## Contents

- **List of contributors**
- **Foreword by Arthur Brown**
- **Preface by Robert Leeson**

### Part I  Bill Phillips: Some Memories and Reflections

1. **A.W.H. Phillips: An extraordinary life**  
   *Robert Leeson*  
   Page 3

2. **The versatile genius**  
   *James Meade*  
   Page 18

3. **To be his colleague was to be his friend**  
   *Henry Phelps Brown*  
   Page 20

4. **Phillips’ adaptive expectations formula**  
   *Phillip Cagan*  
   Page 22

5. **Economist – washing machine fixer**  
   *Elizabeth Johnson*  
   Page 23

6. **Playing around with some data**  
   *Ann S. Schwier*  
   Page 24

7. **The Festchrift**  
   *Brian Silverstone*  
   Page 26

### Part II  The Phillips Machine

8. **The origins of the machine in a personal context**  
   *Walter Newlyn*  
   Page 31

9. **The Phillips Machine as a ‘progressive’ model**  
   *David Vines*  
   Page 39
vi Contents

10 Mechanical models in economic dynamics  68
  A.W. Phillips

11 The history of the Phillips Machine  89
  Nicholas Barr

12 Early reactions to Mark I and II  115
  Graeme Dorrance

13 A superb explanatory device  118
  R.M. Goodwin

14 The Phillips Machine and the history of computing  120
  Doron Swade

Part III Dynamic Stabilisation
Optimal Control

15 The optimal control articles  130
  Adrian Pagan

16 Stabilisation policy in a closed economy  134
  A.W. Phillips

17 Stabilisation policy and the time-forms of lagged responses  169
  A.W. Phillips

18 Arnold Tustin’s The Mechanism of Economic Systems: a review  184
  A.W. Phillips

19 Michel Kalecki’s Theory of Economic Dynamics: An Essay on Cyclic and Long-Run Changes in the Capitalist Economy: a review  186
  A.W. Phillips

Growth

20 The growth articles  190
  A.R. Bergstrom

21 A simple model of employment, money and prices in a growing economy  195
  A.W. Phillips

Part IV Econometrics

The Published Papers

36 The Bill Phillips legacy of continuous time modelling and econometric model design
   \textit{Peter C.B. Phillips}\hfill 342

37 The published papers
   \textit{Peter C.B. Phillips}\hfill 348

38 The influence of A.W. Phillips on econometrics
   \textit{David F. Hendry and Grayham E. Mizon}\hfill 353

39 An appreciation of A.W. Phillips
   \textit{Lars P. Hansen and Thomas J. Sargent}\hfill 365

40 Some notes on the estimation of time-forms of reactions in interdependent dynamic systems
   \textit{A.W. Phillips}\hfill 370

41 Cybernetics and the regulation of economic systems
   \textit{A.W. Phillips}\hfill 385

42 The estimation of parameters in systems of stochastic differential equations
   \textit{A.W. Phillips}\hfill 395

43 Estimation, regulation and prediction in interdependent dynamic systems
   \textit{A.W. Phillips and M.H. Quenouille}\hfill 408

The Walras-Bowley Paper

44 The Walras–Bowley paper
   \textit{Adrian Pagan}\hfill 420

45 Estimation of systems of difference equations with moving average disturbances
   \textit{A.W. Phillips}\hfill 423

The Unpublished Papers

46 The estimation of continuous time models
   \textit{A.R. Bergstrom}\hfill 446
Contents

47 Estimation in continuous time series models with autocorrelated disturbances 449
A.W. Phillips

48 Efficient fitting of rational spectral density functions and transfer functions 451
A.W. Phillips

Phillips’ Foreshadowing of the Lucas Critique

49 The Lucas Critique: did Phillips make a comparable contribution? 460
Robin Court

50 Models for the control of economic fluctuations 468
A.W. Phillips

51 Statistical estimation for the purpose of economic regulation 475
A.W. Phillips

52 The last paper: a foreshadowing of the Lucas Critique? 479
A.W. Phillips
