## Subject index

- Acartia* 143  
*Acetabularia* 27, 182, 183, 201, 206  
 Actograph 22, 23, 47, 102, 146,  
 Plate3, Plate11, Plate12  
 Action potential 184, 194–196  
 Adaptation to environmental cycles  
 39, 43, 44, 181, 182  
 Aggregation rhythm 144, 207  
*Amphidinium herdmaniae* 37  
 Annual breeding in fish 130–132(see  
 also *Fundulus* and *Leuresthes*)  
 Anomalistic month 11  
*Aplysia* 194, 202  
*Arenicola marina* 121, 122  
 Artificially reared crabs 27, 28
- Balanus balanoides* 143  
 Beat effect of circadian and circatidal  
 rhythms 105, 200  
 Benthopelagic coupling 137  
 Big bang 89  
 Big splash 89  
 Bioluminescence (see Luminescence  
 rhythms)  
 Biorhythms: adaptive significance of  
 87, 120, 181  
 “Biorhythm Theory” 6, 7  
 Blood sugar concentration rhythm  
 184  
*Bullia rhodostomata* 81
- Calanus* 143  
*Calanus finmarchicus* 139  
 Calendar-clock 124, 131  
*Callinectes sapidus* 158, 159  
*Canavalia* 4  
*Cancer pagurus* 169, 172–176  
 Carbon sink 137  
*Carcinus maenas* 20, 22, 27, 30, 46, 47,  
 55, 62, 81, 82, 107, 145, 148,  
 151, 173, 176, 184, 188, 192,  
 198, 208, Plate2, Plate3,  
 Plate11, Plate15, Plate19  
*C. mediterraneus* (*C. aestuarii*) 63, 151  
*Centrostephanus coronatus* 96  
*Chelonia midas* 67  
 Chemical challenges 201, 202  
 Chilling technique 27, 194  
 Chloroplast rhythmicity 183  
 Chromatophore rhythm (see Colour  
 change rhythm)  
 Chronon hypothesis 201  
 Circa-annual rhythm/clock 121,  
 126–133  
 Circadian/circatidal clock hypothesis  
 198–201  
 Circadian  
 phase-setting 42–64, 209  
 rhythm/clock 6, 19, 24, 26, 31, 37,  
 81, 85, 127, 143, 144, 184,  
 188, 203–208  
 Circalunar rhythm/clock 78, 81, 99,  
 109, 122, 124  
 Circalunidian clock hypothesis 197,  
 198  
 Circalunidian rhythm/clock 78, 81,  
 197, 198, 200  
 Circasemilunar  
 larval release 108, 111  
 rhythm/clock 85, 86, 99, 102, 112,  
 114  
 Circasemitidal rhythm 59  
 Circatidal  
 phase-setting 42–64, 209  
 rhythm/clock 18, 19, 23–27,  
 31–37, 59–63, 79, 85, 102,  
 145–149, 155, 160–165, 184,  
 194, 199, 200, 208  
 Classical endocrinology 187  
 Climate change 137  
 Clock-controlled orientation and  
 navigation 71–87

- Clock genes 203–205, 208  
*clock* gene 204
