Contents

<i>Authors' preface</i>	ix
<i>Abbreviations employed in this book</i>	xi
Part 1 CHEMISTRY	1
Nomenclature and purification of BAs	1
1 Synthetic routes from benzenes and naphthalenes	3
1.1 The ketoacid route	3
1.2 Organometallic intermediates	9
1.3 The Elbs reaction	13
1.4 BAQs and the Hayashi rearrangement	14
1.5 Chemical reactivity of BA	18
2 Synthetic routes from anthracenes (A-ring formation)	21
2.1 Friedel–Crafts reactions	21
2.2 Rearrangement of spiro compounds	22
2.3 Reformatsky reactions	22
2.4 Robinson–Mannich synthesis and Michael reactions	23
2.5 Dienone–phenol rearrangement	24
2.6 Dieckmann cyclization	25
3 Synthetic routes from phenanthrenes (D-ring formation)	27
3.1 Friedel–Crafts reactions	27
3.2 1,4-Phenanthraquinone reactions	30
4 Synthetic Diels–Alder routes to rings B and C	31
4.1 Additions to 1,4-naphthoquinones	31
4.2 Route from substituted furans	33
4.3 Photochemical cyclizations	34
5 Miscellaneous synthetic routes	37
5.1 Diels–Alder reactions and Stobbe condensations	37
5.2 Friedel–Crafts alkylations	39

vi	<i>Contents</i>	
	5.3 Grignard, Michael, Wittig and Vilsmeier reactions	41
	5.4 Wagner–Meerwein and anthrasteroid rearrangements	43
	5.5 Reactions involving lithiated species	44
	5.6 Decarboxylative alkylation	45
	5.7 Condensation, cyclodehydration	46
	5.8 Isotopically labelled BAs	47
	6 Tables	49
	7 References to Part 1	63
	Part 2 BIOLOGY	83
	Historical aspects	83
	8 Metabolism	87
	8.1 Introduction	87
	8.2 Metabolism of benz[a]anthracene	90
	8.3 Metabolism of monosubstituted benz[a]anthracenes	96
	8.4 Metabolism of disubstituted benz[a]anthracenes	101
	8.5 Metabolism of trisubstituted benz[a]anthracenes	112
	9 DNA, RNA and protein interactions	113
	9.1 Introduction	113
	9.2 Binding of benz[a]anthracene to DNA and RNA	114
	9.3 Binding of monosubstituted benz[a]anthracenes to DNA and RNA	118
	9.4 Binding of disubstituted benz[a]anthracenes to DNA and RNA	122
	9.5 Binding of trisubstituted benz[a]anthracenes to DNA and RNA	140
	9.6 Interaction of benz[a]anthracene and substituted benz[a]anthracenes with proteins and peptides	140
	10 Mutagenicity	144
	10.1 Introduction	144
	10.2 Mutagenicity of benz[a]anthracene	144
	10.3 Mutagenicity of dihydrodiols and diol epoxides of benz[a]anthracene	145
	10.4 Mutagenicity of monosubstituted benz[a]anthracenes	148
	10.5 Mutagenicity of disubstituted benz[a]anthracenes	152
	10.6 Mutagenicity of trisubstituted benz[a]anthracenes	157
	11 Carcinogenicity	160
	11.1 Introduction	160
	11.2 Carcinogenicity of benz[a]anthracene	160
	11.3 Carcinogenicity of metabolites of benz[a]anthracene	161
	11.4 Carcinogenicity of monosubstituted benz[a]anthracenes	164
	11.5 Carcinogenicity of disubstituted benz[a]anthracenes	169

<i>Contents</i>	vii
11.6 Carcinogenicity of trisubstituted benz[a]anthracenes	183
11.7 Carcinogenicity of tetrasubstituted benz[a]anthracene	186
12 References to Part 2	187
<i>Index to Parts 1 and 2</i>	211
