PROCEEDINGS:

INAUGURATION 3

- | | | |
|---|--|----|
| 1 | Inaugural Address.
President Zia-ul-Haq | |
| 2 | Address by Lord Shackleton. K.G. | 7 |
| 3 | Address of Welcome.
Minister of Education. Mr Muhammad Ali Khan | 10 |
| 4 | Some recent technological advances applied to problems
in earth sciences.
K. J. Miller | 12 |

GLACIOLOGY

- | | | |
|---|--|----|
| 5 | Recent variations of some glaciers in the Karakoram
mountains.
Zhang Xiangsong | 39 |
| 6 | Some studies of the Batura glacier in the Karakoram
mountains.
Shi Yafeng and Zhang Xiangsong | 51 |
| 7 | Some observations on glacier surges with notes on the
Roslin glacier, East Greenland.
A. J. Colvill | 64 |
| 8 | A surging advance of Balt Bare glacier, Karakoram
mountains.
Wang Wenying, Huang Maohuan and Chen Jianming | 76 |

viii

9	The distribution of glaciers on the Qinghai-Xizang plateau and its relationship to atmospheric circulation. Li Jijun and Xu Shuying	84
10	Techniques for the study of glacial fluctuations. F. A. Perrott and A. S. Goudie	94
11	Survey and analysis systems for the Vatnajökull ice-depth sounding expedition 1977. J. F. Bishop and K. J. Miller	101
12	Electronic design and performance of an impulse radar ice-depth sounding system used on the Vatnajökull ice-cap, Iceland. A. D. G. Cumming, R. L. Ferrari and G. Owen	111
13	Results of impulse radar ice-depth sounding on the Vatnajökull ice-cap, Iceland. J. F. Bishop, A. D. G. Cumming, R. L. Ferrari and K. J. Miller	126
14	The mechanics of fracture applied to ice. K. J. Miller	135
15	Fracture toughness of glacier ice. R. M. Andrews, A. R. McGregor and K. J. Miller	147
<u>SURVEY</u>		
16	Indo-Asian convergence and the 1913 survey line connecting the Indian and Russian triangulation surveys. R. Bilham and D. Simpson	160
17	The Pakistan to Russia triangulation connexion: past and projected error analyses. T. O. Crompton	171
18	Special techniques for surveying on moving terrain. J. L. W. Walton	186
19	Variations of the Batura glacier's surface from repeated surveys. Chen Jianming	196
20	Point-positioning by doppler satellite. J. P. Allen	205
<u>EARTHQUAKES</u>		
21	Tectonic studies in the Alpine Himalayan belt. G. King and J. Jackson	215

- 22 Earthquake activity and tectonics of the Himalaya and its surrounding regions.
Teng Ji Wen and Lin Ban Zuo 221

- 23 Basement fault reactivation in young fold mountain belts.
J. A. Jackson 236

HOUSING AND NATURAL HAZARDS

- 24 Experimental studies of the effect of earthquakes on small adobe and masonry buildings.
D. F. T. Nash and R. J. Spence 245

- 25 Traditional housing in seismic areas.
R. J. Spence and A. W. Coburn 253

- 26 House types and structures in Chitral District.
Israr-ud-Din 265

- 27 The vulnerability and reduction of damage risk in small houses subject to natural hazards.
I. Davis 290

- 28 Settlements and buildings as the physical expression of a culture: a case study in Nigeria.
J. C. Moughtin 311

- 29 The analysis of local building materials and building techniques.
R. E. Hughes 336

GEOMORPHOLOGY

- 30 Sedimentological analysis of glacial and proglacial debris: a framework for the study of Karakoram glaciers.
E. Derbyshire 347

- 31 High altitude rock weathering processes.
W. B. Whalley 365

- 32 Techniques for investigating meltwater runoff and erosion.
R. I. Ferguson, D. N. Collins and W. B. Whalley 374

- 33 The geomorphology of high magnitude - low frequency events in the Karakoram mountains.
D. Brunsdon and D. K. C. Jones 383

- 34 New perspectives on the Pleistocene and Holocene sequences of the Potwar plateau and adjacent areas of Northern Pakistan.
H. M. Rendell 389

- 35 The loess of Tajik SSR.
A. S. Goudie, H. M. Rendell and P. A. Bull 399

Contents of Volume 2

CONTENTS OF VOLUME 1	xi
PREFACE	xiv
PREFACE TO VOLUME 2	xv
ACKNOWLEDGEMENTS	xvii
CONFERENCE COMMITTEES	xxi
LIST OF AUTHORS/MEMBERS OF THE PROJECT	xxii
CONVERSION UNITS	1

PROCEEDINGS:

INAUGURATION

1	Opening Remarks by The President of the Royal Geographical Society. Professor M. J. Wise, CBE, MC	3
2	The International Karakoram Project: An Appraisal. K. J. Miller	5
3	Karakoram History: Early Exploration. C. Middleton	17
4	Mountaineering in the Karakoram in the late 1970's. P. Nunn	32
5	A Note on Rakaposhi 7788 m (25,550 ft). M. Vyvyan	48
6	A Science of Mountains. R. Muir Wood	53

