## Contents

	<i>Series editor's introduction</i>	vii
	<i>Contributors</i>	x
<b>I</b>	<b>Instability in economic theory</b>	
1	Chaotic dynamics in overlapping generations models with production <i>Alfredo Medio and Giorgio Negrone</i>	3
2	Evolutionary chaos: Growth fluctuations in a Schumpeterian model of creative destruction <i>Gerald Silverberg and Doris Lehnert</i>	45
<b>II</b>	<b>Nonlinearity in financial markets</b>	
3	Detection of nonlinearity in foreign-exchange data <i>Paolo Guarda and Mark Salmon</i>	77
4	Chaos and nonlinear dynamics in futures markets <i>Apostolos Serletis and Paul Dormaar</i>	113
5	Continuous-time chaos in stock market dynamics <i>Kehong Wen</i>	133
<b>III</b>	<b>Tests for nonlinearity and chaos</b>	
6	An experimental design to compare tests of nonlinearity and chaos <i>William A. Barnett, A. Ronald Gallant, Melvin J. Hinich, Jochen A. Jungeilges, Daniel T. Kaplan, and Mark J. Jensen</i>	163

Table of Contents

[More information](#)

vi	<b>Contents</b>	
7	Testing time series for nonlinearities: The BDS approach <i>W. D. Dechert</i>	191
8	Searching for nonlinearity in mean and variance <i>Ted Jaditz and Chera L. Sayers</i>	201
9	Operational characteristics of White's test for neglected nonlinearities <i>J. A. Jungeilges</i>	219
10	Time series, stochastic and chaotic <i>Thomas J. Taylor</i>	267
11	Linearity testing and nonlinear modeling of economic time series <i>Timo Teräsvirta</i>	281
<b>IV</b>	<b>Frequency domain methods and nonlinear business cycles</b>	
12	The importance of being nonlinear: A frequency-domain approach to nonlinear model identification and estimation <i>Richard Ashley and Douglas Patterson</i>	297
13	Trends, shocks, persistent cycles in evolving economy: Business-cycle measurement in time-frequency representation <i>Ping Chen</i>	307
14	International evidence of business-cycle nonlinearity <i>Philip Rothman</i>	333
<b>V</b>	<b>Nonlinear prediction and forecasting</b>	
15	Local Lyapunov exponents: Predictability depends on where you are <i>Barbara A. Bailey</i>	345
16	Forecasting realignments: The case of the French franc in the exchange-rate mechanism <i>Bruce Mizrach</i>	361
17	Daily returns in international stock markets: Predictability, nonlinearity, and transaction costs <i>Steve Stachell and Allan Timmermann</i>	369
18	Nonparametric forecasts of gold rates of return <i>Thanasis Stengos</i>	393
