Abrahams, B., 384
Abramovitch, R., 191, 364
Adams, V., 317
Adjective, 34, 35, 97; in deaf communication, 54; in cross-linguistic studies, 156; and functionalist grammar, 191, 216; predicate, 224–5, 227, 229–37; and grammatical categories, 240–1, 243–6, 249, 251–4, 258, 260, 263–4; and universal grammar, 272, 280, 284; and reorganizational processes, 324, 329; and semantic development, 349, 351, 361–7, 371, 375–7; and lexical development, 390, 408
Adverb, 24, 253; and surface constituency, 82, 94, 96–7; and functionalist grammar, 175; and universal grammar, 276; and lexical development, 400
Aimard, P., 399
Akmajian, A., 303
Aksu, A., 170
Algar, A., 170
Allan, K., 466, 469
Allport, G., 179
Altali, A., 170
American Sign Language (ASL), 53, 55; morphological complexity of, 12–13, 20–1; as a second language, 24; and functionalist grammar, 175; and speech, 450–84
Ammon, M. S. H., 145, 164, 170, 423
Analogy: and grammatical patterns, 4–5, 104, 106; and semantic uniformities, 34; and omniscient-mother model, 107, 109–10, 125; and functionalist grammar, 186, 212; and grammatical categories, 241, 263; and lexical development, 391, 396–8, 418, 420, 424; and ASL, 463–6, 472, 481
Anderson, B., 182
Anderson, J., 314
Anderson, R., 383
Anderson, S., 335
Anglin, J. M., 347, 350, 355, 371
Animacy: in cross-linguistic studies, 156–7; and functionalist grammar, 182, 189, 200, 205–6, 217; and case grammars, 228–30, 234; and grammatical categories, 257, 258; and universal grammar, 271; and reorganizational processes, 336–7, 339; and semantic development, 367, 385–6; and lexical development, 416; and ASL, 467
Anisfeld, M., 183
Antinucci, F., 160, 170, 191
Aphasia, 18
Arc pair grammar, 35
Argoff, H. D., 136, 152
Aristotle, 176–7
Arlman-Rupp, A., 15
Armstrong, S. A., 353, 387
Aronoff, M., 42, 345, 462, 485
Articles, 259, 261, 264; in cross-linguistic studies, 133; and functionalist grammar, 175, 180, 181, 183, 185, 207; and universal grammar, 269, 277–8, 283–5; and reorganizational processes, 319
Ashbrook, E. F., 12, 20
Atkinson, M., 400
Augst, G., 400
Austin, G. A., 348
Auxiliaries, 18, 19, 22, 74; and surface constituency, 82, 83, 84, 96; and functionalist grammar, 197; and grammatical categories, 251, 253; and universal grammar, 272; and lexical development, 408

Bach, E., 51
Baker, G., 375
Balfour, G., 363
Baron, J., 12, 347, 366, 367
Barrie-Blackley, S., 143
Bartlett, E. J., 362, 378
Bartsch, R., 191
Bateman, W. G., 399
Bates, E., 14, 41, 136, 174, 178, 181, 185, 193, 198, 204–5, 215, 217, 240, 244, 269, 333, 431, 447
Bateson, G., 193

Bornstein, M. H., 380
Bosi, R., 170
Boucher, J., 182
Bourne, L., 208, 213
Bower, G., 199
Bowerman, M.: and induction, 7; and lexical development, 12, 210, 213, 382, 399, 400–1; and propositions, 14, 57; and sequence, 21, 22; and semantic development, 27, 240, 252, 372; and reorganizational processes, 30, 320, 323, 329, 483; and complex sentences, 165; and grammatical categories, 254, 257; and principle theory, 295; and cognition, 331–2; and syntax, 333, 343–4, 422
Boyd, W., 399
Boyes-Braem, P., 170
Bradley, D. C., 47, 380
Braine, M. D. S.: and semantic development, 9, 27, 29, 31, 33, 35, 48, 269; and propositions, 14; and cross-linguistic studies, 128, 130, 160; and functionalist grammar, 186, 210, 214; and case grammars, 222, 224–5, 227, 228, 229, 238; and grammatical categories, 247–8, 257, 261, 265; and principle theory, 305, 313; and reorganizational processes, 333
Brainerd, C. J., 383
Brandenburg, G. C., 399
Bregman, A., 196
Bresnan, J. W., 29, 35, 221, 222
Bresson, F., 185
Brewer, W., 362, 365, 387
Broca, P., 46–7
Broch, O., 480
Broen, P. A., 15
Brokx, J. P. L., 93
Bronckart, J. S. V. O., 205
Brooks, L., 397
Brown, R.: and syntax, 6, 107; and propositions, 14; and words, 17; and sequence, 21; and lexical development, 23, 396, 418; and recursion, 70, 77; and conversation, 104; and cognition, 129, 135, 258: and word order, 153, 154; and locative relations, 160; and functionalist grammar, 174, 178, 179, 184, 185, 186; and grammatical categories, 240, 243, 245, 247, 252–3, 255; and principle theory, 294, 295, 298, 307, 309, 314; and reorganizational processes, 321, 346; and semantic development, 347, 350, 375–7
Bruner, J. S., 15, 103, 104, 105, 106, 109, 130, 135, 169, 193, 213, 348, 381–2, 385–6, 389
Burke, V., 275

Camaioni, L., 193
Campbell, R., 362, 365
Card, S., 181
Caretaker speech, 15, 39–42, 73; Russian, 17; and auxiliaries, 19, 74; and word order, 22; and repair sequences, 104, 106; and cross-linguistic studies, 129, 130; and learnability theory, 293, 306–7, 309–12. *See also* Omniscient-mother model
Carey, S., 11, 13, 80, 363, 364, 365, 367, 371, 378–9, 383, 385, 387, 483
Carpenter, P. A., 363
Carroll, J. M., 182, 345, 434
Case: in cross-linguistic studies, 133, 141, 143, 145, 150–2, 156–7, 159, 166; and functionalist grammar, 196, 205–7, 214, 217; and grammatical categories, 241–2, 249–50, 258–60; and universal grammar, 275; and reorganizational processes, 322; in speech and ASL, 461, 470
Case grammars, 27–31, 104, 219–38
Casterline, D., 454
