The Cambridge History of Turkey represents a monumental enterprise. The History, comprising four volumes, covers the period from the end of the eleventh century, with the arrival of the Turks in Anatolia, through the emergence of the early Ottoman state, and its development into a powerful empire in the fifteenth and sixteenth centuries, encompassing a massive territory from the borders of Iran in the East, to Hungary in the West, and North Africa and the Arabian Peninsula in the South. The last volume covers its destruction in the aftermath of the First World War, and the history of the modern state of Turkey which arose from the ashes of empire. Chapters from an international team of contributors reflect the very significant advances that have taken place in Ottoman history and Turkish studies in recent years.

Readership

Academic researchers, graduate students

Market

History, Middle East Studies, Ottoman History, Social History

Format

Books in this series will be published in hardback only

Publication c. October 2006

The Cambridge History of Turkey

Volume 3: The Later Ottoman Empire, 1603-1839

Ed: Suraiya N. Faroqhi

Volume 3 of The Cambridge History of Turkey traces the history of the later Ottoman Empire from the death of Mehmed III in 1603 to the proclamation of the tanzimat in 1839.

The volume focuses on the tensions between the ruling elite in Istanbul and their provincial subjects. Other sections focus on religious groups, women, trade, rural life, music, and architecture. The history emphasises the political, cultural and artistic accomplishments of the Ottomans in the post-classical period, thus challenging traditional notions that this was a period of stagnation.

Contents: 1. Introduction Suraiya Faroqhi; 2. Ecology of the Ottoman lands Wolf Hütteroth; Part I. An Empire in Transition: 3. Political and diplomatic developments Christoph K. Neumann; 4.
