

Index

- acceptance, 130–3; and action, 149–52;
 vs. probability, 133–9, 146–7;
 random, 148–9; rational, 139–47;
 and will, 147–8; *see also* belief
 act (or option), 1–2, 4–5, 49, 51–2; of
 acceptance, 148; constant, 183,
 187–8; Savage, 183; set D of, 186–7,
 201–2; simple, 196–7, 202–3; unin-
 terpretable, 183–5
 Allais, Maurice, 63, 64, 82
 Allais problems, 63–6
 alternative hypotheses, 169–73
 Anand, Paul, 48
 Armendt, Brad, xii, 128
- Bacon, Francis, 86
 Bar-Hillel, Maya, 48, 49, 51
 Bar-Hillel, Yehoshua, 234
 Bayesian decision theory, 1, 29
 Bayesianism, qualified, 29–33
 belief, 130, 152–5
 Bell, David E., 65
 Bernoulli, Daniel, 226
 Bernoulli, Nikolaus, 226
 Blackburn, Simon, 208
 Blyth, Colin R., 48–9
 Bratman, Michael E., 13n
 Broome, John, 65, 68
 Brown, Peter M., 123n
 Burks, Arthur, 49–51, 53
- calculation, 5–8
 Campbell, Richmond, 86n
 Carnap, Rudolf, 29, 221, 234
 Cavendish, Henry, 139–40, 163–4, 194
 choice function, 22
 choice set, 22
 Christensen, David, 113
 cognitive utility, 141–2, 185
 Cohen, L. Jonathan, 135n
 conditionalization, 32, 84–5, 120–7
 Condorcet paradox, 51
 confirmation, 84–6
 confirmation theory, explanatory value
 of, 85–8; subjectivity of, 91–2
- connectedness, 10, 19–21, 46, 54, 184,
 187
 consequence, 1–5, 82; cognitive, 186,
 200–1
 consequentialism, 38–42
 consistency, logical, 134–6, 216
 continuity, 193–5
 contradiction, *see* consistency, logical
 Copernicus, Nicolaus, 166–8
 corpus, 142, 211
 Crick, Francis, 215
- Davidson, Donald, 9, 18, 24, 36
 deductive closure, 32–3
 de Finetti, Bruno, 91–2, 99–102,
 199–200
 diachronic separability, 74, 77–8, 80
 discrimination threshold, 57–60
 dominance, 110–12, 191–2, 198
 Doppelt, Gerald, 217, 218n
 Dorling, Jon, 88n, 163–4
 Duhem, Pierre, 86
 Dutch book arguments, 94–104, 199–
 200; diachronic, 106–7, 110–13,
 120, 128
- Eddington, A. S., 169–70
 Eells, Ellery, 29, 65, 68
 Einstein, Albert, 137–8, 169–70
 Ellis, Brian, 211
 Ellsberg, Daniel, 66–7, 76n, 82
 Ellsberg problems, 66–70
 Elster, Jon, 31
 empirical adequacy, 240
 empiricism, 93–4
 event, 133, 186
 evidence, value of, 79–81, 108, 173–80,
 212
 expected utility, 1–5
 experiment, 188–90
- Fishburn, Peter C., 10
 Foley, Richard, 24
 Franklin, Allan, 86n, 164–6
f_T, 201
