Contents

Preface *page* ix

Part 1 Introduction
1 Matter and light 3
2 Special relativity 8
3 Quantum mechanics 16
4 Relativistic quantum theory 26

Part 2 Basic particle physics
5 The fundamental forces 39
6 Symmetry in the microworld 47
7 Mesons 52
8 Strange particles 56

Part 3 Strong interaction physics
9 Resonance particles 63
10 *SU*(3) and quarks 65

Part 4 Weak interaction physics I
11 The violation of parity 71
12 Fermi's theory of the weak interactions 75
13 Two neutrinos 79
14 Neutral kaons and **CP** violation 82

Part 5 Weak interaction physics II
15 The current–current theory of the weak interactions 87
16 An example leptonic process: electron–neutrino scattering 90

Table of Contents
More information

17 The weak interactions of hadrons 92
18 The W boson 94

Part 6 Gauge theory of the weak interactions
19 Motivation for the theory 99
20 Gauge theory 101
21 Spontaneous symmetry breaking 105
22 The Glashow–Weinberg–Salam model 108
23 Consequences of the model 112
24 The hunt for the $W^{\pm}$, Z^0 bosons 116

Part 7 Deep inelastic scattering
25 Deep inelastic processes 125
26 Electron–nucleon scattering 127
27 The deep inelastic microscope 131
28 Neutrino–nucleon scattering 134
29 The quark model of the structure functions 138

Part 8 Quantum chromodynamics – the theory of quarks
30 Coloured quarks 145
31 Colour gauge theory 150
32 Asymptotic freedom 154
33 Quark confinement 160

Part 9 Electron–positron collisions
34 Probing the vacuum 167
35 Quarks and charm 171
36 Another generation 178

Part 10 The Standard Model and beyond
37 The Standard Model of particle physics 185
38 Precision tests of the Standard Model 189
39 Flavour mixing and **CP** violation revisited 195
40 The hunt for the Higgs boson 199
41 Neutrino masses and mixing 204
42 Is there physics beyond the Standard Model? 209
43 Grand unification 211
44 Supersymmetry 214
45 Particle physics and cosmology 218
46 Superstrings 226

Appendices
1 Units and constants 235
2 Glossary 236
3 List of symbols 244
4 Bibliography 246
5 Elementary particle data 250

Name index 251
Subject index 252
