The quest for evolutionary socialism is neither a conventional political history nor a traditional “historiography of political ideas,” but is an examination of past and present interactions between European social democratic politics and socialist political ideas. Since no study of Bernstein’s life and work has appeared since Peter Gay’s 1952 study, *The dilemma of democratic socialism*, Steger’s book is a timely response to the need for a new, comprehensive biography of the German “Father of Marxist Revisionism,” as it not only incorporates recent academic developments, but it also addresses current debates on the “end of socialism,” as a result of the collapse of Marxism-Leninism, the fall of the Berlin Wall, and the chronic ailments of European social democracy.

This study is set within the historical context of the *fin-de-siècle* European labor movement, and thus Steger argues that Bernstein’s contribution to socialist theory is directly relevant to the current process of rethinking the traditional project of the democratic left along more libertarian lines. Bernstein’s “evolutionary socialism,” interpreted as a quest for liberty, solidarity, and distributive justice, is still the most appropriate vehicle for the extension of political and economic democracy and the reconstruction of the sphere of civil society. As Steger stresses, the future of social democracy lies in its capacity to heed Bernstein’s call for critical self-reflection, theoretical renewal and reorientation toward the liberal ideals of the Enlightenment tradition.

Acknowledgments

The research and writing of this book would not have been possible without a large number of institutions and individuals to whom I feel greatly indebted. I am deeply grateful to the librarians of Rutgers University, Princeton University, University of Hawaii-Manoa, and Whitman College for extending to me the privilege of borrowing books. In addition, I have used the collections of the New York Public Library, Harvard University, University of Washington, the University of Munich, the University of Amsterdam, and the Universities of Vienna and Graz. Furthermore, I want to thank Dr. Wolfgang Maderthaner, Director of the Austrian Association for the History of the Austrian Labor Movement in Vienna; and Ms. Mieke Yzermans of the International Institute of Social History in Amsterdam, for allowing me to use the extensive archives of their respective institutions. In addition, the International Institute of Social History has graciously permitted me to quote from its *Bernstein Archive*.

My dear friend and teacher, Stephen Eric Bronner of Rutgers University, and his wife, Anne Burns, have been of immense help in all stages of this project; without Steve's erudite criticism and Anne's kind words of encouragement, this study would have never been written. I am also indebted to P. Dennis Bathory, W. Carey McWilliams, and William Solomon, who offered important comments. Terrell Carver, Henry Tudor, and John H. Kautsky read the entire typescript and offered invaluable suggestions; I owe them special acknowledgments. I also would like to thank my colleagues Michael Curtis, Gordon Schochet, Edward Rhodes, Lawrence Besserman, Scott McLean, Manfred Henningsen, Peter Manicas, Eldon Kenworthy, Philip Brick, Mary Hanna, and Timothy Kaufman-Osborn, for their general advice and support, and wish to extend my gratitude to Michael Forman, Walter Jimenez, Christine Kelly, Benjamin Peck, Susan Craig, Matt Reed, F. Peter Wagner, and Stuart MacNiven for offering me the benefit of their comments.

Richard Fisher, my editor at Cambridge University Press, deserves special recognition. His patience, attention to detail, and professional
