Whether responding to a tender from a potential client or pitching a new IT project to the Board, a well-written proposal can be the difference between success and failure. *IT Project Proposals Writing to Win* can help you to create high quality, persuasive proposals that will stand out from the crowd. The author explains how to determine the reader’s basis of decision and the writer’s unique selling points. It discusses the structuring of documents, the secrets behind persuasive writing, and the basic grammar and punctuation rules that will prevent writers from destroying a good argument through bad presentation. Case studies and numerous examples show how the techniques described can be used in real-life situations. The book also introduces an automated questionnaire allowing any IT proposal to be reviewed and rated. It is invaluable for IT managers, consultants and for anyone else producing internal or commercial proposals promoting software products or services.

**Paul Coombs** is an expert in bidding, costing and proposal-writing for IT projects, following 25 years of experience with the international systems house Logica CMG and the media organisation, Reuters. He has worked on mission-critical developments for EMI, London Underground, IBM, the BBC, British Airways, and for a large number of major financial institutions. He has developed winning proposal strategies for large fixed-price projects in industry sectors as diverse as finance, defence, government, media and communications. He currently works as an independent consultant, running courses in estimation, project-writing and the bid process as well as undertaking cost/benefit analyses and proposals for specific projects. He is the author of *IT Project Estimation: A Practical Guide to the Costing of Software*.

## Contents

### Chapter 1
**Introduction**
- Does good writing matter?  
  - 1  
- Where does it all go wrong?  
  - 3  
- The proposal lifecycle  
  - 5

### Chapter 2
**Establishing the strategy**
- The art of persuasion  
  - 7  
- Determining the BOD and USP  
  - 9  
- Knowing the reader  
  - 13  
- Choosing a strategy  
  - 14  
- The proposal lifecycle – reviewed  
  - 16

### Chapter 3
**Choosing the content**
- Content and structure  
  - 17  
- Typical proposal sections  
  - 18  
- The proposal lifecycle – reviewed  
  - 26

### Chapter 4
**Structuring the proposal**
- Document structure  
  - 28  
- Types of plan  
  - 30  
- Sections and paragraphs  
  - 35

Microsoft Word

I have made some specific references to the facilities offered by Microsoft Word because it is the package that many people use to prepare their proposals. If you use a different word processor then substitute its equivalent operations or facilities. Microsoft Word is the registered trademark of Microsoft Corporation.
