200

Elliptic integrals, 119
 Equilibrium
 equations, 24, 83
 for plane strain, 102
 of point load, 80
 Extensional strain, 8, 10

Field tests, 52, 61, 151
 cable jacking test, 64, 193
 cone penetration test, 61
 correlative tests, 61
 deterministic tests, 61, 63
 plate load test, 63, 65, 151, 193
 pressuremeter test, 65, 102, 153
 screw plate test, 64, 151
 standard penetration test, 61
 wave propagation tests, 62, 66
 Flamant's problem, 84
 Flamant's solution, 85
 Flexible foundations, 112

Gravity stresses, 100, 155

Hooke's law, 34, 104
 Hoop stress, 78

Incompressible
 behavior, 56, 71
 elasticity, 71
 Interaction, 112, 137, 196
 Invariants
 principal, 23
 stress, 22
 Isotropic elasticity, 34
 Isotropy
 transverse, 98

Kelvin's problem, 88, 151
 relation to Boussinesq's problem, 91
 solution to, 88, 151

Laboratory tests, 52, 53
 direct shear test, 60
 oedometer test, 58
 triaxial test, 2, 54
 Lamb's problem, 98
 Lamé constants, 43
 Lamé stress ellipsoid, 32
 Layered soils
 approximate solutions, 146
 Burmister's solution, 98, 146
 settlements of, 145, 147
 Line load, 84, 142
