Index

- Abrams, Burton A., 219, 227
 accountability, research need on, 50
 Adams, Henry C., 98–100, 100n11, 101n11, 112, 116, 125, 137
 administered prices, 116–117
 Administrative Procedures Act (1946), 457
 advertising, deceptive, 457
 agricultural program payments, 197, 197*t*, 198
 agriculture mortgage boom, 423n12
 aircraft manufacturers, 529n35
 airline deregulation, 514–515
 code sharing alliances, 526–527
 governance transformation and, 525–531, 533
 mergers, 526
 move to hub-and-spoke systems, 525–531
 organized labor and, 527–529
 Airline Deregulation Act of 1978, 515
 Airport and Airways Trust Fund, 525–526
 air traffic controllers union, 133
 Air Transport Association, 527–528
 Air Transportation Stabilization Board, 528
 Akerlof, George A., 176–178
 alcohol tax, 372–373
 altruism, 311
 reciprocal, 306
 Amaranth Advisors, 436–437
 American Association for Labor Legislation, 121
 American Association of Retired Persons (AARP), 275n77, 276n77
 American Chemistry Council, 462
 American Federation of Labor and Congress of Industrial Organizations (AFL-CIO), 274–275, 276–277
 American Medical Association (AMA), opposition to Medicare, 267–269
 American Medical Political Action Committee (AMPAC), 273
 American Petroleum Industry (API), 282n97
 American Medical Association (AMA), opposition to Medicare, 267–269
 Anderson-King bill, 269, 270–272
 Angrist, 54n3
 anti-gouging legislation, 297
 antitrust and tort
 adversarial judicial process, 485–490
 Alcoa case, 490–491
 antitrust government actions, 490–492
 antitrust private actions, 492–493
 behavioral incentives affect on, 28
 Chicago School approach to, 492, 506, 508–509
 cy pres equity doctrine, 508n53
 direct purchasers, 487
 fault principle, 486
 follow-on cases, 499
 foreign subsidiaries, 487–488
 Harvard School approach to, 492, 509
 Illinois Brick Co. v. Illinois, 487, 494
 indirect purchasers, 487, 493, 494
 judicial autonomy vs. command-control regulation and deregulation, 488–489
 mass tort litigation, 499–504
 Asbestos case, 501
 black lung sufferers, 501

- antitrust and tort (*cont.*)
BMW v. Gore, 502–504, 507
 elements of, 501–502
 in foreign jurisdictions, 501
 future claimants, 501
Georgine case, 501
 plaintiff law firm changes as result of,
 502
Silicone Gel case, 487, 501
Yates case, 503
 Merck, 504, 509, 510
 merger policy, 510
Microsoft cases, 487, 491, 495–499
 in California, 497–499
 in European Union, 496–497
 in Korea, 496–497
 outcomes, 506–507, 509
 in United States, 495–496
 outcomes assessment, 504–509
 antitrust reform, 506–507
 tort reform, 505–506
Relafen case, 487, 493–495
 direct purchasers, 494
 end payors, 494
 indirect purchasers, 493, 494
 outcomes, 507–508, 510
 tort system, 18
 tortuous liability cases, 500
 arbitration clauses, 404–405
 Archer-Daniels Midland (ADM), 505–506
 Arnold, Thurman, 116, 485, 490–491
 Arrow, Kenneth M., 16, 135–137, 217
 audited self-regulation, 468
 Australian Competition and Consumer
 Commission (ACCC), 471
- Bank of England, 437
 Bankruptcy Code of 1978, 348
 bankruptcy law, 33, 348, 395
 Bankruptcy Reform Act of 2005, 395
 Barke, Richard, 227, 232, 234
 Basel I, 44n49, 423, 435
 Basel II, 44–45, 424–426, 435
 Bear Stearns, 431
 Becker, Gary, 218, 219, 226, 231–232, 515,
 517
 behavioral economics, 21–22
 Bernanke, Ben, 424n19, 425n19
 Bernstein, Marver, 222, 232
 Better Business Bureaus, 450, 458, 462, 480
 Bettercare bill, 271, 271n56
- Biemiller, Andrew, 274–275, 277
 Black, Duncan, 215
 black lung disease, 501
 Blair, Margaret, 355–356
 blood donor study, 374, 375
BMW v. Gore, 502–504, 507
 bonds
 corporate, 428–430
 government, 44, 45
 junk, 350
 Bowles, Samuel, 314, 330, 374, 375
 Braithwaite, John, 463, 471, 472
 British Rail, 466
 Buchanan, James, 207, 215, 217–218,
 225–226, 228
 bureaucracy, budget-maximizing objective
 of, 226
 Bureau of Labor, 121
 Bush, George H. W., 444–445
 Bush, George W., 444–445, 477
 byproduct mutualism, 311–312
- California State Public Employees
 Retirement System (CalPERS),
 350–351
 canalizing rules, 115
 cap and trade system *vs.* emission taxes,
 47–49
 capital adequacy standards, 44–45
 capitalism, dependence on regulation, 7
 capture theory
 public choice and, 230–233
 reliance on rules of evidence/rent seeking,
 165, 170–173
 research agenda for, 50
 Carter, Jimmy
 environmental cleanup and, 288, 291
 regulations and, 444
 regulation under, 138, 157
 signs CERCLA into law, 282, 294
 Celler-Kefauver Act, 143
 Center for Public Choice, 215
 central bank regulation, 34–35
 Chandler Act, 348
 Chemical Manufacturers Association
 (CMA), 282–283, 288–290
 Chicago school, 215–216, 218, 492
 Chile, unregulated banking in, 14, 16
 China, 38, 472
 cigarette tax, 372, 373
 Citibank, bailout of, 38

