A Student’s Guide to

EQUITY AND TRUSTS

This engaging introduction explores the key principles of equity and trusts law and offers students effective learning features. By covering the essentials of each topic, it ensures students have the foundations for successful further study. The law is made relevant to current practice through chapters that define and explain key legal principles. Examples set the law in context and make the subject interesting and dynamic by showing how these rules apply in real life. Key points sections and summaries help students remember the crucial points of each topic and practical exercises offer students the opportunity to apply the law. Exploring clearly and concisely the subject’s key principles, this should be every equity student’s first port of call.

Judith Bray is a leader in law at the University of Buckingham. She has taught property law and family law for over twenty years, having previously qualified as a barrister. She is the author of several student texts on land law and also a short casebook on equity and trusts.

## CONTENTS

Preface

1 Historical introduction
   Key points
   The introduction of common law
   The inadequacy of common law
   The origins and development of equity
   The role of the Lord Chancellor and the Chancery Court
   The defects of equity
   The emergence of the trust
   The maxims of equity
   The role of equity today
   Summary

2 Equitable remedies
   Key points
   Introduction: background to equitable remedies
   Specific performance
   Injunctions
   Rectification
   Rescission
   Summary

3 The classification of trusts and powers
   Key points
   Differences between a trust and a power
   Different types of trusts
   Types of powers
   The distinction between a trust and other legal concepts
   The modern use of the trust
   Summary

4 The three certainties
   Key points
## Contents

The requirement of certainty: why is it necessary? 48  
Certainty of intention 48  
Certainty of subject matter 53  
Certainty of objects 56  
Summary 63

5 Constitution of trusts 65  
Key points 65  
Introduction to the rule equity will not assist a volunteer 66  
The transfer of property to the trustee under a fully constituted trust 67  
Self-declaration of a trust by the owner of the property 68  
The rule in *Re Rose*: ‘the settlor has done everything in his power’ 71  
The rule in *Pennington v. Waine* 72  
Enforcing an incompletely constituted trust in contract 73  
Enforcing an incompletely constituted trust as a trust of a promise under *Fletcher v. Fletcher* 74  
The rule in *Re Ralli’s Will Trust* 75  
Exceptions to the rule ‘equity will not assist a volunteer’ 76  
Summary 81

6 Formalities for the creation of a trust 82  
Key points 82  
Introduction 83  
The creation of an express trust 83  
The role of formalities in the creation of a trust 84  
Who has the capacity to create a trust? 84  
What formalities are necessary in the creation of a trust? 85  
Summary 96

7 Private purpose trusts 98  
Key points 98  
The beneficiary principle 99  
The anomalous exceptions to the beneficiary principle 100  
The *Re Denley* exception and trusts for individuals with a purpose attached 103  
Can unincorporated associations form an exception to the beneficiary principle? 106  
Why charitable trusts can create an exception 106

## 12 Secret trusts and mutual wills

- **Secret trusts**
- **Key points**
- What are secret trusts?
- Fully secret trusts
- Half-secret trusts
- Issues arising in secret trusts
- The theoretical basis for secret trusts
- **Mutual wills**
- **Key points**
- What is a mutual will?
- The agreement between the parties
- The application of the constructive trust in a mutual will
- **Summary**

## 13 Charities; the Charities Act and the rules of cy près

- **Key points**
- Introduction to charitable trusts
- The advantages of charitable status
- The definition of charity
- Charitable purposes
- How will the courts consider a new charitable purpose?
- Trusts with political objects
- Charitable purposes overseas
- The requirement of public benefit
- The rules of cy près
- The meaning of cy près
- **Summary**

## 14 Trustees: appointment, retirement and capacity

- **Key points**
- Appointment of the trustees
- Who can be appointed as a trustee?
- Number of trustees
- Duties of a trustee on appointment
- Appointment of new trustees under s.36
- Retirement of trustees under s.39
- Removal of trustees
- Remuneration of trustees
- **Summary**
15 Duties and powers of trustees 238
  Key points 238
  Introduction: the office of trustee 239
  Duty of care 239
  General duties owed by trustees: to provide accounts; to provide information; to act unanimously; to act impartially 241
  Duty to exercise discretion 244
  Power to invest 252
  Delegation of duties 257
  Powers of maintenance and advancement 259
  Summary 262

16 Variation of trusts 263
  Key points 263
  Introduction 264
  Court’s inherent jurisdiction 264
  Statutory provisions 266
  The rule in Saunders v. Vautier 271
  The Variation of Trusts Act 1958 274

</table>
Of all the subjects studied by law students equity and trusts can seem the most opaque and impenetrable. They are intimidated by the ‘fog of Chancery’ described by Dickens in his introduction to *Bleak House*. I have tried to lift some of this fog by explaining the principles of trusts in simple terms and then relating those principles to practical situations which affect all our lives. I have used detailed scenarios throughout the text to illustrate the key principles. I wanted to change the popular perception that the study of trusts is remote and detached from everyday life. Trusts no longer simply affect a limited section of the public but often govern the most important assets that people own, such as the family home and rights under a pension scheme. At the heart of trusts lies the relationship between the trustee and beneficiary and the strict duties imposed upon the trustee which can be traced back to the early forms of trust. Such duties are just as relevant today in cases involving commercial relationships as in the more traditional express trust. I hope that this practical approach will bring alive the subject and its many different aspects. I know that once the main principles of equity and trusts are grasped and their practical effect is fully understood this becomes a fascinating and intriguing subject.

I would like to thank Sinead Moloney at Cambridge University Press for her encouragement and support for the idea and writing of this book, also Deepa Somasunderam for her valuable contributions in reading the text and suggestions from a student’s perspective on the subject and most of all I would like to thank my husband Richard without whose support, good humour and invaluable advice this book would never have been completed.
