Introduction

Who is this book for?

Test Your English Vocabulary in Use Pre-intermediate and intermediate is designed to help students assess their vocabulary learning. It can be used independently as a testing book, or by learners who are using *English Vocabulary in Use Pre-intermediate and intermediate* and want to assess their progress.

Learners can use this test book on their own, but it can also be used by a teacher working with groups of students in a classroom.

For those who have not worked with *English Vocabulary in Use Pre-intermediate and intermediate*, this book is recommended for learners at intermediate level (CEF level B1).

How is the book organised?

The tests all correspond to the units in *English Vocabulary in Use Pre-intermediate and intermediate*. The Contents page shows you how the tests are grouped by category. Every test is independent and you do not need to do the tests in a particular order, as they do not become progressively more difficult.

Each test has a total of 30 marks, and the number of marks for the exercises is given within each test. Each exercise starts with an example, so you can see exactly what you have to do. There is an Answer key at the back of the book. If there are two answers for a question separated by a slash (/), both answers are correct.

At the back of the book, you will also find an extra section to help you with spelling. There are two pages of words which are commonly misspelt by learners of English, followed by some basic spelling rules, and then further exercises to test you on the spelling of these words, with an Answer key.

How to use this book

If you are working alone with this book, first look at the Contents page and choose the tests that interest you. You will find different types of vocabulary test, such as tests on word formation, tests on different topic areas, tests on linking words. Try to do different kinds of test to give you variety. Remember, you do not need to do the tests in a particular order.

If you are using *English Vocabulary in Use Pre-intermediate and intermediate*, you can use the tests after finishing a unit from the book. You can do this immediately after finishing a unit, or wait a few days or a week, and then use the test as a revision exercise.

You can use the tests more than once by writing the answers in pencil and rubbing them out when you have checked your answers. Alternatively, you can write your answers on a separate sheet of paper.

The marking scheme

The marking scheme (out of 30 for each test) is just to give you an idea of how well you know the vocabulary, but you do not have to use it.