- Civil Aeronautics Board (CAB), 514, 515, 523, 527–528
- Clark, John B., 103, 104, 105, 118
- Clark, John M., 117, 128
- clawback provision, 338, 340
- Clayton Antitrust Act, 485
- Clean Water Act, 293
- Climate Voluntary Innovative Sectors Initiative: Opportunities Now (Climate VISION), 468
- Clinton, Bill, 444
- Coase, Ronald
 - on bargaining, 202
 - on externalities, 217
 - on social costs, 134–135
- Coase's theorem, 17–18
- code sharing alliances, among airlines, 526–527
- Collateralized Debt Obligations (CDOs), 420–422, 427–428
- collective efficacy, 311
- collective rationality, 137–138, 141
- command-and-control regulation, 2
- Commerce Clause, 146n5, 147n5
- committed mutualism, 311
- Committee on Economic Security, 121
- Committee on Political Education (COPE), 274
- Commons, John R., 102, 103
- Community Reinvestment Act (CRA), 29, 46
- competition, 19, 207
 - international, 349
 - moral plane of, 100–103, 106–107
- Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), 281–282
- Congress, voting decision study, 200
- Consolidated Supervised Entities (CSE) program, 460–462, 472, 480
- consumer confidence, 183–184
- consumer credit market
 - arbitration clauses, 404–405
 - bankruptcy law, 395
 - built-in tricks and traps for consumer, 397–399
 - consumer credit counselors, 401–402
 - debt situation of U.S. families, 393–395
 - disclosure hoax, 402–408
 - divided goals leave consumers in second place, 410–411
 - double-/trailing-cycle billing, 404, 409n56
 - financial intermediaries, 399–402
 - Financial Products Safety Commission need, 412–415, 417–418
 - mortgage brokers, 400–401
 - payday lending, 403–404, 404n42
 - personal responsibility and, 396–399
 - research agenda need, 415–416
 - sources of critical system errors
 - asymmetric political clout, 407–408
 - divided goals of federal agencies, 410–411
 - lack of structural protection for consumers, 409–410
 - legislators lack of expertise in commercial products, 409
 - outdated regulations, 408–409
 - power divided among state and federal regulators [exploitation of gaps in regulatory system], 405–407
 - public confidence effect on consumers and business, 411–412
 - structural protection for consumers, 409–410
 - subprime mortgage industry, 411–412
 - Truth-in-Lending (TIL) laws, 402, 408–409
 - universal default, 409n55
 - usury laws, 391–392
- Consumer Product Safety Commission (CPSC), 413, 414, 455–456
- consumer protection, 42–43
- consumption studies, 113, 115–116
- contracts, incomplete, 327–328
- conventional market failure, 15–18
- cooperation, defining, 311–312
- cooperative human systems
 - contextual influences on, 310–311
 - cooperative systems design examples, 323–330
 - labor and employment law, 329–330
 - patents and copyright, 323–328
 - policing and criminal law enforcement, 328–329
 - recycling norms, 330
 - tax policy and tax enforcement, 330
- crowding out, 319, 321–322, 328

