INDEX

Abreu, D., 22–3
accounting; data, 51; procedures, 52, 63; profits, 51, 229, 231
acquisitions, see merger
Acs, Z. J., 6, 135
Adams, Walter, 7, 217
Adams, William James, 13, 55, 228, 229
adjusted concentration ratio, see concentration
advertising, 28, 51, 55, 85–6; game, 49; intensity, 47–50, 52, 75, 229–30; traceable, 47–50; see also barriers to entry; nonprice competition
aerospace: firms, 184; industry, 184; see also aircraft
Agency for International Development, 215
aggregate concentration, see concentration
aerial, hypersonic trans-atmospheric, 150–1
Alcoa case, 191
allocative efficiency, see efficiency
Alpha Portland, 229
Amato, L., 84
American Car & Foundry Company, 35
American Distilling Company, 36–7
Amihud, Y., 11, 227
anticompetitive behavior or performance, 20–1; see also market power; merger; predatory pricing; reciprocal buying
antitrust, 7, 223, 238; enforcement, 19, 21, 65–6, 188–9, 215; enforcement agencies, 20–1, 40, 188, 190, 194, 199, 239; guidelines, 189, see also Merger Guidelines; law, 3, 6–7, 56, 187–9, 191, 223, 237, 238, 240; liability, 199, 203, 225; see also damages; policy, 6, 21, 41, 43, 56, 65–6, 215, 223–5; reorientation of, 6–7, 187–202, 237, 238; violations, 7, 237; see also Assistant Attorney General for Antitrust; merger
Aoki, M., 3, 221
applied research and development, see research and development
appropriability conditions, 6, 113, 116, 117, 121, 122, 126, 128, 137, 180–1, 234; and appropriation of returns to R & D, 7, 111, 113, 117, 119, 121, 170–7, 180–1, 183, 196–8, 200–2, 204–5, 213, 221, 223–5, 238; and competition in the post-innovation market, 6, 85, 104–5, 135–7, 142, 149, 153–6, 161, 221, 223, 232; and R & D in the preinnovation market, 135–7, 143, 197; measures of, 126, 180; see also spillovers
ARCO Products Company, 236
arms-length trading, 18, 39, 42, 114; see also market
Armstrong, L., 3
Arrow, K. J., 113
assets: indivisible, 114; I.B., 74–5, 231; physical, 114; valuation of, 11, 57, 227; see also common assets; value assets/sales, see capital Intensity
Assistant Attorney General for Antitrust, 7, 21, 189, 191, 194
asymmetry, 22, 25–7, 29–30, 162–3
Audretsch, D. B., 6, 135, 222
BP Oil Company, 236
Baily, M. N., 6, 239
Bain, J. S., 56–66, 229, 231; see also sample, Bain’s
Baldrige, M., 192, 193

253
Index

Baldwin, W. L., 155, 190, 197, 201, 203, 213, 218, 224, 228, 233, 234, 237
bank, 217, 221
banking practices, 217, 221
barriers to entry or mobility, 3, 20, 40–1, 55, 57–8, 60, 64, 66, 81, 88, 193, 230; and absolute cost, 66; and advertising, 52, 66; and minimum efficient scale, 52, 66; and multi-market groups, 43; and product differentiation, 66; and R&D, 66; see also profitability
Barton, D. R., 5, 220
Barzel, Y., 93, 163, 197
basic research or science, 135, 138, 150, 152, 157, 196–7, 232
battle-of-the-sexes game, 30, 56
Bauer, L. L., 236, 239
Baumol, W. J., 13, 114, 231
Baxter, W., 21, 189, 191, 194
behavior, see conduct
Bell Telephone Company, 138
Bernheim, B. D., 13, 22–7, 29–30, 44, 229
Bernstein, J. I., 5, 122, 130
Berry, C. H., I
Bertrand equilibrium, 23
Bethlehem–Youngstown case, see merger
Blair, R., 228
bounded rationality, 65
Bradburd, R. M., 81
Branch, B. S., 76, 79, 192
Brock, J. W., 217
Brodley, J. F., 7
Brown, C. C., 203, 210, 211
Brown Shoe case, see merger
Brown–Forman Distillers Corporation, 36–7
