1 Introduction to collapse 1
What is collapse? 4
Collapse in history 5
The Western Chou Empire 5; The Harappan Civilization 6; Mesopotamia 7; The Egyptian Old Kingdom 8; The Hittite Empire 8; Minoan Civilization 9; Mycenaean Civilization 10; The Western Roman Empire 11; The Olmec 11; The Lowland Classic Maya 12; The Mesoamerican Highlands 12; Casas Grandes 14; The Chacoans 14; The Hohokam 15; The Eastern Woodlands 15; The Huari and Tiahuanaco Empires 16; The Kachin 17; The Ik 17; Remarks 18
After collapse 18

2 The nature of complex societies 22
Introduction 22
Complexity 23
Nature of complexity 23; Simpler societies 24; States 26; Levels of complexity 28
The evolution of complexity 31
Summary and implications 37

3 The study of collapse 39
Introduction 39
What collapses? More on definitions 39
Classification of theories 42
Framework of discussion 43
Resource depletion 44
Mesoamerica 45; Peru 46; The American Southwest 46; Eastern North America 47; Egypt 47; The Harappan Civilization 48; Mesopotamia 48; Mycenaean Civilization 49; The Roman Empire 49; Assessment 50
New resources 51
Assessment 52
Catastrophes 52
Mesoamerica 52; Minoan Civilization 53; The Roman Empire 53; Assessment 53
Insufficient response to circumstances 54
Assessment 59
Other complex societies 61
Assessment 61

More information

Intruders 61

North and South America 61; The Harappan Civilization 62; Mesopotamia 62; The Hittite Empire 63; Minoan Civilization 63; Mycenaean Civilization 63; The Roman Empire 63; China 63; Assessment 63

Conflict/contradictions/mismanagement 64

General 65; Mesoamerica 67; Peru 67; China 67; Mesopotamia 68; The Roman Empire 69; The Byzantine Empire 70; Spain 71; The Netherlands 71; The Harappans 71; Easter Island 71; Assessment 71

Social dysfunction 73

Assessment 73

Mystical factors 74

Assessment 82

Chance concatenation of events 86

Assessment 86

Economic explanations 86

Assessment 88

Summary and discussion 89

4 Understanding collapse: the marginal productivity of sociopolitical change 91

The marginal productivity of increasing complexity 93

Agriculture and resource production 94 Information processing 99; Sociopolitical control and specialization 106; Overall economic productivity 108;

Explaining declining marginal returns in complex societies 109

Agriculture and resource production 110; Information processing 111; Sociopolitical control and specialization 115; Overall economic productivity 117

Explaining collapse 118

Alternatives to collapse 123

5 Evaluation: complexity and marginal returns in collapsing societies 127

The collapse of the Western Roman Empire 128

Assessment of the Roman collapse 148

The Classic Maya collapse 152

The setting 152; Views of the Maya 155; The evolution of Maya Civilization 156; Population 159; Subsistence 160; Sociopolitical complexity 162; Warfare 164; The collapse 166; Assessment of the Maya collapse 169

The Chacoan collapse 178

Assessment of the Chacoan collapse 183

Evaluation 187

The Roman collapse 188; The Mayan collapse 189; The Chacoan collapse 190

Conclusions 191

6 Summary and implications 193

Summary 193; Collapse and the declining productivity of complexity 197; Further implications of declining marginal returns 199; Suggestions for further applications 203; Declining marginal returns and other theories of collapse 205; Contemporary conditions 209