- cooperative human systems (*cont.*)
 - design levers for cooperative dynamics, 312–313
 - communication, 312
 - cost, 320
 - efficacy, 317–318
 - exit and entry ease, 322
 - extrinsic motivation factors, 318–319
 - intrinsic motivation factors, 313–318
 - leadership/asymmetric, 322–323
 - norms, 316–317
 - punishment and reward, 318–319
 - solidarity and humanization/empathy, 313–315
 - summary of, 324, 325
 - transparency/reputation, 319–320
 - trust and fairness, 315–316
- emerging literature on cooperation, 303–312
 - cooperative business processes, 308
 - evolutionary biology, 305–307, 310
 - experimental economics, 304–305
 - observational work on common property regimes, 308–309
 - online collaboration and social software design, 309
 - social psychology on motivation, 307
 - social psychology on solidarity, 307–308
 - homo economicus*, 299–300, 309
 - intrinsic/extrinsic motivation, 307
 - loosely coupled system design, 302–303
 - models of human motivation and interaction, 300–302
 - rule of law affect on cooperation, 309–310
- co-regulation, in U.S.
 - administrative functions for government regulators, 470–474, 477–478
 - culture of private regulation research need, 478–479
 - early self-regulatory bodies, 449
 - historical investigation needs, 479–480
 - non-governmental regulation theory, 454–459
 - adaptability and precision, 455
 - buy-in, 458–459
 - centrality of
 - accountability/transparency, 465–468
 - co-regulation enforcement schematic, 474, 476*f*
 - co-regulation monitoring schematic, 474, 475*f*
 - co-regulation need, 468–476
 - co-regulation standard setting schematic, 474, 474*f*
 - coverage, 455–456
 - economic context affects, 463–465
 - facilitation of cooperation, 457–458
 - lessons for policymakers, 463–476
 - problem-solving focus, 456–457
 - self-regulation as smokescreen, 460–463
 - private governance turn, 449–454
 - private regulation concept, 446–449
 - corporate ethics and compliance programs, 452–453
 - insurance industry, 450
 - schematic of, 447, 448*f*
 - self-regulation since Carter administration, 451
 - self-regulatory organizations, 447
 - research agenda, 476–481
- Corn Laws, 128–129
- corporate bonds, 428–429, 429, 430, 430n29
- corporate ethics, 452–453
- corporate governance law, 33
- corporate governance regulation
 - agency theory on, 355
 - alternatives to, 355–357
 - backdating, 340, 340n4
 - comparative-historical research need on, 359–360
 - critique of, 354–355, 356–357
- Deal Decade, 349–350
- Enron, 337–342
- executive pay issue, 342
- household savings, 349
- intellectual challenges of reform, 352–358
 - corporate boards, 353
 - gatekeeping, 352–353
 - shareholder rights, 353–354
 - transparency, 352–353
- international competition effects, 349
- leading diagnoses of problems, 342–346
 - corporate boards, 343, 344
 - executive pay, 343–344
 - gatekeepers, 342–343
 - shareholder rights, 344–346
- momentum beyond regulatory reform, 337–342

- pricing processes, 355
- proxy process, 351–352
- research needs, 359–360
- residuals, 354–355
- scandals, in late 1990s/early 2000s, 337
 - private response to, 337–339
 - Sarbanes-Oxley Act and, 337–340
 - Securities & Exchange Commission and, 338–339, 340–341
 - shareholders rights and, 340–341, 344–345
- scandals, reasons for corporate, 335–336
- shareholder value as dominant ideology of, 336, 347–352
- World Com, 337–339, 342
- Corporate Social Responsibility (CSR), 462–463
- cost-benefit analysis, cost–benefit analysis, of Superfund program
 - criticisms of, 53n2
 - defining, 52–53
 - random assignment and, 54
- cost-benefit analysis, of Superfund program, 56–82
 - caveats to, 81–82
 - cost-benefit test, 81–82
 - costs and background information on clean-ups, 62–67
 - economic theory as guide for, 60–62
 - estimated cost of current clean-ups, 81
 - geographic distribution of NPL sites, 65, 65f
 - history and goals of, 56–57
 - HRS scores as basis of research design for, 58–60
 - immediate removals, 57n4
 - impact of clean-ups on housing prices, 67–69
 - distribution of 1982 HRS scores, 70, 70f, 71
 - econometric approach to, 67–69
 - residual house prices, 2000 73, 74f
 - results, 70–73
 - results interpretation, 73–75
 - samples in, 62–64
 - site assessment, 57–58
 - summary statistics on, 56–82
 - 2SLS estimates of effect of NPL status on housing prices, 2000 71, 72t, 73
 - impact of clean-ups on infant health, 76–80 75–81
 - birth outcomes, 79, 80t, 81
 - econometric approach, 76–79
 - health outcomes before/after clean-ups, 79
 - reasons to focus on infants, 76
 - results, 79–81
 - site locations, 78f, 79, 79f
- implications of analysis, 82–84
 - expect controversy, 84
 - funding, 83
 - note absence of credible evidence, 83–84
 - small scale implementation/rigorous evaluations, 82–83
- information needs at inception of program, 59n6
- initial HRS scores, 65, 66f, 67
- National Priorities List assignment, 58–60
- regression discontinuity approach, 69, 71
- rescoring sites, 60n9
- validity of, 81
- Council of Economic Advisers, 31–32
- Court of First Instance, 496–497
- Cox, Christopher, 340–341
- Credit Agency Reform Act, 430
- criminal law enforcement, 328–329
- crowding out, 178, 181, 319, 328, 376
- cultural lag, 126n49
- culture of private regulation research need, 478–479
- Currie, Lauchlan, 55, 77
- cy pres* equity doctrine, 508n53
