mothers’ spatial language in Dolakha, 237–38
mothers’ spatial language in Roopchandpur, 235–37

overview, 233–34, 240–41
tasks, 234
Description of Toys, 235
Description of Village Sites and Routes to Sites, 235, 236–37
Orientation of Toys, 234–35
Pulling a Car, 235
mentalese, 31

migration from rural areas
Kathmandu, 201–02
Varanasi, 309

main study, 178–79
mobility
children’s background, Kathmandu, 197
children’s independence, 316–17
modes of thought, 11

Moorea, Chips task study, 133
Mount Bisbis, 80
Mount Seraya, 80
Mumukshu Bhawan (school), 164

maths, 90–91

Nah duel Indians, 134
Nand Lal Bajoria Sanskrit Mahavidyalaya (school), 164–65

navigation, 36, 40, 267, 282–84, see also inertial navigation

Nepal

language use, 118–19
study settings, 96, See also Dolakha; first study: Kathmandu

Nepali, 97
language examples, 339

neuro-physiological underpinnings, 319–20, See also hemispheric dominance

neuro-physiology
behavioural techniques of study, 268
componential and configurational processes, 267–68
cortical modules, 279
fMRI studies, 266, 280
lesion studies, 266–67
neural pathways, xxi, 279
neuroimaging techniques, 265–66
translation of frameworks, 274

Newari, language examples, 339
Nijmegen tasks, 59
noninertial path integration, 281
non-replication of results, Bunutan, 151–53
non-verbal spatial encoding tasks, 43, 51, 59

Bali main study, 150–56
assessment format, 153–54
task specificity, 110, 154–56

Geneva, 226

and language, 226–27
instructions for, 52–53

Kathmandu, 186–89
bilingualism, 195–97, 206–07
ecology, 206
G language, 193–94
school types, 192–93
socio-economic status (SES), 207
spatial ability, 194–95
summary measure, 189–90
task specificity, 191–92
urban/rural comparison, 190–91

language used, 44, 53, 56–57

Bali, 145–46, 156–57
Geneva, 225–26
Kathmandu, 189
summary measures, 146–47, 189–90
Varanasi, 167–69, 172–73
scoring, 63–65
social background, Bali, 157–59
training for, 52, See also Animals in a Row Task; Chips Task; Steve’s Maze Task

object scores, 74
orientation
absolutist, 6, 35, 300–01
relativist, 80, 82–83, 321
universalist, 321

Oriention of Toys Task, description, 234–35
Subject index

description of perspectives when moving around a display, 248–49, 253–54
study, 249–53
developmental changes in, 258
stability of the spatial scheme, 257–58
studies of schemes used, 254–55, 263–64
method, 255–57
relationships with other variables, 258–59
results in Bali, 259–60
results in Geneva, 262
results in Kathmandu, 260–62
results in Varanasi, 257–59
schemes and description of the display, 258
stability of schemes, 257–58
use of schemes, 257
sub-schemes, 259–64
types, 256
school manuals’ extracts, 346–54
schooling, 315–16
and conventional landmark (CL) geocentric system, 121
Bali pilot study, 113
confounding with age, 114–15
familiarity with test situations, 115
first study (1999–2000), 120–26
influence on Chips Task, 121
influence on Perspectives Task, 125
methodological problems presented by, 115–16, see also Hindi-medium schools; Sanskrit schools
schools and schooling
curriculum and experiences, 91, 98, 100, 165, 171–72, 206, 207–08, 311–12
school-specific skills, 116
teaching-learning processes, 16–17
unschooled children, 47, 52, 109, 116, 203–05
scout game, See Steve’s Maze Task
Sega, 82
semiotic function, 21
sensori-motor space and representational space distinction, 21
sex differences, 40–41
Singaraja, 86
situationally based local landmark (SL) geocentric system, 25, 135
as projective, 135
first study (1999–2000), 117–19
language coding scheme, 58
situations
constrained, 50
induced, 109–10
unfamiliar, 49–50
socio-cultural background variables, 73
socio-economic status (SES)
