Note: Page numbers in **bold** refer to Tables; those in *italics* refer to Figures

- adapted institutional framework, network industries 331–4
- agency costs, in franchising 238
- agency theory xxxvi, 8
  - and agricultural cooperatives 303–4
- agents xlvii
  - action-choice rules 453
  - government as 368
  - rational 42–3
  - role of xxxix
    - see also* principal–agent game
- Agricultural Engineers Association Ltd (AEA) 174
- agriculture
  - agro-industrialization 304
  - contracting and organization in xxxiii, 292–3
  - contracts and vertical integration 137, 296–300
  - and decision-making li
  - family-ownership 299, 300
  - governance structures 140
  - nature of contracting 292
  - network organizations 300–4
  - policy on 300
  - small-number bargaining 299–300
  - southern United States 115, 118
  - water demands 272, 273, 276
    - see also* food
- alliances xxx, 209–15
  - benefits from 225–9
  - choice of partner 219–20
  - co-specialization 211, 214
  - collaboration and competition 213–15, 220, 222, 224
  - context and design choice 223–4
  - contract provisions 229–31
  - decisions and outcomes 227–8, 228–9
  - event studies 226–7
  - forms of 212–13
  - as hybrid governance 210, 217
  - joint venture 212, 218
  - learning 215
  - management of 229–31
  - managing networks 231–3
  - market-access 210, 213, 220
  - motives 210–12
  - performance effects 225
  - ranking of forms 221
  - role of NIE 224–33
  - seven questions for 215
  - small-number bargaining 299–300
  - and social networks 232–3
  - strategic networks 213
  - structure design 220–3
  - survey and case-based studies 225–6
  - transaction cost theory of 215–24
  - vertical (buyer–supplier) 213
    - within market–hierarchy continuum 217
- alternative market governance 13
  - costs of 15, 16
  - debt and equity 196
- anonymous exchange 74–5, 94
- antitrust xxxi, 249–50
  - see also* cartels
- arbitration 218
- Argentina
  - case study 112–15, 120
  - constitution 114
  - economic growth 114, 114
  - history and institutions 112–13
  - interest groups 325, 326
  - judiciary 114
- Arizona, water trades 281
- asset specificity xxxi, 138–9, 187, 217
  - and contract agriculture 298
  - network industries 344
- asset value, and property rights 105, 106, 110
- assets
  - co-specialized 186
  - creation of 436
  - firms as collection of 29–32, 32–4
    - see also* privatization

## 544 Index

- asymmetric information 166–8, 167, 168, 169, 242, 431, 444
- auction theory
  - discriminatory price 156
  - electricity markets 154
  - oral double auctions 153
- authorised transactions (legal orderings) 417, 419, 420
- authoritative transactions (private ordering) 417, 420, 421
- automobiles, production process 255
- aviation, deregulation 345
  
- barter 399
- behavior, assumptions about 81
- behavioral economics xxvii, 18
- beliefs
  - and economic policy 112
  - shared 453
  - see also* cultural beliefs; emotions
- bilateral adaptability 218
- bounded rationality 14, 18, 25, 85
  - and contract law 49
  - in experimental economics 145–8
  - and franchising contracts 248
  - incomplete contracts 46, 430–2
  - learning experiments 146–8
  - Posner's view of 416
  - and theory of firm 430–2, 433
- Bourgeois strategy, in Hawk–Dove game 460
- brand names 235, 241
- Brazil
  - 1988 Constitution 111
  - agriculture 109, 110
  - Chamber of Deputies 324
  - enforcement of property rights 109
  - land exchanges 109
  - land tenure and property rights (case study) 105–12, 120
  - land values 110
  - Landless Peasants Movement 111
  - Pastoral Land Commission 109
  - surveys 107
  - titles to land 108
- breach remedy 52–7
  - cooperation and 59
  - expectation damages 53, 54
  - and interpretation rules 55–7
  - optimal damages 53–5
  - reliance damages 53, 54
  - and specific performance 53, 54
- British Gas, privatization 337
- broadcasting industries, property rights 339
  
