Neurogenetics: A Guide for Clinicians
Neurogenetics: A Guide for Clinicians

Edited by

Nicholas W. Wood
Galton Professor of Genetics and Head, Department of Molecular Neuroscience,
Institute of Neurology, University College London, London, UK
Contents

List of contributors vi

1 The human genome project – what it really means and where next 1
Sonia Gandhi and Nicholas W. Wood

2 Genetic counseling and genetic testing for neurogenetic disorders 6
David Craufurd and Peter S. Harper

3 Alzheimer's disease and related dementias 17
John Hardy

4 The epilepsies 32
Mark Gardiner

5 The ataxias 52
S. H. Subramony

6 Huntington's disease 64
Edward J. Wild and Sarah J. Tabrizi

7 Parkinsonism 83
Vincenzo Bonifati

8 Prion diseases 103
Simon Mead and John Collinge

9 Channelopathies 121
Michael G. Hanna and Dimitri M. Kullmann

10 Amyotrophic lateral sclerosis and other disorders of the lower motor neuron 136
Christopher E. Shaw, Jemeen Sreedharan, Caroline A. Vance, and Ammar Al-Chalabi

11 The muscular dystrophies 148
Kate Bushby and Una-Marie Sheerin

12 Charcot-Marie-Tooth diseases 166
Odile Dubourg, Alexis Brice, and Eric LeGuern

13 Mitochondrial disorders 188
Robert McFarland, Robert Taylor, Andrew Schaefer, and Doug Turnbull

14 The neurofibromatoses and related disorders 212
Rosalie E. Ferner

15 The future of neurogenetics 229
Thomas D. Bird

Index 234
Contributors

Ammar Al-Chalabi MBChB PhD FRCP DipStat
MRC Centre for Neurodegeneration Research,
Institute of Psychiatry, King’s College London,
London, UK

Thomas D. Bird MD
VA Puget Sound Health Care System,
Departments of Neurology and Medical Genetics,
University of Washington,
Seattle, WA, USA

Vincenzo Bonifati MD PhD
Department of Clinical Genetics,
Erasmus Medical Center,
Rotterdam, the Netherlands

Alexis Brice MD
INSERM, UMR_S679 Neurologie and Thérapeutique Expérimentale,
UPMC Univ Paris 06, UMR_S679 and AP-HP,
Hôpital de la Salpêtrière,
Department of Genetics and Cytogenetics,
Paris, France

Kate Bushby MD MSc FRCP
Institute of Human Genetics,
International Centre for Life,
Newcastle upon Tyne, UK

John Collinge CBE MD FRCP FRS
National Prion Clinic and MRC Prion Unit,
Department of Neurodegenerative Disease,
UCL Institute of Neurology
and the National Hospital for Neurology and Neurosurgery, London, UK

David Craufurd MBBS MSc FRCPsych
Medical Genetics Research Group and Regional Genetic Service, St Mary’s Hospital,
Manchester, UK

Odile Dubourg MD PhD
Center of Reference for Neuromuscular Diseases,
Department of Neuropathology,
Hôpital Pitié-Salpêtrière,
Paris, France

Rosalie E. Ferner MD MRCP
Clinical Neuroscience,
Guy’s and St Thomas’ NHS Foundation Trust London
and King’s College London, London, UK

Sonia Gandhi MBBChir PhD MRCP
Department of Molecular Neuroscience,
UCL Institute of Neurology, London, UK

Mark Gardiner BA MD FRCP DCH
Department of Paediatrics and Child Health,
Royal Free and University College Medical School,
London, UK

Michael G. Hanna BSc MD FRCP
Department of Molecular Neuroscience and
MRC Centre for Neuromuscular Disease,
UCL Institute of Neurology, London, UK

John Hardy PhD MD(Hon) Umea FMedSci FRS
Department of Molecular Neuroscience and
Reta Lila Weston Laboratories,
UCL Institute of Neurology, London, UK

Peter S. Harper MA DM FRCP
Institute of Medical Genetics,
Cardiff University, Cardiff, UK

Dimitri M. Kullmann MA DPhil FRCP
Department of Clinical Epilepsy,
UCL Institute of Neurology, London, UK

Eric LeGuern MD PhD
INSERM, UMR_S679 Neurologie and Thérapeutique Expérimentale,
UPMC Univ Paris 06,
