Preface ix
Acknowledgements xii

1 Onsets and weight: the theory 1
1.1 Aims 1
1.2 Why a book on moraic onsets? 2
1.3 The theory of onset weight 11
1.4 Organization of the book 33

2 Onsets and stress 37
2.1 Introduction 37
2.2 Languages where the quality of onsets (QO) matters exclusively (t) 39
2.3 Languages where the presence of onsets (PO) matters exclusively (u) 57
2.4 PO and QO effects simultaneously in a language: the case of Pirahã (v) 75
2.5 Arabela, a case ambiguous between (t) and (v) 83
2.6 Discussion and conclusion 97

3 Onsets and compensatory lengthening 100
3.1 Aims 100
3.2 Samothraki Greek 102
3.3 Extensions of the proposal 122
3.4 Conclusion 134

4 Onsets and word minimality 137
4.1 Introduction 137
4.2 Bella Coola background 138
4.3 Word minimality 146
4.4 Alternatives that dispense with onset moraicity 159
4.5 Conclusion 163
## Contents

5 Onsets and geminates 164
5.1 Introduction 164
5.2 Word-initial moraic-onset geminates 166
5.3 Word-medial moraic-onset geminates 184
5.4 Typology, more theory and alternatives 191
5.5 Concluding remarks 200

6 Other real and not so real onset-sensitive data: brief case-studies 202
6.1 Aims 202
6.2 Additional phenomena and/or languages indicative of moraic onsets 203
6.3 Misanalysed onset-sensitive languages 222
6.4 Summary 228

7 Conclusion and discussion of alternatives 230
7.1 The book’s main themes 230
7.2 Alternatives 237
7.3 Conclusion 245
