Cambridge University Press has no responsibility for the persistence or
accuracy of URLs for external or third-party internet websites referred to
in this publication, and does not guarantee that any content on such
websites is, or will remain, accurate or appropriate.

Every effort has been made in preparing this publication to provide
accurate and up-to-date information which is in accord with accepted
standards and practice at the time of publication. Although case histories
are drawn from actual cases, every effort has been made to disguise the
identities of the individuals involved. Nevertheless, the authors, editors
and publishers can make no warranties that the information contained
herein is totally free from error, not least because clinical standards are
constantly changing through research and regulation. The authors, editors
and publishers therefore disclaim all liability for direct or consequential
damages resulting from the use of material contained in this publication.
Readers are strongly advised to pay careful attention to information
provided by the manufacturer of any drugs or equipment that they
plan to use.
