<i>A Note on the OSU Transboundary Freshwater Dispute Database</i>	xxv		
1 Background, trends, and concepts	1		
1.1 Conflict management, public participation, and water management	1		
1.2 Some trends pushing toward cooperation	3		
2 Water wars, water reality: Reframing the debate on transboundary water disputes, hydropolitics, and preventive hydrodiplomacy	9		
2.1 Why is the water war argument so compelling?	10		
2.2 Preventive diplomacy	28		
2.3 Reframing the debate: Water sharing and political vulnerability	29		
2.4 Politics and hydrocooperation	30		
3 Water conflict management: Theory and practice	33		
3.1 Water conflict management theory: Alternative dispute resolution and the flow of benefits	33		
3.2 ADR and water resources conflicts	35		
3.3 Diagnosing causes of conflict	37		
3.4 Generating value- and interest-based alternatives in water disputes	38		
3.5 Incentives and shared interests	39		
3.6 From flows to benefits: Economic criteria	41		
3.7 Water conflict management practice: Process and institutions	43		
		3.8 Building institutional capacity for conflict resolution	48
		4 Crafting institutions: Law, treaties, and shared benefits	50
		4.1 Disciplines and worldviews	50
		4.2 International institutions and declarations	50
		4.3 Developments in international transboundary water: Contributions from the international community	52
		4.4 International water treaties: Practice	61
		4.5 Relative hydrography versus chronology of use	70
		4.6 From allocating water to sharing baskets of benefits	74
		4.7 Lessons for the international community	78
		5 Public participation, institutional capacity, and river basin organizations for managing conflict	82
		5.1 Public participation in water resources	83
		5.2 Water institutions and conflict	86
		5.3 Practice of transboundary institution building	90
		6 Lessons learned: Patterns and issues	97
		6.1 Four stages in water conflict transformation	97
		6.2 Integration versus transaction costs: Transboundary management structures	106
		6.3 Lessons learned throughout the four stages	106
		7 Water conflict prevention and resolution: Where to from here?	116
		7.1 Why might the future look nothing like the past?	116
		7.2 What types of policy recommendations can we make?	118
		7.3 A new ethic for water management	121

x	CONTENTS
Appendices	
A 1997 convention and ILC draft rules on international groundwater	123
A.1 Convention on the law of the non-navigational uses of international watercourses. Adopted by the general assembly of the United Nations on 21 May 1997	123
A.2 Text of the draft articles on the law of transboundary aquifers adopted by the commission on the first reading	131
B River basin organizations	
<i>Jerome Delli Priscoli</i>	135
B.1 North America	135
B.2 Europe	146
B.3 Africa	151
B.4 Asia	155
B.5 Latin America	159
B.6 Australia	165
C Case studies of transboundary dispute resolution	
<i>Aaron T. Wolf and Joshua T. Newton</i>	169
C.1 Aral Sea	172
C.2 The environmental program for the Danube River	175
C.3 Ganges River controversy	181
C.4 Guaraní Aquifer	187
C.5 Indus water treaty	190
C.6 The International Joint Commission: Canada and the United States	196
C.7 Jordan River: Johnston negotiations, 1953–1955; Yarmuk mediations, 1980s	198
C.8 Kura–Araks basin	205
C.9 La Plata basin	207
C.10 Autonomous Binational authority of Lake Titicaca	211
C.11 Lesotho highlands water project	214
C.12 Mekong committee	216
C.13 Multilateral working group on water resources (Middle East)	223
C.14 The Nile waters agreement	231
C.15 Salween River	236
C.16 Organization for the Development of the Senegal River (OMVS)	239
C.17 Tigris–Euphrates basin	243
C.18 United States–Mexico shared aquifers	246
D International water pricing: An overview and historic and modern case studies	
<i>Kristin M. Anderson and Lisa J. Gaines</i>	249
D.1 The value of water: An overview of major issues	249
D.2 The Dublin Statement and United Nations Agenda 21	249
D.3 The many values of water	249
D.4 Globalization, privatization, and commodification of water	249
D.5 Complexities in the economic behavior of water	250
D.6 Water as a human right	250
D.7 Actual pricing of water	251
D.8 Full cost recovery	251
D.9 Conclusion	252
D.10 Case studies	252
E Treaties with groundwater provisions	
<i>Kyoko Matsumoto</i>	266
F Treaties with water quality provisions	
<i>Meredith A. Giordano</i>	274
G Treaties that delineate water allocations	
<i>Aaron T. Wolf</i>	308
<i>Bibliography</i>	319
<i>Author Index</i>	335
<i>Subject Index</i>	341