- Buchanan, James M. 363
- business strategy, research 183–4
  
- Calabresi, Guido 412
  - theory of liability 413
- California, water trades 281
- capabilities, historically constructed 34–6
- capital, and development of institutions 68, 69
- capital constraint
  - and franchising 237
  - human capital scarcity 238
- carbon emissions, and pollution rights 339
- Carnegie School of economics 19
- cartels 173–4
- case studies xxvii, 103–5
  - as “analytical narratives” 103
  - game theory 175–9
  - to isolate impact of theory 103
  - lessons from 119–21
  - to make comparisons 104
- catholic church, institutional inefficiency 461
- causal relationships xlvi, xlv
- Central and Eastern Europe (CEE), institutional change 79, 401
- centralization 361
  - in federal states 384
  - and “second best” governance structures 356
- certification agencies, and imperfect information 169
- Chandler, A., *Strategy and Structure* 194
- cheating
  - detection of 91–2
  - deterrent to 170, 171, 177–9
  - see also* cartels
- Chicago school
  - Law and Economics theory 409, 412–13
  - and New Haven School 413–14
  - second wave 414
- Chicken Game 449
- China 390
  - Banking Laws 403
  - network trading relations (*Guanxi*) 397
  - township-village-enterprises 394–5
- civil code, and contract law 49, 60
- Coase, Ronald xxxix
  - and market pricing 331
  - on nature of the firm xxv, 23, 412
  - and Posner 415
  - on resource allocation 123
  - theory of the firm 426–30
  - use of narrative 104
- Coase's Theorem 411, 413, 24
  - and efficiency principle 447

  - ordinary least squares (OLS) 123, 130
  - and policy-making 1
  - variables 128
- economic organization xxviii
  - and capabilities 435, 436
  - comparative xxx
  - discriminating alignment hypothesis 139–40
  - and knowledge-based view of firm 435–6
  - in theory of firm 428
- economic performance 3
  - effect of judicial independence on 379
  - estimation of 188
  - and property rights 105
  - role of institutions 11, 68, 69
  - and shift parameters 191
  - theory of 68
- economic policy
  - alternatives 5
  - privatization and deregulation 19
  - role of beliefs 112
  - role of interest groups 307–8
  - see also* policy-making
- economics
  - behavioral xxvii, 18
  - “new” fields of 4
- economies of scale, measurement of 2
- efficiency
  - constrained 450
  - institutional lv, 440–1
  - and transaction costs 446
  - variable 446
- efficient breach, doctrine of 53, 54
- electoral rules 372–5
  - ballot structure 373
  - district size 373
  - economic effects of 373
  - and federalism 374
  - franchise extensions 374
  - majority rule 372
  - proportional representation 372
- electricity
  - deregulation 345, 348
  - imperfect modularity in 350–2
  - organization of transmission 350, 350
  - transmission rights 339
- embeddedness
  - concept of xxxv, 7
  - and economic organization 436
  - of institutions 402
- emotional commitment 90–1
- emotions
  - guilt and shame 96
  - institutional recruitment of 95
  - separated from reason 85, 90
- enforcement
  - capabilities 39
  - of contracts 38, 39, 48, 51–2, 400
  - costs and benefits 60
  - and decision rules 51
  - first party 96
  - rules of 51, 52
  - second party 97
  - self-enforcement 244–5, 248, 450
  - third party 97
- enforcement institutions 59–64, 175–7
  - design improvements 61–2
  - judiciary 59–60
  - self-enforcement 62–4
  - specialization 60–1
- enforcement mechanisms 77, 400
- institutions as 96
- England
  - development of institutions 71
  - taxation 72
- Ensminger, Jean, *Making a Market* 79
- entrepreneurs
  - bounded rationality 25
  - role of lvi
- entrepreneurship 437–9
  - concepts of 437–8
  - and theory of firm 438
- environment
  - in experimental economics 143
  - and uncertainty 262
