   2 it’s not a particularly big room
   3 I’ve got all my favourite things there
   4 but there just isn’t any space there

Listening Part 4

1 Read these instructions.

   • You will hear a conversation between a girl, Zoe, and a boy, Lucas, about daily habits in different countries.
   • Decide if each sentence 1–5 is correct or incorrect.
   • If it is correct, put a tick (✓) in the box under A for YES. If it is not correct, put a tick (✗) in the box under B for NO.
Before you listen, look at the underlined part of each sentence 1–5 and think of other expressions that mean the same, or the opposite.

A B

YES NO

1 Lucas says that everywhere closes early in his town.

2 Lucas and Zoe agree that taxis are too expensive.

3 Zoe believes that Lucas’s town can be dangerous at night.

4 Zoe says people in the north of Europe get up earlier than those in the south.

5 Lucas thinks it is a good idea to sleep for a short time after lunch.

Now listen to the conversation and tick (✓) the boxes.

Prepositions of time

Zoe says at six o’clock and in the evening. PET candidates often make mistakes with prepositions of time. Circle the correct option in italics in sentences 1–5.

1 The weather is cold in / at night.

2 School starts at / in 8 o’clock on / in the morning.

3 We got there at / on Friday evening.

4 I’ll see you on / at 4 o’clock.

5 His birthday is on / in July.

With a partner, put these expressions in the correct columns. Then think of more expressions to add to each column.

… the weekend … the morning … summer … April 24 … 2010 … the holidays … half past two … bedtime … Saturdays

Discuss these questions about the recording with your partner. Use expressions from Exercise 4.

1 Why do you think different parts of the world often have different daily routines?

2 Which of the daily routines you heard about is more like yours? In what ways?

3 Which do you think is better? Why?

Reading  Part 5

1 Work in small groups and answer these questions.
- In what ways are the homes in the pictures different from ordinary homes?
- What are the advantages and disadvantages of living in each?
- Which would you like to live in? Why?

2 Quickly read the text at the top of page 11, without filling in the gaps, and answer these questions.
- What kind of text (e.g. story, article) is it?
- What is the text about?
- Which of the pictures on the right shows this building?
- Which parts of it are the *sails* and the *balcony*?
- Which five of the points below are in the text?

1 The family built a windmill and they now live in it.
2 The Wraysbury windmill is four centuries old.
3 The windmill has the same kind of rooms as a house.
4 Living in a windmill is different from living in a house.
5 There are sometimes fires in the windmill.
6 The windmill has a fire exit.
7 The windmill will make its own power.
8 They used material from abroad to build the windmill.
Teenager Charlie Larcombe lives in an amazing home: a wooden windmill. His parents built the windmill in the pretty English village of Wraysbury, basing their design on a 400-year-old mill in the same area.

Inside, there are five levels. The ground floor is the largest, containing the living room, dining room and kitchen. Upstairs, the first and second floors have bedrooms, a tiny office and the bathroom. The Larcombes use the third floor for storing things, and the fourth, at the top of the mill, is the part that looks like a boat and holds the sails.

Living in a windmill brings a change to normal life. The family found the shape of their new home a little strange at first. All the rooms are round, so there are no corners, and the ceilings seem quite small compared to the floors.

It has central heating and it’s very cosy, but fire is a danger because it is made of wood. There is a water system in each ceiling, so if there is a fire, the people inside can flood every level of the mill in 8 seconds. Also, the balcony around the outside of the mill provides an escape route from the upper floors.

The Larcombes used local materials to build the windmill, including pieces from old cottages and farm buildings in the nearby area. The one last job is to complete the 8-metre long sails. They hope to use wind energy to create all the electricity the mill needs – and perhaps also enough for ten other houses in the village.

We often believe that living in a cave is from the distant past, the days of cavemen and cavewomen, but nowadays a of people are buying cave homes. The climate is changing and temperatures around the world are , but inside a cave it remains cool, even in summer.

I am sitting in a cave home in Cappadocia, one of the hottest parts of Turkey, three o’clock on a July afternoon. Outside it reaches 35 degrees almost day, but in here it is only 18. It never falls much below that, even during the coldest months.

Modern cave homes like this often have a phone, satellite TV and an Internet, and they are very comfortable. The bedrooms are very quiet, dark and cool, people love sleeping in them. And, they say, it’s easy to make more for yourself. You just dig a bigger room!
Read the text on page 11 about living in caves again and choose the correct word for each space, A, B, C or D. Use the questions in italics to help you.

Discuss these questions in pairs.

- Would you like to live in a cave home? Why (not)?
- Which other unusual places to live do you know of?

**Grammar**

**Present simple and present continuous; state verbs**

1. Match extracts 1–4 from the text with uses a–d of the present simple and present continuous.

   1. I am sitting in a cave
   2. the climate is changing
   3. it remains cool, even in summer
   4. it reaches 35 degrees almost every day

   a. it's always true
   b. it's happening now
   c. it happens regularly
   d. it's in progress

2. Complete the email with the correct form of the verbs in brackets. Use the present simple or the present continuous.

   Hi David,
   Bye for now,
   Pamela

Verbs that describe states are not normally used in continuous forms:

- We often believe that living in a cave … **not we are often believing** inside a cave it remains cool … **not it is remaining**

3. Which of these are state verbs?

   belong  change  consist  contain  dream  exist  fill  forget
   prefer  relax  remember  seem  suppose  understand

   Which word means 'empty', on and above the ground?
Ask your partner questions using state verbs and note down their answers.

Do you belong to a youth club? Do you ever forget important things?

Now work with a different partner. Ask questions about their first partner.

Does she prefer weekdays or weekends? (Answer: She prefers weekends.)

Make questions using the present simple or the present continuous, adding and changing words where necessary. Then answer the questions in full sentences.

1. what / ‘state verb’ / mean?
   State verbs aren’t usually used in continuous forms.

2. you / prefer / to get up / early or late?
3. anybody at your house / watch / TV / at the moment?
4. what colour clothes / you / wear / today?
5. which things / in your house / belong / to you?
6. what / you / sometimes / forget / to do / in the morning?

Think of a close friend. Tell your partner these things about them:

- facts, e.g. She lives in …, she belongs to …
- things they often do, e.g. He often plays …
- something they’re doing over a period of time, e.g. She’s learning Spanish.
- what you think they’re doing right now, e.g. He’s walking home.

The words in the box are all countable nouns, but some words in the home are uncountable, e.g. heating, air-conditioning. PET candidates often make mistakes with these. Choose the correct option in italics in this sentence, then check your answer with the extract from the Cambridge Learner’s Dictionary.

I am looking for new furniture / furnitures for my bedroom.

| furniture  | noun [U]  | objects such as chairs, tables, and beds that you put into a room or building antique furniture |
| Common Learner Error | furniture  | Remember you cannot make furniture plural. Do not say ‘furnitures’. |
| I want to buy some new furniture for my bedroom. |

Look at the extract again and answer the questions.

- Which symbol tells you the noun is uncountable?
- What do you think the symbol is for a countable noun?
