**Diverse Communities**

The Problem with Social Capital
Barbara Arneil, *University of British Columbia*

A critique of Robert Putnam’s social capital thesis from the perspective of women and cultural minorities in America. Arneil questions whether Putnam’s thesis of decline applies equally to all Americans, concluding that lessons learned from America’s civic past must be used to build just and diverse communities in the future.

**Political Theory and the Ecological Challenge**

Edited by Andrew Dobson, *The Open University* and Robyn Eckersley, *University of Melbourne*

Dobson and Eckersley commission an international group of political theory scholars to think through the challenge that political ecology presents to political theory. Looking at fourteen familiar political ideologies and concepts such as liberalism, conservatism and justice, they question how they are re-shaped, distorted or transformed from an environmental perspective.

The Concept of Constituency
Political Representation, Democratic Legitimacy, and Institutional Design
Andrew Rehfeld, Washington University, St Louis
This book focuses on a theoretical and historical treatment of the electoral constituency. It argues for a novel alternative — randomly assign all voters into 435 electoral constituencies around the nation in which they would remain for life. The main purpose is to offer a sustained justification for the electoral constituency itself.

Republicanism
A Shared European Heritage
Edited by Martin van Gelderen, European University Institute and Quentin Skinner, University of Cambridge

Volume 1: Republicanism and Constitutionalism in Early Modern Europe
Volume 2: The Values of Republicanism in Early Modern Europe

These volumes offer the first comprehensive study of republicanism as a shared European heritage. Professors Skinner and van Gelderen have assembled an internationally distinguished set of contributors whose studies highlight the richness and diversity of European republican traditions. Volume I looks at anti-monarchism in Europe, humanist theories of citizenship and the constitutional nature of the republic. Volume II is devoted to the study of key republican values - liberty, virtue, politeness and tolerance. It also addresses the role of women and the relationship between republicanism and the rise of commercial society.
