Subject index

action readiness, 41–43
affect, discrete classes of activators, 161–162
Albert Ellis
analysis of autobiography, 157–160
development of, 158–160
Anne Frank
analysis of diary, 155–157
development of, 155–157
appraisal, 44, 58
levels of, 45
primary and secondary, 44
self as object of, 52–53
assessment
of change over time, 227–228
of self and identity as self-organizing system, 226–230
of the system "at work," 226–227
attractors, 82–83
in identity development, 220–221
authorship, 102–107
a definition of, 95
in parent–infant communication, 104
autobiographical memories, 118–119
becoming and being, 99–102
bifurcations, 84
Cardinal Sins, 174–175
Cartesian split, 138
case study research versus averaging across cases, 154, 173–174
change-based emotions, 162, 164
change emotions, 111–112
chaos, 83
cognition–emotion interactions, 182–190
cognition–emotion recursions, 182–190
cognitions, implicit versus explicit, 62
Cognitive Experiential Self-Theory (CEST), 58–63
experiential and rational system, 59, 60
cognitive generativity, 219
color model of emotion, 162
competence, 56
concerns, 54–56, 176
and self, 55
conflict
between I-positions, 144
in development, 169
in personality development, 142–143
conscious versus non-conscious processing, 62
consistency and blocked goals, 188–189, 194–195
context
as system, 224–225
as ordered effect, 224
as random influence, 224
in a dynamic systems approach, 223–224
coupling of elements, 179
development, a dynamic systems perspective, 181–182
developmental processes
levels of analysis, 169–170
time scales, 173
diachronous perspective, 227
dialectical developmental psychology, 143
dialogical relationships, 124–125
dialogues, 125
imaginical, 125
dynamic systems
a definition of, 64
a mathematical non-linear model, 72
a qualitative approach, 86–88
a quantitative approach, 85–86
and environment, 68
and geometric representations, 67–68
and self-organization, 78–81
as structure of interactions, 69
change across time, 81–82
dynamic systems (cont.)
  mathematical analysis versus modeling, 73–78
  dynamic systems model of emotional processes, 163–168
emergence of continuity, 179–181
emotional dissonance, 117
emotional experience, 45–47, 93
  and sense of self, 45–47
  as non-linear process, 153
  as iterative process, 153
  in adolescence, 152–153
emotional expression in mother–child interactions, 152
emotional interpretation (EI), 220–221
  neurobiology of, 186–187
  real time, 184–186
  recurrent, 184–186
emotional processes
  computer models of, 163–168
  microlevel versus semantic meaning-making level, 171
emotional traits, 153–154
emotions
  a definition of, 41
  a functional perspective, 41–43
  and awareness of self, 40, 45–47
  and cognitions, 60
  and competence, 56
  and concerns, 54–56
  and facial expressions, 92
  and self-representations, 43–44
  and subjectivity, 40
  and the self as subject, 47–51
  appraisal of (significance), 53
  as microprocesses, 161–162
  as organizer of identity, 155, 160–161
  as subject–object relationship, 41
  conceptual confusions, 39
  duration of, 163–164
  modeling of individual differences, 166–168
  self as object of, 51–53
  standards of evaluation, 116
  the evaluation of, 116
emotions narratives in western culture, 112
events, a definition of, 98
explicit identity, 190
  a definition of, 218
  consistency of, 192–195
feedback loops, 179
frames
  definition of, 102
nonverbal, 104
Gedanken experiment, 164
habituation, 219
identity
  a definition of, 177
  and autobiographical consistency, 118–119
  as autobiography, 191
  as beginning in infancy, 108
  as cognitive structure, 177
  as dialogue, 193
  as embodied being, 117
  implicit and explicit, 178
  stability and change, 177–178
  identity change, 195–197, 220
  self-organizing processes, 196–197
  time scales, 196–197
identity crisis, 175
identity development, as dialectical process, 145–149
implicit identity, a definition of, 217
I-positions, 127, 132–133, 137–139
level-based emotions, 162, 164
logistic map, 83
Lotka–Volterra equations, 76
methods of analysis, 175–176
moods, 188–189
multivoicedness of the self, 126
narrative, 102–103, 123, 191–192
narrative emotions, 103–111
narrative identity, a definition of, 109
O-motive (contact and union with others), 129, 132–133
orientation, as most basic form of self, 96
orientational emotions, 111
personal identity, a definition of, 178
personality, a definition of, 178
phase shift, 170
phase transitions, 179, 220
Phenomenological–Dialectical Personality Model, 144–145
polyphonic novel, 124
principles of self-organization recursion, coupling and complementarities, 181
processes, 218–223
bottom-up and top-down, 221–222
Subject index

in implicit and explicit identity, 218–223
verbal psychological models, 218–223
formal mathematical models, 218–223
psychodrama, 145
psychological theories
as verbal narratives, 91
as formal mathematical models, 91
reference emotions, 108–109, 111
relational perspective, 94–95
roles, development of, 154
self
a definition of, 34
and emotions, 60–61, 139–140
as object in emotions, 51–53
as self-reflecting agency, 121
as set of concerns, 55
as subject in emotions, 47, 51
cultural construction of, 174–175
development in infancy and childhood, 108
executive, 58–60
meta-affective knowledge, 170
multivoiced, 127
stability and change, 61–62
terminological issues, 31, 34
self and emotion, a relational perspective, 94–95
self and identity
and self-organization, 4–5
as cognitive structures, 1–2
as self-assembled system, 214–216
components and emerging phenomena, 90, 214–216
definition as a system, 89–90
from a dynamic systems perspective, 206
fundamental questions, 3, 59–63
history of thinking about, 3
implications of a dynamic systems approach, 213
new perspectives, 4
terminological issues, 6
the issue of quantification, 91
self-as-known, 121
self-as-known, 121
self-awareness, the spectrum of, 100–101
self-concept
a definition of, 11
history of the concept, 10–11
measurement methods, 30–31
short-term variability, 25–26
life-span developmental change, 24–25
stability and variability, 23–29
terminological issues, 31
the dynamic interaction with context, 22–23
the role of context, 18–23, 35–36
the role of emotions, 11–18, 35
self-confrontation method, 130–131
self-esteem
a definition of, 11
stability and fluctuations, 26–28
self-experience, and time scales, 95, 110–112
self-evaluation and emotions, 2
self-investigation, 131, 136–137
self-organization, 5, 78–81, 178–181
a definition of, 79
and continuity, 178–181
self-organization of personality
the principle of accrual and crystallization, 187–189
self-perpetuation, 178–181
self-related concepts, a framework, 36–38
time scales, 215, 219–220
and levels of organization, 215
in emotional self-organization, 184–187
in the modeling of developmental processes, 173
time series analysis, 175–176
transcendental self, 47
empirical contents, 47–48
uniqueness of self, 97
valuation theory, 127–129
generalization (G), 129
idealization (I), 129
valuations, 128
organization and reorganization, 130–131
working context, 21
working self-concept, 20–21
