<b>I Introduction</b>	<b>I</b>
1 Science and man	1
2 Science and phenomenology	3
3 The plan of this work	4
4 'Geographical phenomenology'	5
5 The disciplinary context	7
PART I GEOGRAPHY AND TRADITIONAL META-PHYSICS	
<b>2 Geographical discourse and its central themes</b>	<b>15</b>
6 Basic concepts of science and the method appropriate to ontology	15
7 Objectivism and subjectivism	17
8 Positivism and naturalism	18
8a The a-historical nature of positivism	19
8b The Enlightenment and positivism	21
8c Naturalism and idealism	23
9 Kantian ontology of material nature	24
10 Conceptions of physical space and geography	25
10a The emergence of geography as an abstract, theoretical science	28
10b Social physics	31
11 Physical space, cognitive behaviouralism and the turn to subjectivity	32
12 The mode of being characteristic of geographical objects	35
PART II GEOGRAPHY AND PHENOMENOLOGY	
<b>3 The interpretation of phenomenology in geography</b>	<b>41</b>
13 The phenomenological basis of geography	41

14	Geographical phenomenology	45
14a	Phenomenology and 'practical' research	46
15	Approaches to geographical phenomenology	47
15a	The necessary distinction between humanism and phenomenology	48
15b	Existentialism	50
16	The view of science	51
16a	Phenomenology as criticism	52
16b	Phenomenology as anti-science	54
16c	The foundational role of phenomenology	57
16d	Phenomena of lived experience	58
17	The turn to the lifeworld, and the ambiguity of ground and object	59
18	The phenomenological method	62
18a	Intentionality	64
<b>4</b>	<b>Geographical phenomenology: a critique of its foundations</b>	<b>68</b>
19	The metaphysics of geographical phenomenology	68
20	Humanism and the confusion of the 'objective' and the 'subjective'	69
20a	Subjectivity and intentionality	71
20b	Individualism	72
20c	The 'things themselves', 'consciousness' and 'the problem of the objective world'	73
20d	Idealism	74
21	Geographical phenomenology: its internal critique	78
21a	Phenomenology and criteria of validity	79
22	The turn to Schütz's constitutive phenomenology and justifying a return to Husserl	81

PART III PHENOMENOLOGY AND THE QUESTION OF  
HUMAN SCIENCE

<b>5</b>	<b>Husserlian phenomenology: the foundational project</b>	<b>89</b>
23	What is phenomenology?	89
23a	Phenomenology: its origins and foundations	91
23b	The natural attitude	92
23c	Empirical science and pure science	94
23d	Original intuition	94
23e	Phenomena and intentionality	95

Table of Contents

[More information](#)

<i>Contents</i>		vii
24	The need for phenomenology	97
24a	The crisis of distance between science and life	97
24b	The critique of the positive sciences	99
24c	The structure of the world and 'objects' of science	101
24d	Phenomenology and the guiding idea of science	105
<b>6</b>	<b>Phenomenology, science and phenomenological geography</b>	107
25	Descriptive phenomenology and science	107
25a	Sciences of fact and sciences of essence	107
25b	Descriptive phenomenology	111
26	Phenomenology, science and lifeworld	114
26a	The lifeworld ontology	114
26b	The sciences and the lifeworld	115
26c	The science of the lifeworld	116
26d	Lifeworld and transcendental phenomenology	118
<b>7</b>	<b>Towards a fundamental ontology of science</b>	121
27	Phenomenology and a fundamental ontology of science	121
28	Science and objectivation in geography	123
28a	How does theoretical discovery arise?	127
28b	The everyday world and the theoretical attitude	128
29	The development of science and the concept of 'progress'	130
30	Human science and objectification	133
31	Rigour and exactitude in science	133
32	Theory and its reach and hold over nature and world	134
33	Science and the lived world	135
 <b>PART IV HUMAN SCIENCE, WORLDHOOD AND SPATIALITY</b> 		
<b>8</b>	<b>Implications for the human sciences and a human science of geography</b>	141
34	Phenomenology	141
35	Phenomenology and the science of geography	142
36	Towards a formal projective human science	145

viii

*Contents*

37	Husserl and human science	146
38	Towards a formal and a priori ‘mathesis of spirit and of humanity’	150
39	The existential analytic and the human sciences	151
40	The existential analytic and the ‘natural conception of the world’ (or lifeworld)	152
<b>9</b>	<b>Towards an understanding of human spatiality</b>	<b>154</b>
41	Geography, world and space	154
42	World and worldhood	156
43	Space	158
43a	The technological view of space	158
43b	The spatiality of the present-at-hand	159
44	The everyday mode of being-in-the-world	160
45	The spatiality of the ready-to-hand: places and regions	161
46	Space and science	163
47	Man’s spatiality	164
48	Space and man’s spatiality	167
49	Place and space: implications for a regional ontology of spatiality for a geographical human science	168
