# Table of Contents

Preface: page ix

1 The Bare Essentials
- Define the Variables to be Measured: 1
- Convert the Physiological Effect to a Voltage: 1
- Scale the Signal: 2
- Select a Unipolar or Bipolar Input Range: 2
- Choose Single-Ended or Differential Inputs: 2
- Choose the Sampling Rate and Anti-Aliasing Filters: 3
- Size of Data Files: 3
- Calibration: 4
- Data Analysis: 6

2 How a Data Acquisition System Works
- Analogue-to-Digital Converter: 7
- Range: 9
- Unipolar and Bipolar Mode: 13
- Multiplexing: 16
- Sample-and-Hold Circuit: 17
- Single-Ended and Differential Inputs: 19
- Computers: 20
- Software: 24
- Data Format and Storage Space: 24
- Digital-to-Analogue Converters: 28
- Digital Input and Output: 34
- Counter/Timer Inputs: 37
- Counter/Timer Outputs: 43
## Table of Contents

### 3 Important Concepts
- Sampling Rate: 46
- Decibels: 55
- Types of Low-Pass Filters: 64
- Oversampling: 66
- Preventing Aliasing: 67
- Finding the Maximum Frequency Present in a Signal: 68
- Digital-to-Analogue Conversion: 80

### 4 Connecting to the Real World with Transducers
- Temperature: 83
- Strain: 87
- Force: 92
- Acceleration: 94
- Displacement and Rotation: 95
- Pressure: 98
- Light: 100
- Isolation Amplifiers: 104
- Nonlinear Sensors and Linearization: 105

### 5 Data Manipulation
- Data Format: 111
- Statistics: 111
- Peak, Trough, and Zero-Crossing Detection: 116
- Resampling and Interpolation: 123
- Curve Fitting: 125
- Filters: 132
- Spectral Analysis and the Fast Fourier Transform: 143
- Integration: 160
- Differentiation: 162
- Correlation: 164
- Chaos and Nonlinear Analysis: 166
- Removing 50/60 Hz Interference: 169
- Two- and Three-Dimensional Signal Analysis: 172

### 6 Examples
- ECG Signal: 178
- Cardiac Output by Indicator Dilution: 186
- Spectral Edge from EEG Data: 191
- Nonlinear Curve Fitting to a Dose–Response Curve: 194
Contents vii

Heart Rate Variability 197
Equine Hoof Anatomy 202
Neurophysiological Recording 206

Appendix Suppliers of Data Acquisition/Analysis Hardware and Software and Electronic Components 223

Notes 229
