List of Figures *page* xiii
List of Tables xiv
Preface xv
Acknowledgments xvii

1 Introduction 1
1.1 What Are You Trying to Do, and Why Does It Matter? 5
1.2 AI: Your Research Assistant 5
1.3 Activity: What Interests You? 6
1.3.1 Step 1: Getting Started 6
1.3.2 Step 2: A Peek into Existing Work 8
1.3.3 Step 3: Identify Your Key Words 9
1.3.4 Step 4: Leverage AI 10
1.3.5 Tips for Success 10

2 Finding Your Field 12
2.1 Build Your Research Identity 13
2.2 Connect to Your Community 16
2.3 How to Read a Research Paper 18
2.4 AI Is Your Rubber Duck 2.0 21
2.5 Activity: Finding Your Field 24
2.5.1 Step 1: Getting Specific 24
2.5.2 Step 2: Leverage AI 32
2.5.3 Step 3: Find One Paper 33
2.5.4 Tips for Success 33

3 Research Tools 35
3.1 Basic Tools for Paper Discovery 36
3.2 Reference Managers 39

Table of Contents
More Information

3.3 LaTeX and BibTeX 43
3.4 Intelligently Leveraging AI Tools 46
3.5 Activity: Building Your Research Toolkit 51
3.5.1 Step 1: Paper Discovery 52
3.5.2 Step 2: Reference Management 53
3.5.3 Step 3: LaTeX and BibTeX 54
3.5.4 Step 4: AI Tool Exploration 56
3.5.5 Step 5: Workflow Integration 57
3.5.6 Tips for Success 58

4 Identifying Research Problems 62
4.1 Getting Specific 63
4.2 Formulating Research Questions 64
4.3 Scoping Your Research Project 67
4.4 Setting a Solid Foundation with Your AI Research Assistant 70
4.5 Activity: Formulating Research Questions 72
4.5.1 Step 1: Map Your Field's Conference Landscape 73
4.5.2 Step 2: Extract Research Themes 74
4.5.3 Step 3: Narrow to Specific Research Directions 75
4.5.4 Step 4: From Problems to Question Components 76
4.5.5 Step 5: Formulate Initial Research Questions 77
4.5.6 Step 6: Question Evaluation and Scoring 78
4.5.7 Step 7: Scope Assessment and Refinement 79
4.5.8 Step 8: Final Selection and Validation 80
4.5.9 Tips for Success 81

5 Effective Literature Reviews 83
5.1 Types of Reviews 84
5.2 Advanced Search Techniques 86
5.3 Writing a Literature Review 87
5.4 AI as a Collaborative Reviewer 90
5.5 Activity: Categorizing Related Work 94
5.5.1 Step 1: Review of Literature 94

Table of Contents
More Information

5.5.2 Step 2: Identify Commonalities and Differences 95
5.5.3 Step 3: Develop Categories 95
5.5.4 Step 4: Group Papers 96
5.5.5 Step 5: Identifying Gaps in Your Field 97
5.5.6 Tips for Success 97

6 Research Methodologies and Design 99
6.1 Research Design 100
6.2 Research Methodologies 107
6.2.1 Qualitative Methods 109
6.2.2 Quantitative Methods 112
6.2.3 Mixed Methods 115
6.3 Ethics in Research 118
6.4 AI: Your Research Codesigner 121
6.5 Activity: Creating a Research Project Budget and Timeline 128
6.5.1 Step 1: Research Design Foundation 129
6.5.2 Step 2: Methodology Selection and Justification 130
6.5.3 Step 3: Ethical Considerations and IRB Planning 131
6.5.4 Step 4: AI-Assisted Design Critique and Refinement 132
6.5.5 Step 5: Feasibility Assessment and Timeline 133
6.5.6 Step 6: Final Research Design Proposal 134
6.5.7 Step 7: Peer Review and Feedback Integration 135
6.5.8 Tips for Success 136

7 Data Analysis 138
7.1 The Basics 141
7.2 Error and Confidence 145
7.3 Data Visualization 152
7.4 AI as a Data Guide 154
7.4.1 Safe Data Handling Practices 155
7.4.2 Effective Collaboration Workflows 156
7.4.3 Specific Applications and Examples 157

