

INDEX

Indexed number refers to case number

- acute Respiratory Distress Syndrome (ARDS), 85
 adenoid cystic carcinoma, 24
 ankylosing spondylitis, 39
 anomalous pulmonary venous drainage, 44
 aortic aneurysm, dissecting, 12
 aortic arch, right-sided, 43
 aortic injury, traumatic disruption, 33
 asbestosis, 37, 97
 aspergilloma, 17
 aspergillosis, invasive, 82
 aspiration pneumonia, 25
 asthma, 24, 61
 azygous lobe, 7
- bilateral hilar adenopathy, 11
 Beck's triad, 20
 Boerhaave's syndrome, 71
 bronchiectasis, 34
 Bronchiolitis Obliterans Organizing Pneumonia (BOOP), 63
 bronchogenic cyst, 56
 broncholithiasis, 92
 bronchus intermedius, 64
 bulla, 80
- calcific pericarditis, 58
 calcified left ventricular aneurysm, 14
 carcinoid tumor, 66
 carcinomatous peritoneii, 84
 cardiac tamponade, 20
 cervical rib, 79
 Chilaiditi's sign, 6
 chronic calcific pericarditis, 58
 chronic eosinophilic pneumonia, 96
 chronic obstructive pulmonary disease (COPD), 19, 80
 collapsed left lower lobe, 69
 collapsed left lung, 28
 collapsed left upper lobe, 45
 collapsed right upper lobe, 30
 congestive heart failure, 4, 15, 21
- deep sulcus sign, 60
 dextrocardia, 70
 diaphragmatic hernia, 91
 diffuse panbronchiolitis (DPB), 81
- Eisenmenger's syndrome, 99
 elevated left hemidiaphragm, 76
 emphyema, 41
- esophageal cancer, 73
 eventration of diaphragm, 75
- fibrous dysplasia, 78
 foreign body, 5
 fractured first ribs, 94
 fractured ribs, 52
 fractured scapula, 93
- Golden's S sign, 30
 granuloma, 59
- hamartoma, 72
 hereditary hemorrhagic telangiectasia, 18
 hiatus hernia, 54
 human immunodeficiency virus (HIV), 23, 77, 86
- idiopathic pulmonary fibrosis (IPF), 53
- Kartagener's Syndrome, 70
- lateral decubitus chest radiograph, 21
 liver abscess, 3
 lobectomy, previous, 47
 lung abscess, 46, 95
 lung cancer, 20, 24, 35, 40, 62, 64, 68, 76
 lymphangitis carcinomatosa, 62
 lymphoma, 36, 65
- malpositioned central venous catheter, 26
 malpositioned nasogastric tube, 25
 malpositioned pulmonary artery catheter, 90
 mediastinal emphysema, 16
 mediastinal lipomatosis, 100
 mediastinal lymphadenopathy, 11, 36
 mediastinal mass, 65, 98
 mediastinitis, 71
 meliodosis, 22, 46
 mesothelioma, 42
 metastases to the lungs, 50
 metastases to the ribs, 29, 68
 miliary tuberculosis, 31
 mucoepidermoid cancer, 28
 mycetoma, 17
- nipple shadow, 51
- oligemic right lung, 66
 Osler Weber Rendu's disease, 18
- perforated peptic ulcer, 13
 pericardial calcification, 58

- pericardial cyst, 48
 pericardial effusion, 20
 pericardial fat pad, 49
 pleural calcification, 37, 97
 pleural effusion, 15, 41, 68, 84
 pleural lipoma, 88
Pneumocystis carinii pneumonia (PCP), 23, 86
 pneumonectomy, 27
 pneumonia, 1, 22
 pneumothorax, 2, 60, 86
 pneumothorax, tension, 60
 primary pulmonary hypertension, 32
 progressive massive fibrosis (PMF), 10
 pseudotumor due to congestive heart failure,
 15
 pulmonary arteriovenous malformation
 (pAVM), 18
 pulmonary edema, flash, 67
 pulmonary embolism, 38
 pulmonary tuberculosis, 8, 55, 77
 radiation fibrosis, 87
 retrosternal goiter, 74
 round atelectasis, 97
 sarcoidosis, 11
 Scimitar sign, 44
 septic emboli, 46
 sequestered lung, 83
 silicosis, 9, 10
 solitary pulmonary nodule (SPN), 35, 51, 59, 72
 split pleura sign, 41
 spring water cyst, 48
 subpulmonic effusion, 57
 Swyer-James-MacLeod's syndrome, 89
 thoracoplasty, 55
 thyroid goiter, 67, 74
 tracheal stenosis, 61
 Tracheopathia Osteochondroplastica, 61
 ventricular tachycardia, 14
 Westermark's sign, 38
