- Allocation of organs 442–65, 483
 access to waiting lists 452–6
 exclusion criteria 449–56; ability to pay 18, 445; age 463; designated recipients 18, 450–2; non-residents 452–4; prior fault 454–5; social worth 462; willingness to donate (free riders) 455–6
 judicial review 446–9, 456
 links to procurement 18, 444–6, 455
 micro allocation 457–64
 principles of allocation: autonomy 18; justice 458–64; medical need 459–61; utility 18, 457–64; waiting time 459–61
 property issues: centre-based distribution 458; local ownership of organs 444, 464–5
see also Body as property
- Altruism 9–10, 226–7, 233–5, 251–3, 314, 324–8, 330–2, 394–7, 475, 478–9
- Anencephalics 11, 61–7, 173–7, 181–4, 187, 204–5, 477
- Artificial organs 7
- Autonomy 15, 18, 38, 109–11, 145–7, 151–2, 154–8, 227, 233–50, 259–61, 389–90, 467–71
- Body as property 9, 16, 33, 84–5, 122–44, 236–42, 386–8, 444, 464–5, 469
 abandonment 239–40
 autopsy laws 84
 bailment 33, 140–1, 144
 constitutional protection 127–30
 consumer protection 130
 future property 132
 investment of labour (sweat/equity) 125, 136–8
 person lawfully in possession of the body 134–44
 possessory interests 122–3, 125–6, 134–6, 138–44
 proprietary interests 122–35, 143–4
 quasi-property 9, 126–7
 relationship to commerce 9
res nullius 9, 123–6, 142
- rights of disposal 134–40
scintilla temporis 132
 theft 33, 130
 trusts 141–2, 144
- Brain death 8, 25–6, 40–5, 51–82
 brain-stem death 59, 71–2
 clinical tests for 46, 54, 69
 critique of 67–72, 81
 endorsement by the medical community 43–5, 51–3, 81
 evolution of 43–5
 importance to cadaveric procurement 25–7
 legislative provisions 53–5
 relationship to traditional notions of death 26, 41, 73–80
 whole-brain death 59, 71–2
- Cadaveric organ transplantation 22–213
 autonomy 467–71 *see also* Autonomy
 communitarianism 111, 119, 120, 150, 228, 466, 470
 consequentialism 32
 contracting-in *see* Consent
 contracting-out *see* Consent
 dead donor rule *see* Dead donor rule
 death *see* Death
 doctrine of easy rescue 149–51
 donor cards 31, 98, 211
 duty to rescue 83–4
 express consent *see* Consent, express
 harm to the corpse 33, 145–9, 154
 individualism 111, 119–20, 228, 233–4
in situ perfusion/cooling *see* maintenance
 and preservation of organs
 intubation 147
 legal remedies 37–9, 136–7, 142, 168–9
 legislative regimes 88–105
 maintenance and preservation of organs
see Maintenance and preservation of organs
 mandated choice 155–6
 mistreatment of the corpse 33–4, 135, 142, 168–9

- Cadaveric organ transplantation (*cont.*)
 mutilation of the corpse 135, 168–9
 non-heart-beating donors *see* Non-heart-beating donors
 notifying relatives 99–101, 163–4
 objections 31, 85, 94–8, 113–19, 127–9, 157, 163–6
 opting-in *see* Consent, express
 opting-out *see* Consent, presumed
 organisational factors 28–30
 presumed consent *see* Consent, presumed
 prisoners 83
 procurement regimes 36–8, 88–102
 procurement trends 24, 27, 40–1, 87–91, 103–5
 property interests *see* Body as property
 registers 96–8
 reimbursement of institutions 29
 relatives/next of kin 29, 31, 38–9, 92–105, 113–19, 121, 126–30, 143, 151–4, 163–6
 religious perspectives 8, 114, 154
 required request 30, 102–5, 156–7
 routine inquiry 30, 102–5, 156–7
 routine (mandatory) removal 15, 83–4, 149–50, 466–7
 surviving interests 145–9
 symbolism 34–5, 148
 tissue matching 24
 transplant co-ordinators 29, 89
 treatment prior to death *see* Treatment prior to death
 ventilation 26, 43, 62
- Cloning 7
- Commerce 367–417, 478–80
 advertising 368–9
 alienability 386–8
 allocation issues 371, 383–4
 altruism 385–6, 394–7, 478–9
 autonomy 389–90
 clinician incentives 374, 410
 coercion 391
 commodification 394–5
 death benefits 371–2
 effects on supply 412–16
 expenses 378–9, 406–8
 exploitation 391–2
 funeral expenses 371–2
 futures markets 370–4, 417
 harm to vendors 390–1
 iatrogenic disease 399–402
 incentives 374, 405–10
 inconvenience allowance 379–80, 406–9
 intermediaries 393, 398
 intuition 381–3, 481
 legislative provisions 376–8
 libertarianism 384–6
 medical expenses 371–2
 official responses 35–6
 organ markets 370–4
 organ tourism 8, 369–70
 paternalism 390
 property rights 386–8 *see* Body as property
 rampant commercialism 393, 398
 rewarded gifting 371, 396–9, 480
 slippery slope concerns 402–4
 spot markets 413
 trafficking in humans 402–4
 utility 384–5, 414
 voluntariness 391
- Consent 225, 245, 269–313
 disclosure of information 271–81; battery 271, 273, 435–6; content 271–8; depth 273–7; exceptions to duty 274; form 280–1, 283; low-balling 285–6; sources of 278–9; standards 273–5; timing 284–9; understanding 272, 279–81
 express 15, 37, 85–7, 92–3, 95–102, 105–20, 162–6
 formal aspects 270–1
 myth of informed consent 270, 285; incompleteness of data 281–3; instantaneous decisionmaking 283–7; postponement of decisionmaking 286; uncertainty of risks 281–3
 presumed 15–16, 37, 84–102, 105–20, 127–30, 151, 162–6, 467–70
 voluntariness 269–71, 289–313, 471; ability to withdraw 303–4; ambivalence *see* dissonance *below*; choice 290–1, 294, 310; circumstances 312; coercion 269, 291, 295, 301, 309; commerce 290; control 290–1; dissonance 298–301, 304–6; effects of institutionalisation 290, 306–10; exploitation 311–13; free will 292–3; inducements 311–12; offers 292, 308, 310–12; pressures 295–8, 300–3, 305–6; prisoners 290, 306–10; protocols 302; regret *see* dissonance *above*; relationships 294–301; soliciting donors 305; tailoring standards 294, 302; threats 292, 295, 308, 310–11; undue influence 291–4, 297
- Dead donor rule 40, 65, 172, 180–2, 476–7
- Death 40–82
 anencephalics *see* Anencephalics
 brain death *see* Brain death
 classification 45
 cultural factors 41, 48
 dead donor rule *see* Dead donor rule
 higher brain death 41, 59, 61–5
 irreversibility 72, 76–8
 law reform 78–82
 meaning of 45–9, 57–60, 71–2, 80–2
 non-heart-beating donors *see* Non-heart-beating donors
 permanent vegetative state 61–3, 65