Budd Company, 35
business: combinations, 1, 187–202, 226, 238, see also joint ventures, merger; groups, 3, see also keiretsu; policy, see strategy; review letter, 183–4; unit, 2, 4, 14, 66, 75, 135–6, 232, 234, see also line of business
buyer, 30; concentration, 237; diversity of buyers, 52, 74; see also customer
California Air Resources Board, 174, 236
California Clean Air Act, 174
Canada, 215, 218
capacity, 19, 43, 47, 50, 79, 81
capital: costs, 4, 53, 74–5, 77, 79, 227, 231; human, 65; intensity, 4, 52–3, 74–83; internal, 217; internal transfers, 12, 42, 224; market, 42, 217; physical, 233; see also oligopoly; profitability; R&D capital
Carey, J., 221, 239
Carleton, W. T., 229
Carter, J., 189
Caves, R. E., 5, 43, 54, 79, 81, 193, 220, 240
Celler–Keefauver Act, see Clayton Act, Section 7
census, see U.S. Bureau of the Census
Chakrabarti, A. K., 6, 239
Chamberlin, E. H., 27, 29–31, 148, 150, 155, 228
Chamberlinian oligopoly, 25–31, 53
Chebyshev’s inequality, see probability
Chernow, R., 1
Chevron U.S.A., Inc., 236
Chrysler, 59, 62
Clayton Act: Section 3, 20; Section 7, 19–20, 32–3, 34, 41, 190, 192, 224
Clorox, see merger, Procter & Gamble and Clorox case
closeness: marketing, 44, 229; technological, 44, 121–2, 128, 131, 134, 181, 227, 229; wholesaling, 14, 227; see also industry; methodology
Coase, R. H., 13, 18
Cohen, W. M., 135, 233, 234, 235
collusion, 13, 26, 30; overt, 20, 22; tacit, 3; see also conjectural interdependence; mutual dependence
combinations, numerical, 16–17, 34, 39, 45, 58–9; see also business combinations; merger
Commerce Department, see U.S. Department of Commerce
common assets, sharing of, 2, 18, 114, 116
company effects, see firm effects
competition (see also rivalry), 1–3, 6, 7, 42, 71, 149, 153–4, 224; and efficiency, 43–4; and R&D, 6–7, 93–115, 133–7, 142–7, 148–66, 170–1, 200, 226, 239, see also appropriability conditions; imports, 74, 229; international, see international trade, competition; potential, 20–1, 33, see also entry; see also industry; nonprice competition; price; profitability
competitive advantage, 3
competitive races, see overbidding
competitiveness, global or international, 1, 6, 7–8, 95–6, 105, 187, 190, 195–6, 202, 215–26, 239; and mergers, 195–6
complementarities, 1, 4, 8, 11, 216, 219, 221; in distribution, 1, 4, 40; in production, 1, 4, 22, 40; in marketing, 1, 4, 22, 47–50; in R&D, 1, 3, 5, 38, 40, 47–50, 116, 118, 119, 122, 131, 132, 134, 142; see also closeness, technological; economies; industry
component gestalt, 146, 150–3, 157–8, 235
components: performance attributes, 146, 150–3; consistency of, 150–3; see also integration
CompuStat, 231, 232
Computer Aided Manufacturing-International Inc. (CAM-I), 184
computer industry, see DRAM chips; semiconductors; software
concentrated industry or market, see industry, concentrated
concentration, 20, 40–1, 43, 65–6, 76, 78–9, 84–90, 135–7, 142–3, 189–90, 194–5, 200–1, 224–5, 234, 235, 238; aggregate, 43; critical, 53, 230; and market power, 20, 39–43, 57–67, 230; and price, 50; and profitability, see profitability and seller concentration; of R & D activity within multimarket groups, 133–47; ratios, 143; ratios, adjusted, 51–2, 74, 77, 87, 237; and R & D, 84–90, 133–47, 149, 200–1, 234; and significance of firm effects in R & D, 156, 161–2; and systems developments, 157–60, 236; variance in, 89–90; see also buyer concentration; Herfindahl index; industry; merger; nonprice competition; productivity; profitability; research and development; Schumpeterian hypothesis; technological change
