Every effort has been made in preparing this book to provide accurate and
 up-to-date information that is in accord with accepted standards and
 practice at the time of publication. Although case histories are drawn
 from actual cases, every effort has been made to disguise the identities of
 the individuals involved. Nevertheless, the authors, editors, and publishers
 can make no warranties that the information contained herein is totally
 free from error, not least because clinical standards are constantly
 changing through research and regulation. The authors, editors, and
 publishers therefore disclaim all liability for direct or consequential
 damages resulting from the use of material contained in this book. Readers
 are strongly advised to pay careful attention to information provided by
 the manufacturer of any drugs or equipment that they plan to use.
