Great Powers and Outlaw States
Unequal Sovereigns in the International Legal Order
Gerry Simpson
London School of Economics and Political Science

This is the first book to have examined the role of Great Powers and outlaw states in international society. From the Congress of Vienna to the ‘war on terrorism’, these unequal sovereigns have had a major impact on the way international relations are conducted. In this book, the author offers a way of understanding recent transformations in the global political order by recalling the lessons of the past, in particular the recent conflicts in Kosovo and Afghanistan.

An Introduction to the International Criminal Court
2nd Edition
William A. Schabas
National University of Ireland, Galway

The International Criminal Court ushers in a new era in the protection of human rights. Schabas reviews the history of international criminal prosecution, the drafting of the Rome Statute of the International Criminal Court and the principles of its operation, including the scope of its jurisdiction and the procedural regime. This revised edition considers the court’s start-up preparations, including election of judges and prosecutor. It also addresses the difficulties created by US opposition, and analyses the various measures taken by Washington to obstruct the Court. Indispensable for students and practitioners.

The Dynamic Constitution
An Introduction to American Constitutional Law
Richard H. Fallon
Harvard University, Massachusetts

Fallon introduces non-lawyers to the workings of American Constitutional Law, writing with clarity and vigor about leading constitutional doctrines and issues, and describing many of the fascinating cases and personalities that have shaped constitutional law. He shows how historical, cultural, and other factors have influenced constitutional adjudication, making clear the dynamic nature of the Constitution.

International Law
Being the Collected Papers of Hersch Lauterpacht
Volume 5: Disputes, War and Neutrality, Parts IX-XIV
Hersch Lauterpacht
Edited by Elihu Lauterpacht
University of Cambridge

This is the final volume in a 5 volume collection of the papers and articles (other than books) by Sir Hersch Lauterpacht (1897–1960), who is generally regarded as one of the most distinguished and influential public international lawyers of the twentieth century. There is no other collection of his works. The papers are so detailed and wide ranging that, presented in systematic arrangement, they almost amount to a major treatise on the whole subject of international law as it developed in the first half of the twentieth century.

The United States and the Rule of Law in International Affairs

John F. Murphy
Villanova University, Pennsylvania

The United States has often proclaimed its support for the rule of law in international affairs, but has found it increasingly difficult to adhere to it in practice. John Murphy shows the wide-ranging difficulties standing in the way of US adherence to the rule of law. The book also examines the reasons for the declining US support for the international institutions it was instrumental in creating, and US unwillingness to support new initiatives in international law which enjoy the support of most other members of the world community.

CAMBRIDGE STUDIES IN INTERNATIONAL AND COMPARATIVE LAW

Imperialism, Sovereignty and the Making of International Law
Antony Anghie, University of Utah

This book examines the relationship between imperialism and international law. Traditional histories of the discipline present colonialism and non-European peoples as peripheral concerns. By contrast, Anghie argues that international law has always been animated by the ‘civilizing mission’ – the project of governing non-European peoples.