Table of Contents
More Information

7.5 Activity: Finding Data and Creating Effective Visualizations 158
7.5.1 Step 1: Data Understanding and Quality Assessment 159
7.5.2 Step 2: Exploratory Analysis with Visualizations 159
7.5.3 Step 3: Analysis Planning and Method Selection 160
7.5.4 Step 4: Conduct Analysis with Appropriate Rigor 161
7.5.5 Step 5: Results Interpretation and Visualization 161
7.5.6 Step 6: AI-Assisted Enhancement and Validation 162
7.5.7 Step 7: Final Report and Reflection 162
7.5.8 Tips for Success 163

8 Technical Writing 165
8.1 Knowing Your Audience: Conferences and Journals 166
8.2 A Quick-Start Guide to Paper Writing 167
8.3 Telling a Cohesive Story: Abstracts and Introductions 168
8.4 AI: Your New Coauthor? (*No!*) 170
8.5 Activity: Drafting an Abstract 172
8.5.1 Step 1: Clarify the Details First 172
8.5.2 Step 2: Collaborate: Write an Abstract for a Peer 173
8.5.3 Step 3: Review and Discuss 173
8.5.4 Step 4: Be the Editor 174
8.5.5 Tips for Success 174

9 The Peer Review Process 176
9.1 How It Works 176
9.1.1 Review Models and Transparency 178
9.1.2 Review Scoring Systems 180
9.1.3 Peer Feedback and Interaction 181
9.1.4 Metrics and Impact Factors 182
9.2 What to Know as an Author 183
9.3 What to Know as a Reviewer 185
9.4 Activity: Peer Review Practice with AI 189
9.4.1 Step 1: Identify a Target Conference 189

Table of Contents
More Information

9.4.2 Step 2: Prepare Your Research for Assessment 190
9.4.3 Step 3: AI-Assisted Peer Review Simulation 190
9.4.4 Step 4: Critical Analysis of Feedback 191
9.4.5 Step 5: Iterative Improvement with AI 192
9.4.6 Step 6: Final Reflection 193
9.4.7 Extensions 193
9.4.8 Tips for Success 193
9.5 Challenge: Peer Review in the Wild 194
9.5.1 Step 1: Find a Research Showcase 194
9.5.2 Step 2: Review the Research 194
9.5.3 Step 3: Review Your Review 195
9.5.4 Extensions 196

10 Effective Presentations 197
10.1 Technical Talks 198
10.2 Scientific Posters 200
10.3 AI: Helping You Tell a Good Story 202
10.4 Activity: Refining Your "Elevator Pitch" 206
10.4.1 Step 1: Draft Your Core Components 206
10.4.2 Step 2: What Are Your Conversation Goals? 207
10.4.3 Step 3: Practice and Refine 208
10.4.4 Tips for Success 209

11 Productive Research and Communication 211
11.1 Managing Your Time 212
11.2 Communicating within a Lab 215
11.3 Strategies for Organization 218
11.4 AI for Tailored Productivity 220
11.5 Activity: Assessing Your Time and Opportunities 223
11.5.1 Step 1: Set Your Baseline and Goals 224
11.5.2 Step 2: Track Your Week 225
11.5.3 Step 3: Start with the Most Important Pattern 227
11.5.4 Step 4: Assess against Your Research Goals 230
11.5.5 Step 5: Decide Your Top Three Changes 232

More Information

11.5.6 Step 6: Set Up Your Accountability System 234
11.5.7 What Success Looks Like 236

12 Considering Graduate Studies 238
12.1 Your Homework: Do the Research 239
12.2 Activity: Take an AI-Guided Campus Tour 240
12.2.1 Step 1: Choose Specific Programs 241
12.2.2 Step 2: Face the Financial Reality 242
12.2.3 Step 3: Plan Your Actual First Semester Schedule 243
12.2.4 Step 4: Map Your Path to Graduation 245
12.2.5 Step 5: Where Will This Degree Take You? 246
12.2.6 Step 6: Validate Everything with Real Humans 247
12.2.7 Your Decision Document: A Tool for Clarity 249
12.2.8 Tips for Success 250
