Contents

	<i>Key to symbols used</i>	page xiv
1	HUMAN RESOURCES AND SYSTEM DESIGN	1
1.1	Concepts	1
1.1.1	<i>The human contribution</i>	1
	The human role as a system controller	1
	The human contribution in high technology systems	2
	The human contribution in low technology systems	5
	Ergonomics and other aspects of technology	7
	The philosophy of work	7
1.1.2	<i>The design of systems</i>	8
	The system concept	8
	The design of high technology systems	10
	The design of smaller systems	19
	The design of macro-systems	20
1.2	Knowledge	21
1.2.1	<i>Demographic data</i>	21
1.2.2	<i>Human resource utilisation</i>	29
1.3	Principles, methods and procedures	31
1.3.1	<i>Education, work and leisure</i>	31
1.3.2	<i>Socio-technical systems</i>	32
1.3.3	<i>Man-machine systems</i>	34
1.3.4	<i>Task analysis</i>	41
	Terminology	41
	Procedural task analysis	45
	Diagnostic task analysis	47
	Task analysis by observation	50
	Process charts	50
	Sequence charts	55

<i>Contents</i>	viii
Link design charts	56
Flow charts	56
Block diagrams	57
Algorithm charts	59
F.A.S.T. diagrams	61
General functional diagrams	61
Task analysis by discussion	61
Responsibility charts	65
Hierarchical analysis	66
Protocol analysis	67
M.C.I. Job-process analysis	67
Conclusion	69
1.4 Applications	70
1.4.1 <i>Man-power planning</i>	70
1.4.2 <i>The design of procedures</i>	72
Checklists	74
Routines	75
Knowledge texts	75
1.4.3 <i>The design of manuals</i>	76
2 SKILL AND TRAINING	80
2.1 Concepts	80
2.1.1 <i>Developmental aspects</i>	80
2.1.2 <i>Human skill</i>	81
2.1.3 <i>Acquisition of skills</i>	83
2.1.4 <i>Mental models</i>	85
2.2 Knowledge	88
2.2.1 <i>Individual differences</i>	88
Capacities, abilities and aptitudes	88
Intelligence and personality	89
Age differences	90
Sex differences	91
Ethnic, cultural, climatic and economic differences	92
2.2.2 <i>Learning</i>	93
2.2.3 <i>Memory and thinking</i>	96
2.2.4 <i>Language</i>	99
2.2.5 <i>Learning and memory</i>	100

<i>Contents</i>	ix
2.3 Principles, methods and procedures	102
2.3.1 <i>Interviewing</i>	102
2.3.2 <i>Psychological testing</i>	105
2.3.3 <i>Surveys</i>	106
2.3.4 <i>Task training</i>	108
2.3.5 <i>Skill training</i>	111
2.3.6 <i>Attitude training</i>	113
2.3.7 <i>Skills analysis</i>	113
2.4 Applications	115
2.4.1 <i>Selection and guidance</i>	115
2.4.2 <i>Placement</i>	120
2.4.3 <i>The design of training schemes</i>	121
2.4.4 <i>Programmed instruction</i>	123
2.4.5 <i>The use of simulators</i>	128
3 NEEDS AND ORGANISATIONS	135
3.1 Concepts	135
3.1.1 <i>Social factors</i>	135
Activity involving others	135
Conceptual approaches	136
3.1.2 <i>Human aspirations</i>	137
The importance of context	137
Terminology	138
3.2 Knowledge	139
3.2.1 <i>Small groups</i>	139
3.2.2 <i>Large groups</i>	141
3.2.3 <i>Leadership</i>	142
3.2.4 <i>Organisation theory</i>	143
3.2.5 <i>Motivation theory</i>	144
3.3 Principles, methods and procedures	146
3.3.1 <i>Group decision making (committees)</i>	146
3.3.2 <i>Role analysis</i>	147
3.3.3 <i>Job analysis</i>	148
3.3.4 <i>Depth interviews</i>	150
3.4 Applications	151
3.4.1 <i>Batch production</i>	151

