INDEX OF AUTHORS AND SUBJECTS

- Adams, J. C., 187
 Adelsberger, U., 77, 123, 309
 Airmass, variations needed to account
 for I.o.d. and wobble, 132
 Airy, G., 273, 297
 Airy-Gold problem, 273
 Albrecht, T., 61
 Alfvén, H., 229
 Aliasing, 70, 81, 295
 Almagest, 189, 190
 Alternating tensor, 9
 Ammonium maser, 79
 Ancient eclipses, 186, 203, 206
 Andersson, F., 78, 97, 297
 Anelastic deformation, 16, 18, 20
 Angot, A., 109
 Angular momentum, 9, 11
 atmosphere, 12
 core, 243
 oceans, 128
 relative, 9
 Angular velocity, 13
 Annual wobble, 52
 Antarctic
 circumpolar current, 128
 melting ice cap, 232–7
 Arkell, W. J. 259
 Assami, E., 254, 297
 Associated legendre functions, 287
 Astatic magnetometer, 252
 Astronomic colatitude, 67
 Atmosphere
 irregular motions, 140
 response of oceans to atmospheric
 pressure, 101
 seasonal variations, 107, 111
 tides, 221, 225
 Atomic frequency standards, 79, 84–6
 Autocorrelation, 292
 Axial dipole, 241
 Axis
 of deformation, 38, 40
 of figure, 40
 of reference, 5
 principal, 40
 Backlund, J. O., 151
 Bagnold, R. A., 262
 Bakhuyzen, H., 160, 297
 Balsley, J., 253, 302
 Bancroft, D., 155, 297
 Bannon, J., 108, 112, 297
 Barchans, 262
 Baroclinic wave, 104
 Barotropic wave, 103
 Barrell, J., 250, 297
 Bartels, J., 287, 299
 Bartlett, M. S., 291, 297
 Bauer, A., 235, 297
 Baussan, J., 160, 297
