## Section 1 – Basic science

- |  |  |
|--|--|
| <p>1 <b>Neuropharmacology of mental illness</b> 1<br/>Paul A. Fredrickson and Elliott Richelson</p> <p>2 <b>Effects of antidepressants on gene expression</b> 7<br/>Antonio Drago, Diana De Ronchi, and Alessandro Serretti</p> <p>3 <b>Genetics of circadian rhythms in relation to mental illness</b> 22<br/>Sara Dallaspezia and Francesco Benedetti</p> <p>4 <b>Neurochemistry and neurophysiology of sleep abnormalities associated with depression</b> 29<br/>Christopher Michael Sinton and Robert W. McCarley</p> <p>5 <b>Neurobiology of insomnia</b> 51<br/>Joëlle Adrien and Lucile Garma</p> <p>6 <b>Animal models of sleep and stress: implications for mental illness</b> 60<br/>Deborah Suchecki</p> <p>7 <b>Insomnia and brain orexin alterations in depressive illness</b> 68<br/>Pingfu Feng and Kumaraswamy Budur</p> | <p>10 <b>Sleep–endocrine relationships in depressed women across the reproductive cycle</b> 101<br/>Charles J. Meliska, Luis Fernando Martínez, and Barbara L. Parry</p> <p>11 <b>Melatonin and mental illness</b> 119<br/>Gregory M. Brown, Daniel P. Cardinali, and S. R. Pandi-Perumal</p> <p>12 <b>Dim light melatonin onset in psychiatric disorders</b> 130<br/>Marcel G. Smits, D. Warren Spence, S. R. Pandi-Perumal, and Gregory M. Brown</p> |
|--|--|

## Section 2 – Neuroendocrinology

- 8 **Pathophysiology of changes in sleep EEG and hormone secretion** 83  
Axel Steiger and Mayumi Kimura
- 9 **Eating and sleep disorders: shared mechanisms?** 95  
Naomi L. Rogers and Bradley G. Whitwell

---

## Section 3 – Clinical science

- 13 **Classification of sleep disorders** 139  
Imran M. Ahmed and Michael J. Thorpy
- 14 **Insomnia: a risk for future psychiatric illness** 154  
Matthew R. Ebben and Lina Fine
- 15 **The association between sleep disorders and depression: implications for treatment** 165  
Negar Ahmadi, Philip Saleh, and Colin M. Shapiro
- 16 **Sleep in late-life depression** 173  
Wilfred R. Pigeon and Sara Matteson-Rusby
- 17 **Long-term effects of antidepressants on sleep** 183  
Marie E. Beitingger and Stephany Fulda
- 18 **Antidepressant-induced alteration of sleep EEG** 202  
Luc Staner, Corinne Staner, and Remy Luthringer
