Index by place name

- An Cumhann 51–70
Ardrossan harbour 10
- Barytes Mine 20, 85–96
Blackwaterfoot 10, 51, 114, 133, 173
Brodict 7, 10, 121, 166
Brodict Bay 133
Brodict Ferry Terminal 10
- Catacol 'cairn' 139–54
Catacol 10, 71, 139–54
Catacol Bay Hotel 139
Corrie 'caves' 101–5
Corrie 10, 33–49, 99–120
Corrie Hotel 33–49, 99, 101, 110
- Drumadoon, 'the Doon' 173–90
Drumadoon Point 173–90
- Firth of Clyde 122, 148–9
- Glen Rosa 121–38
Glen Sannox 17–31, 85–96, 155–72
Glen Tilt, Blair Atholl 158, 206
Glenrosa Water 124, 128, 130
Goatfell 128–9, 165
- Hutton's unconformity 141, 150, 157–8
- Judd's Dykes 51–70
- Kilbrannan Sound 122, 140
King's Cave 51, 55
Kinloch Hotel, Blackwaterfoot 173
Kintyre Peninsula 140, 148–9
- Loch Fyne 148–9
Loch Ranza 132, 134
Lochranza 10, 155, 158, 166
- Machrie 10, 51
Midland Valley of Scotland 157
- North Glen Sannox 155–72
North Sannox Burn 155–72
North Shore 113
North Thundergay 71
Northern Granite Mountains 17–31,
121–38, 155–72
- Pirnmill 10
- Rubha Airigh Bheirg 71–84
- Sannox Bay 10, 17, 85, 155
Sannox Burn 17–31, 85–96
Shiskine Golf Course 173
South Sannox 17, 85
String road 10, 121
- Tormore foreshore 51–70
Tormore forestry car park 51
Tourist Information Office, Brodict 10

Subject index

(see also Part 4)

- age-dating using fossils 146–50
 answers to the exercises 6
- baked margins 60–2, 174–87
 barytes mine, previous history of 86–7
 barytes, physical properties and
 occurrence in outcrop 86, 90
 bathymetry 147–9
- Catastrophism, Cuvier's theory of 99–120
 chilled margins 60–2, 174–87
 chronology of emplacement in
 intrusions 60–6, 176–87
 clastic sedimentary rocks 33–50
 cleavage in metamorphic rocks 72–6,
 143, 159, 164
 coastal geomorphology 24–6, 122–34,
 147–50
 compaction in sediments 112–13, 115
 composite igneous intrusions 51–70
 cross-cutting relationships 64–5, 174–87
 cross-sections, construction of 91–2,
 159–67, 176–85
- deformation phases 79–80
 drift (glacial) 122–34, 149–50
 dykes 51–70, 173–90
- Earth's internal heat, origin of ideas on
 107, 155–67
 eustatic sea-level change 122–34
 extrusive igneous rocks 105–7, 113–14
- field note-taking 51–70
 flow folding 55–7
 fluvial transport of clastic sediment 23–6
 folding 39–41, 71–84
 fossils
 life and death assemblages 103–4, 113
 their use to infer palaeo-environment
 35–6, 114
- glacial geomorphology 122–34, 147–50
 Global Warming 130–2
 graded bedding 167
- Hutton's unconformity 150, 156–8
 hydrothermal veining 76, 87–93
 hypotheses, testing of 99–120, 121–38,
 155–72
- Ice Age 122–3
 igneous rock classification 52–66, 174–76
 intrusive igneous rocks 51–70, 173–90
 isostatic rebound 132–3
- logging, sedimentary 107–11, 159–62
- magma chambers/mixing 174–87
 mapping
 easy 88–91, 141–50
 difficult 159–67, 176–87
 sketch 181
 metasedimentary rocks 71–84
 metamorphic textures in metasediments
 72–6, 143
 mining techniques and strategy 92–3
- Neptunism, Werner's theory of 156–8
- palaeo-environmental interpretation
 101–15
 palaeogeography of the world in the
 Permian 44
 pillow lavas 159–62, 166, 207
 plates, collision of 165
 Pleistocene Epoch 121–3
 Plutonism, Hutton's theory of 156–8
 processes, present day geological 17–32
- Quaternary Era 122–3
- raised beaches 122, 132–4

Subject index

- rock cycle, the two halves of 18–26, 72, 156–67
- rock record, potential formation of 26
- sedimentary bedding, form and structure of 35–44
- sills 51–70, 173–90
- sorting and maturity during transport 23–6
- stereonet, used to resolve folding episodes 76–80
- stratigraphic thickness versus time 111–13
- stratigraphy of Arran 11–12, 143–50
- subsidence due to tectonics 112–15, 122, 130–2
- time scale (relative), origins of 100–1
- transgressions, marine 132
- travel to and around Arran 10–11
- unconformities, disconformities and non-sequences 40–1, 101–4, 107–15, 156–67
- Uniformitarianism, Lyell's theory of 100–15
- weathering in mountains 19–23
- xenoliths and xenocrysts 174–87
- younging direction 163–7
