ACKNOWLEDGEMENTS

I am indebted to Dr P. M. E. Altham, of the Statistical Laboratory at the University of Cambridge, who read this compilation in manuscript and made many helpful comments and suggestions.

I wish to thank the Biometrika Trustees, Longman, the Rand Corporation and John Wiley for permission to use material from:

Biometrika

Pearson, E. S. & Hartley, H. O. (eds.) *Biometrika Tables for Statisticians* vols 1 and 2 (Cambridge University Press 1931, 1966)

Fisher, R. A. & Yates, F. *Statistical Tables for Biological, Agricultural and Medical Research* (Longman, London 1978)

The Rand Corporation. *A Million Random Digits* (The Free Press, Glencoe, Ill. 1955)

Conover, W. J. *Practical Nonparametric Statistics* (Wiley, New York 1971)

In addition, many of the tables are based on material which has appeared in the following:

Journals

Annals of Mathematical Statistics

Biometrics

Biometrika

Journal of the American Statistical Association

Books

Comrie, L. J. *Chambers's Shorter Six-Figure Mathematical Tables* (Chambers, Edinburgh 1966)

Harter, H. L. & Owen, D. B. *Selected Tables in Mathematical Statistics*, vol. 1, sponsored by the Institute of Mathematical Statistics (Markham, Chicago 1970)

Harvard University Computation Laboratory *Annals*, vol. 35: *Tables of the Cumulative Binomial Probability Distribution* (Harvard University Press 1955)

Hollander, M. & Wolfe, D. A. *Nonparametric Statistical Methods* (Wiley, New York 1973)

Miller, J. C. P. & Powell, F. C. *The Cambridge Elementary Mathematical Tables* (Cambridge University Press 1979)

Molina, E. C. *Poisson's Exponential Binomial Limit* (van Nostrand, New York 1942)

Owen, D. B. *Handbook of Statistical Tables* (Addison-Wesley, Reading, Mass. 1962)

CONTENTS

Acknowledgements *page* 3
Explanation of statistical terms and procedures 6
Factorials 10
Binomial coefficients 13
Binomial distributions: tail probabilities 14
Negative binomial distribution 20
Inverse sine transformation 23
Sign tests: quantiles of Bi($n, \frac{1}{2}$) 24
  description of tests 25
  McNemar test 25
  Cox & Stuart test for trend 25
Poisson distributions: tail probabilities 26
Normal distribution: probability density 30
  quantiles 30
  tail probabilities 31
Normal scores 32
Standardised range 34
Negative exponential distributions 35
Studentised range: quantiles and definition 36
Chi-square distributions: quantiles and definition 38
t-distributions: quantiles and definition 39
F-distributions 40
Duncan's multiple range: factors 44
  example 45
Tests based on *t*-, chi-square, *F*- and hypergeometric distributions:
  estimation of means and differences between means 46
  confidence intervals for variance 46
  variance ratio test 47
  tests of goodness of fit 47
  tests of independence in contingency tables 48
  Fisher exact test 49
  tests of association 50
  Cochran Q test 51
Fisher's exact text: critical values 52
Natural logarithms 58
$f \ln f$ 60
Wilcoxon signed-rank test: quantiles 63
  description of test 63
  signed-rank median test 63
Mann–Whitney rank-sum test: quantiles 64
  description of test 66
Kolmogorov tests: quantiles 67
  description of tests 67
Smirnov tests: quantiles 68
  description of tests 69
Kruskal–Wallis test: tail probabilities 70
  description of test 71
Terry–Hoeffding normal scores test: tail probabilities 72
  description of test 73
Friedman test/Kendall coefficient of concordance: tail probabilities 74
  description of test/definition 75

More information

Number-of-runs tests: quantiles 76
one-sample test for randomness 77
runs above and below median 77
Wald–Wolfowitz test 77
Pearson correlation coefficient: quantiles 78
definition and tests for correlation 78
Z- ($\tanh^{-1}$) transformation 79
Spearman correlation coefficient/Hotelling–Pabst test: quantiles 80
definition and tests for correlation 80
Daniels test for trend 80
Kendall correlation coefficient: quantiles 81
definitions and tests for correlation 81
Mann–Kendall test for trend 81
Normal scores correlation coefficient: tail probabilities 82
definition and tests for correlation 82
Quadrant-sum test (Olmstead–Tukey): quantiles 82
definition and test for association 82
Multiple correlation coefficient: quantiles 84
definition and test 84
von Neumann ratio: quantiles 85
definition and tests of serial correlation 85
Durbin–Watson d-statistic: definition and tests 85
quantiles 86
Random standardised normal deviates 88
Random digits 92
Guide to tests 96
