Cambridge University Press has no responsibility for the persistence or
 accuracy of URLs for external or third-party internet websites referred to
 in this publication, and does not guarantee that any content on such
 websites is, or will remain, accurate or appropriate.

Every effort has been made in preparing this book to provide accurate and up-to-date information which is in accord with
 accepted standards and practice at the time of publication. Although case histories are drawn from actual cases, every effort has
 been made to disguise the identities of the individuals involved. Nevertheless, the authors, editors and publishers can make no
 warranties that the information contained herein is totally free from error, not least because clinical standards are constantly
 changing through research and regulation. The authors, editors and publishers therefore disclaim all liability for direct or
 consequential damages resulting from the use of material contained in this book. Readers are strongly advised to pay careful
 attention to information provided by the manufacturer of any drugs or equipment that they plan to use.
