road tolls 111
robustness 193
rules of thumb see optimality
runaway 7
salmon (proverbial) 32, 33, 35, 128
saturation 76, 120
scalar values 200
scale
allometric see allometric scaling
arbitrariness of 80
correct currencies see currency
of functions describing traits 68, 70, 75–77, 168–169
of maps 8
script 28, 199
sea urchin 143
seasonality 91, 149
spring vs. autumn population size 149
seduction 64
seed beetle 14, 15
selection 13, 46, 48
frequency-dependent see frequency-dependent selection
weak and strong 48, 136
selection differential 47, 48, 54, 58, 61
self-consistency 89, 122, 140, 158, 160, 161
connecting winter days and nights 109–110
selfish gene 14
selfishness 113, 136
lowering group or population performance 126, 133, 158, 167
unselfish acts by humans 114, 186
self-maintenance 65, 66, 75
semelparity 84
seminal fluid 14
sensory exploitation 64
sex allocation 115
sex ratios 10, 37, 138
effect on population dynamics 151
in haplodiploid organisms 151
unity assumption 151
sex roles 92, 140
sexual conflict 14, 37, 39
intraspecific 35
Index

speciation 186
species ranges 59
species-level arguments 158
failure to explain evolutionary processes