GEOLOGY

7	The Geographical and Geological Domains of the Karakoram. R. A. K. Tahirkheli and Qasim Jan	57
8	Geology of the South-Central Karakoram and Kohistan. M. P. Coward, Qasim Jan, D. Rex, J. Tarney, M. Thirwall and B. F. Windley	71

GLACIOLOGY

- 9 Ice depth radio echo-sounding techniques employed on the Hispar and Ghulkin glaciers.
G. K. A. Oswald 86
- 10 Impulse radar ice-depth sounding on the Hispar glacier.
Z. B. Dong, R. L. Ferrari, M. R. Francis, G. Musil,
G. K. A. Oswald and Zhang Xiangsong 100
- 11 Impulse radar ice-depth sounding of the Ghulkin glacier.
M. R. Francis, K. J. Miller and Z. B. Dong 111

SURVEY

- 12 The survey work of the International Karakoram Project 1980.
Chen Jianming, T. O. Crompton, J. L. W. Walton
and R. Bilham 124
- 13 The calculation of crustal displacement and strain from
classical survey measurements.
T. O. Crompton 140

EARTHQUAKES

- 14 A microearthquake survey in the Karakoram.
G. Yielding, S. Ahmad, I. Davison, J. A. Jackson,
R. Khattak, A. Khurshid, G. C. P. King and
Lin Ban Zuo 150
- 15 Source studies of the Hamran (1972.9.3), Darel
(1981.9.12) and Patan (1974.12.28) earthquakes in
Kohistan, Pakistan.
J. A. Jackson and G. Yielding 170
- 16 Stress field and plate motion in the Karakoram and
surrounding regions.
Shu Pei Yi and Lin Ban Zuo 185

HOUSING AND NATURAL HAZARDS

- 17 A critical review of the work method and findings of
the Housing and Natural Hazards Group.
I. Davis 200
- 18 The construction and vulnerability to earthquakes of
some building types in the northern areas of Pakistan.
A. W. Coburn, R. E. Hughes, D. Illi, D. F. T. Nash
and R. J. S. Spence 228
- 19 Yasin Valley: The analysis of geomorphology and
building types.
R. E. Hughes 253
- 20 The socio-economic cost of planning for hazards: An
analysis of Barkulti village, Yasin, Northern Pakistan.
F. D'Souza 289

Cambridge University Press

Edited by K. J. Miller

Table of Contents

[More information](#)

xii

- | | | |
|----|---|-----|
| 21 | Barkulti in the Yasin valley: A study of traditional settlement form as a response to environmental hazard.
C. Moughtin | 307 |
| 22 | Analysis of recovery and reconstruction following the 1974 Patan earthquake.
I. Davis | 323 |
| 23 | The vulnerability to fire risk of some building types and traditional settlements with reference to the fire which destroyed Gayal-Kot in July 1981.
D. Illi | 343 |
| 24 | Medical aspects of the IKP.
D. Giles | 351 |

GEOMORPHOLOGY

- | | | |
|----|--|-----|
| 25 | The geomorphology of the Hunza Valley, Karakoram mountains, Pakistan.
A. S. Goudie, D. Brunnsden, D. N. Collins,
E. Derbyshire, R. I. Ferguson, Z. Hashmet,
D. K. C. Jones, F. A. Perrott, M. Said,
R. S. Waters and W. B. Whalley | 359 |
| 26 | Recent fluctuations in some glaciers of the Western Karakoram mountains, Hunza, Pakistan
A. S. Goudie, D. K. C. Jones and D. Brunnsden | 411 |
| 27 | Quaternary glacial history of the Hunza Valley, Karakoram mountains, Pakistan.
E. Derbyshire, Li Jijun, F. A. Perrott, Xu Shuying and R. S. Waters | 456 |
| 28 | Glacial and paraglacial sediments of the Hunza Valley, North West Karakoram, Pakistan: A preliminary analysis.
Li Jijun, E. Derbyshire and Xu Shuying | 496 |
| 29 | Particle size distribution on the debris slopes of the Hunza Valley.
D. Brunnsden, D. K. C. Jones and A. S. Goudie | 536 |
| 30 | Sediment load of the Hunza river.
R. I. Ferguson | 581 |
| 31 | A preliminary study of ancient trees in the Hunza Valley and their dendroclimatic potential.
R. Bilham, G. B. Plant and G. C. Jacoby | 599 |
| 32 | Salt efflorescences and salt weathering in the Hunza Valley, Karakoram mountains, Pakistan.
A. S. Goudie | 607 |
| 33 | Rock temperature observations and chemical weathering in the Hunza region, Karakoram: Preliminary data.
W. B. Whalley, J. P. McGreevy and R. I. Ferguson | 616 |