conduct: cooperative-like, 20, 24, 32; nonrandom or purposive versus random or nonpurposive, 16–17, 54, 57–60, 227; see also advertising; diversification; game; marketing; oligopoly; price; research and development; strategy conglomerate, see diversification; firm; merger
Congress, see U.S. Congress
congruence, 39–40; of diversification profiles defined and measured, 33–8; of R & D strategies defined and measured, 119–28, 138–42, 181–2; see also merger; methodology
conjectural interdependence or variations, 13, 57, 61, 86; see also mutual dependence; oligopoly
consensus, see oligopoly
Consolidated Foods–Gentry case, see merger
consortia, research, 169–86, 196–202, 221, 237; see also joint venture
contant returns to scale, 22, 28
contact, see multimarket contact
contiguity, see closeness; methodology
cooperation, 1–2, 3, 6–8, 216–17, 226; opportunity for, 24–5, 42, 61; in production, 187, 201, 218, 225; in R & D, 7, 93–115, 169–86, 187–9, 196–204, 213–14, 216–26, 236, 239; see also conduct; equilibrium; joint ventures; mutual dependence; oligopoly; National Cooperative Research Act
coordination, 63–6, 76, 79, 219; see also oligopoly coordination
corporate patterns data, see U.S. Federal Trade Commission
corporate structure, see multidivisional “M-form”
costs, 22, 28–9, 43, 176, 238; average, 22, 76; changes in or shocks, 42, 44, 50–1, 55, 79, 228; and diversification, 39–41, 65, 114–15, 225, 227; diversity in, 29–30, 52, 66, 74; fixed, 13, 76, 94, 98, 174, 194, 223; marginal, 22, 71, 76, 172, 176, 222; see also capital costs; economies; efficiency; innovative investment, cost of; market; research and development; symmetry; transactions costs Cournot equilibrium, see Cournot–Nash equilibrium
Cournot–Nash equilibrium, 49, 137; see also equilibrium; Nash noncooperative equilibrium; wasteful expenditures
Court, see U.S. Supreme Court
crCock, S., 3
Culbertson, J. D., 131–2
culture, Japan contrasted with U.S., 217–18, 221
customer, 13, 29; see also buyer
damages, 189; single, 237; treble, 237
Damoclean taxation, see taxation data, see accounting; PIMS data; U.S. FTC; United Kingdom
debt, 75
de diversification, 5, 131
deep pocket, see predatory pricing
defense establishment, 184; see also U.S. Department of Defense
demand, 81; changes in or shocks, 42, 44, 50–1, 55, 79, 228; constant share, 29; diversity in, 29–30, 66; function, 23; see also growth; symmetry
Demsetz, H., 53, 76, 192, 193
Department of Justice, see U.S. Department of Justice
deregulation, 188–90
destructive competition, 1
detection of price cutting or cheating, see price cutting
development, 150–3, 212; complexity of, 152–3, 157; and firm size, 157; parallel paths, 94, 96–7, 102, 172, 197, 200, 214, 236; project or task, 150–3; time, 110–11; trial and error process, 152, 235; sequential research strategy, 236; see also components; integration; research and development; systems development; trials
differences, see systematic differences
discount factor, 22, 27
discount rate, see rate of return
discrimination, see price discrimination
diseconomies of scale, 99, 101
disequilibrium, 81
