Nietzsche's On the Genealogy of Morality (1887) is a forceful, perplexing, important book, radical in its own time and profoundly influential ever since. This introductory textbook offers a comprehensive, close reading of the entire work, with a section-by-section analysis that also aims to show how the Genealogy holds together as an integrated whole. The Genealogy is helpfully situated within Nietzsche's wider philosophy, and occasional interludes examine supplementary topics that further enhance the reader's understanding of the text. Two chapters examine how the Genealogy relates to standard questions in moral and political philosophy. Written in a clear, accessible style, this book will appeal to students at every level coming to read the Genealogy for the first time, and a wider range of readers will also benefit from nuanced interpretations of controversial elements in Nietzsche's work.

Lawrence J. Hatab is Louis I. Jaffe Professor of Philosophy at Old Dominion University.
This new series offers introductory textbooks on what are considered to be the most important texts of Western philosophy. Each book guides the reader through the main themes and arguments of the work in question, while also paying attention to its historical context and its philosophical legacy. No philosophical background knowledge is assumed, and the books will be well suited to introductory university-level courses.

Titles published in the series:

**Descartes’s Meditations** by Catherine Wilson  
**Wittgenstein’s Philosophical Investigations** by David G. Stern

Acknowledgments

I would like to thank Hilary Gaskin of Cambridge University Press for initiating this project and mentoring it along the way. Thanks also to the reviewers for many helpful suggestions. I am indebted to Old Dominion University for a leave in Fall 2007, which enabled me to complete the manuscript in a timely manner. Special thanks to Deborah Bond, whose mastery of our office allowed me space to do this work while being Chair of the department. Above all, I am grateful to my wife, Chelsy, who knows all too well how strange “we knowers” are. Finally, I want to dedicate this book to my students.
Abbreviations of Nietzsche’s works

Cited numbers refer to text sections, except in the case of KSA where volume and page numbers are given. I have occasionally modified published translations.

BT  The Birth of Tragedy, in Basic Writings.

CW  The Case of Wagner, in Basic Writings.

EH  Ecce Homo, in Basic Writings. The four main chapters will be indicated by roman numerals, with book titles in Chapter III abbreviated accordingly.

TI  Twilight of the Idols, in The Portable Nietzsche. The chapters will be numbered in sequence by arabic numerals.
