Order Gadiformes 210
4.3.15 Order Ophidiiformes 228
4.3.16 Order Batrachoidiformes 238
4.3.17 Order Gobiesociformes 238
4.3.18 Order Stephanoberyciformes 239
4.3.19 Order Beryciformes 241
4.3.20 Order Cetomimiformes 245
4.3.21 Order Syngnathiformes 248
4.3.22 Order Scorpaeniformes 249
4.3.23 Order Perciformes 264
4.3.24 Order Pleuronectiformes 294
4.3.25 Order Tetraodontiformes 299
4.3.26 Order Lophiiformes 301
4.4 Class Sarcopterygii 314
4.4.1 Order Coelacanthiformes 314

5 The Deep-Sea Fish Faunas 317
5.1 Mesopelagic and Bathypelagic Fish Fauna 317
5.1.1 Arctic Ocean 319
5.1.2 Pacific Ocean 319
5.1.3 Indian Ocean 333
5.1.4 Atlantic Ocean 334
5.1.5 The Antarctic Ocean 335
5.2 Bathyal Demersal Fishes (200–3000 m Depth) 335
5.3 Abyssal Demersal Species (3000–6000 m Depth) 347
5.4 Fishes of the Hadal Zone (>6000 m Depth) 356
5.5 Fishes of Hydrothermal Vents and Cold Seeps 358
5.6 The Circumglobal Deep-Sea Fish Fauna 362

6 Deep-Sea Fisheries and Conservation 363
6.1 Global Trends in Deep Fishing 363
6.2 Types of Fishing 364
6.2.1 Baited Traps and Lines 364
6.2.2 Static Nets 364
6.2.3 Pelagic Trawling 364
6.2.4 Bottom Trawling 365
6.3 Global Trends in Fish Catch 365
6.4 Composition of the World Deep-Sea Fish Catch 367
6.4.1 The Top Twenty Deep-Sea Species 384
6.4.2 Other Species 391
6.5 Overview of the Fishing Trends 400
6.6 The Impacts of Deep-Sea Fishing 400
6.7 Conclusions 403

Epilogue 404

Appendix 406
References 415
Index 470
