Contents

	<i>page</i>
<i>Preface</i>	ix
1 Target: A Useful Model	1
2 Methods of Biochemical Systems Theory	42
3 A Model of Citric Acid Production in the Mold <i>Aspergillus niger</i>	75
4 Optimization Methods	134
5 Optimization of Biochemical Systems	162
6 Optimization of Citric Acid Production in <i>Aspergillus niger</i>	197
7 Maximization of Ethanol Production in <i>Saccharomyces cerevisiae</i>	227
8 Conclusions	273
<i>Author Index</i>	291
<i>Subject Index</i>	299
<i>Color section follows p. 146.</i>