distribution, 14, 18, 219; channels, 2, 14–18, 19, 227; outlets, 13; systems, 2; see also complementarities; frequency; probability; strategy
diversification; and efficiency, 39–41, 47–50, 57, 65, 75, 114, 195, 216, 220, 224–6, 227, 230, 240; and market power, 39–41, 56–67, 75, 195, 215–16, 225; overview of hypotheses, 1–8; and policy, see policy; and R & D investment, 83, 112–18, 119–32, 133–47, 169–86, 216, 220; random or unrelated or pure conglomerate versus nonrandom or related, 35–8, 46–7, 57–60, 116, 122–4, 138–9, 216, 219, 220, 225, 227, 240; see also conduct; congruence; costs; de-diversification; distribution; economies; efficiency; inverse Herfindahl index; market power; merger; methodology; multimarket contact; oligopoly; productivity; profitability; purposive diversification; research and development; Schumpeterian hypothesis; strategy; wholesaling diversity, 29; of R & D, 148–66; rivalry and diversity of R & D, 4, 6–7, 147, 148–66, 202, 218, 236; see also buyer, diversity of buyers; costs; oligopoly divestiture, 34
dollar, strength of, 196, 223
dominant firm, see firm, leading or dominant
Dosi, G., 235
DRAM chips, 223
dummy variables, 48, 51–2, 63, 72–3, 87, 89, 143, 158–61, 164, 229–31, 234, 235, 236
duplication of research and development, see research and development; trials; wasteful duplication
Eastern Europe, 215, 225
Eastman Kodak, 138
economies, 7, 16, 190, 225, 228; of joint operations, 172, see also cooperation, joint ventures; of multiplant operation, 238; product run-length, 238; of scale, 43, 52, 99, 105, 111, 155, 175, 200, 202, 213, 225, 238; of scope or multimarket operation, 2, 11–12, 19, 43–5, 47–50, 54–5, 57, 65, 75, 99, 105, 111, 114, 181, 202, 203, 216, 220, 224–5, 240; see also barriers to entry; costs; diversification; efficiency; multimarket contact
Edwards, C. D., 13, 20, 30, 44, 54, 55, 228, 229
effects, see firm effects; fixed effects; group effects; industry effects; line of business effects
efficiency, 11–14, 18, 33, 39–41, 44, 65, 188, 190–2, 219, 224, 226, 228, 237; dynamic, 8, 11, 40, 83, 216, 225–6; economic, 43, 45, 191, 238; multiplant, 238; production, 190, 219, 224, 238; static allocative, 1, 3, 8, 11, 27, 40, 43, 47, 76, 78–9, 135, 224–5; technical, 3, 5, 11, 13, 27, 40, 50, 103, 104, 135, 176, 216, 225–6; see also costs; diversification; economies; market share; merger; multimarket contact; resource allocation
elasticity, cross price, 30
Electrically Heated Catalyst Testing Program, 174
Elzinga, K. G., 224
employees, see labor
engine, pollution-free, 152
England, see United Kingdom
entry, 42, 71, 86, 171–2, 180, 211–12, 214, 231; conditions, 13, 58, 85, 107, 231; and potential entrants, 43; see also barriers to entry; competition; potential; equilibrium, free entry
equilibrium, 24, 27–8, 30, 71, 78; cooperative-like, 13, 22–3; free-entry, 93, 108–12, 153, 171, 175, 203–4, 212, 214; joint profit maximizing, see joint profit; monopoly or monopolistic, 23–4; multiple equilibrium, 25, 29–30; noncooperative, 24, 27–8, 31, 154–5; see also Nash noncooperative equilibrium; stochastic, 155; see also Barzel; Bertrand equilibrium; innovative investment; trigger strategy
equity, 75
error, normal, 72; see also heteroskedasticity; homoskedastic error; random error
errors-in-variables estimate, 75
Europe, see Eastern Europe; European Community
