Remedies in Contract and Tort
Second edition
Donald Harris, David Campbell and Roger Halson
Remedies is one of the key organizing concepts of the obligations approach to the common law. This edition determines the place of remedies in contract and tort within the debate about the reform of the common law obligation.

Atiyah’s Accidents, Compensation and the Law
Sixth edition
Peter Cane and Patrick Atiyah
This text provides a treatment of the law relating to compensation for personal injuries. It discusses relevant legal rules, as well as social, political and economic issues underlying the law, and the practical operation of the tort system.

Sets out the modern law of contract as a set of principles based upon moral values and social policies contemporary to the 2000s.

The Law of Contract
Fourth edition
Hugh Collins, London School of Economics and Political Science

Previous editions of this text have consistently been a favourite amongst common law lawyers. This new edition has been brought fully up to date and will be of interest to those studying ‘advanced’ obligations/common law modules. Undergraduates who study contract courses with a strong socio-legal tradition will also find this text invaluable as it uniquely grounds the nature of contract law in its social and political context.