<i>Contents</i>	x
3.4.2 <i>Construction</i>	153
3.4.3 <i>The management consultant</i>	154
3.4.4 <i>Ergonomics in developing countries</i>	155
4 PERFORMANCE AND JOB DESIGN	159
4.1 Concepts	159
4.1.1 <i>Fatigue</i>	160
4.1.2 <i>Arousal</i>	161
4.1.3 <i>Stress</i>	163
4.1.4 <i>Vigilance</i>	165
4.1.5 <i>Circadian rhythms</i>	167
4.2 Knowledge	168
4.2.1 <i>Human state</i>	168
4.2.2 <i>Mental load</i>	171
4.3 Principles, methods and procedures	176
4.3.1 <i>Experiments and trials</i>	176
4.3.2 <i>Job design</i>	180
4.4 Applications	183
4.4.1 <i>Design for operation</i>	183
The general approach	183
The specific approach	184
4.4.2 <i>Design for maintenance</i>	184
4.4.3 <i>Inspection tasks</i>	186
Passive inspection	186
Active inspection	187
4.4.4 <i>Shift systems</i>	187
4.4.5 <i>The use of VDUs</i>	188
The casual user	189
The continuous user	189
5 INFORMATION PROCESSING	194
5.1 Concepts	194
5.1.1 <i>Information acceptance</i>	194
Sensation	194
Perception	196
Cognition	198

<i>Contents</i>	xi
5.1.2 <i>Information transmission</i>	199
Signal detection theory	199
Information theory	201
Transfer theory	202
5.2 Knowledge	205
5.2.1 <i>Data acquisition</i>	205
5.2.2 <i>Information transmission</i>	205
5.2.3 <i>Decision-making</i>	208
5.3 Principles, methods and procedures	208
5.3.1 <i>Displays</i>	208
5.3.2 <i>Controls</i>	217
5.3.3 <i>Interface design</i>	218
5.3.4 <i>Centralised control systems</i>	220
System malfunctions and human errors	222
Human limitations	223
5.3.5 <i>Alarm systems</i>	225
Alarm interfaces	227
The alarm recipient	229
5.3.6 <i>Computer support</i>	223
The engineered mechanism	223
The man–computer system	223
The human–computer interface	235
User requirements	235
Robotics	237
Conclusion	238
5.4 Applications	239
5.4.1 <i>Human-computer interface design</i>	239
The U.K. organisational structure	239
Input systems	240
Display systems	241
Conclusion	242
5.4.2 <i>Military control systems</i>	243
5.4.3 <i>Process control centres</i>	246
A team work-space	247
A plant interface	248
A management centre	249
An information centre	249

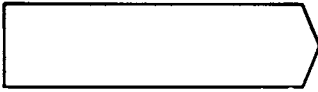

<i>Contents</i>	xii
5.4.4 <i>Aviation psychology</i>	250
The pilot	251
The air traffic controller	253
5.4.5 <i>Checklists and standards</i>	254
6 RISK AND RELIABILITY	260
6.1 Concepts	260
6.1.1 <i>Risk</i>	260
6.1.2 <i>Safety</i>	262
6.1.3 <i>Accidents</i>	265
6.1.4 <i>Human error</i>	269
6.1.5 <i>Reliability</i>	271
6.1.6 <i>Disasters</i>	273
6.2 Knowledge	276
6.2.1 <i>Accident data sources</i>	276
6.2.2 <i>Accident data interpretation</i>	277
6.2.3 <i>Accident data</i>	277
6.3 Principles, methods and procedures	282
6.3.1 <i>Accident reduction</i>	284
Design	285
Procedures	286
Training	287
Management	288
6.3.2 <i>Hazard reduction</i>	290
6.3.3 <i>Error reduction</i>	290
6.3.4 <i>The safe system</i>	295
6.4 Applications	298
6.4.1 <i>Risk analysis</i>	298
6.4.2 <i>Reliability analysis</i>	299
6.4.3 <i>Safety compliance</i>	300
6.4.4 <i>Accident research</i>	302
7 THE CITIZEN AND THE ENVIRONMENT	308
7.1 Concepts	308
7.1.1 <i>The technology-based society</i>	308
7.1.2 <i>The technology-based environment</i>	310

<i>Contents</i>	xiii
7.1.3 <i>Consumer ergonomics</i>	313
7.1.4 <i>Disabled individuals</i>	314
7.2 Knowledge	317
7.3 Principles, methods and procedures	319
7.3.1 <i>Control for ill-defined issues</i>	319
7.3.2 <i>User preference studies</i>	320
7.3.3 <i>The rehabilitation of the disabled</i>	321
7.4 Applications	324
7.4.1 <i>Office design</i>	324
7.4.2 <i>Car design</i>	328
Design procedure	329
Computer-aided design and manufacture	330
The technological push	331
Continuity and change	332
The customer – designer loop	332
Competition and fashion	333
Continuing problems	333
7.4.3 <i>Ergonomics and disability</i>	334
<i>Author index</i>	338
<i>Subject index</i>	343
